Disclaimer

The opinions expressed in this Report have been based on the information supplied to SRK Consulting (South Africa) (Pty) Ltd (SRK) by Sasol Technology (Pty) Limited (Sasol). The opinions in this Report are provided in response to a specific request from Sasol to do so. SRK has exercised all due care in reviewing the supplied information. Whilst SRK has compared key supplied data with expected values, the accuracy of the results and conclusions from the review are entirely reliant on the accuracy and completeness of the supplied data. SRK does not accept responsibility for any errors or omissions in the supplied information and does not accept any consequential liability arising from commercial decisions or actions resulting from them. Opinions presented in this report apply to the site conditions and features as they existed at the time of SRK's investigations, and those reasonably foreseeable. These opinions do not necessarily apply to conditions and features that may arise after the date of this Report, about which SRK had no prior knowledge nor had the opportunity to evaluate.

NEM: AQA	National Environmental Management: Air Quality Act
NEMA	National Environmental Management Environmental Management Act

1 Introduction

Sasol is an international integrated energy and chemical company, and a significant business player in the South African economy. Sasol's manufacturing operations in South Africa are predominantly located in Secunda, in the Mpumalanga Province, Ekandustria, in Gauteng, and Sasolburg, in the Free State Province. Sasol has applied for postponement from compliance timeframes in terms of Regulation 11 of Section 21 of the NEM:AQA Minimum Emissions Standards for their respective operations.

Sasol's applications include the findings of an independently prepared Atmospheric Impact Report (AIR), which determines Sasol's impact on ambient air quality, along with further reasons that warrant consideration in a decision about postponements from the MES. Sasol has appointed Airshed Planning Professionals (Airshed) to prepare the AIR and SRK Consulting (SRK) to manage the technical studies and the associated stakeholder engagement.

1.1 Scope of this Report

This report documents the stakeholder engagement activities undertaken during the announcement phase, as well during the second phase where stakeholders had the opportunity to comment on the Draft Motivation Reports prepared for the Sasolburg operation.

2 Approach to stakeholder engagement

Sasol has structured its public participation process in support of postponement applications along the Environmental Impact Assessment (EIA) regulations published under the National Environmental Management Act (Act 107 of 1998) (NEMA), as specified in the November 2013 Minimum Emissions Standards (MES) regulations in GN 893.

The stakeholder engagement process is an important component of the application process and is closely linked to the technical steps and activities required in the preparation of Motivation Reports (**Figure 2-1**).

The initial stakeholder engagement process comprised two rounds of engagement; public meetings that took place during the announcement phase and a second round of public meetings and focus group meetings that took place when the Draft Motivation Reports were made available for public comment.

Since the conclusion of the initial stakeholder engagement process in June 2014, the Minister of Environmental Affairs has formally notified Sasol that she will not consider its exemption applications, and has advised that postponement applications should be made instead. Sasol will therefore submit its previous exemption applications as additional postponement applications. While the additional applications contain materially the same content as the original exemption applications, a further opportunity will be provided to stakeholders to comment on these as additional postponement applications.

The final postponement applications that have not been affected by the Minister's notification were submitted to the National Air Quality Officer (NAQO) for decision-making in September 2014. Stakeholders were notified that their comments on final postponement applications could be submitted directly to the NAQO.

Figure 2-1: Technical and Stakeholder Engagement Process

3 Stakeholder identification

Stakeholders identified in previous environmental authorisation processes undertaken by SRK, together with lists of stakeholders that Sasol has regular contact with, networking and referral formed the basis for the development of the stakeholder database.

The stakeholder database for the Sasolburg operation comprised 98 stakeholders, representing various sectors of society as per the examples below. Refer to **Annexure 1** for the full database of stakeholders:

- National government: Such as The Department of Environment Affairs (DEA), Department on Mineral Resources (DMR) and the Department of Water Affairs (DWA).
- Provincial government: Such as the Free State Department of Economic Development Tourism and Environmental Affairs (FDEDET), Health and Social Development, Water Affairs and the South African Local Government Association (SALGA).
- District and local government: Fezile Dabe District Municipality, Metsimaholo Local Municipality and their ward councillors.
- NGOs and interest groups: Such as Save the Vaal Environment, the Vaal Environmental Alliance (VEJA), Wildlife and Environment Society of South Africa (WESSA), Legal Resources Centre (LRC), Centre for Environmental Rights (CER) and GroundWork.
- Organised business and commerce: Such as Business Unity South Africa (BUSA).
- Organised mining and industry: Such as the Chamber of Mines.
- Community based organisations: Sasol Community Working Group.
- Labour unions and associations: Transvaal Agricultural Union (TAUSA), National Education Health and Allied Workers' Union (NEWAHU).
- Research and academia: Council for Scientific and Industrial Research (CSIR) and Infotox.
- Media: Sedibeng Ster, Vaal Weekblad.
- Parastatals: Eskom, Transnet, Telkom and the South African National Biodiversity Institute (SANBI).
- Sasol employees (internal stakeholders).
- Adjacent and surrounding landowners.

The database also includes a list of registered I&APs (see **Annexure 2**) as per the requirement in Chapter 6, (55.1) specified in NEMA. The database was reviewed and updated, after each round of engagement during the application process.

4 Project announcement

The project announcement phase was conducted between **15 September and 15 October 2013**. Stakeholders were invited to become involved in the process and to attend a public meeting, as follows:

- Distribution by email and mail, of invitation letters accompanied by a Background Information Document (BID), and Registration and Comment Form in English, Afrikaans and Sesotho (see **Annexure 3**) for copies of these documents).
- Advertisements in two national newspapers (see **Annexure 4**) to announce the application process:
 - Sunday Times (English), Sunday, 15 September 2013.
 - Beeld (Afrikaans), Tuesday, 17 September 2013.
- Advertisements in local newspapers (see **Annexure 4**):
 - Sasolburg Ster (English), Wednesday, 18 September 2013.
 - Puisano (Sesotho), Friday, 20 September 2013.
 - Vaal Weekblad (Afrikaans), Wednesday, 18 September 2013.
- Erecting four A2 sites notices at the Sasolburg site offices. (Refer to **Annexure 4** for a copy of the site notice. The locations of site notices across the operations are shown in **Figure 4-1** below).
- Posting the BID, invitation letter and Comment Forms on the SRK website (www.srk.co.za).
- Placing the BID, invitation letter and Comment Forms in publicly accessible venues close to the Sasolburg operation, namely the Sasolburg public library and at the reception office at Metsimaholo Local Municipality (refer to **Figure 4-1**).
- Telephonic and SMS notifications to stakeholders to inform them of the opportunity to comment and to remind them of the public meeting.

**Figure 4-1: Location of site notices and public places**

4.1 Public meeting

The public meeting for the Sasolburg operation was held on Monday, 7 October 2013, between 13:00 and 15:00, at the Boiketlong Community Hall in Sasolburg. The primary objectives of the first round of stakeholder engagement were to:

- Provide I&APs with background information on the Sasol application process and associated stakeholder engagement.
- Outline the application process and opportunities for comment.
- Introduce the SRK, Airshed and Sasol team members to stakeholders.

In addition to the BIDs distributed electronically and by mail with the invitation letters, made available at public places, 60 BIDs and comment forms were distributed during the public meeting. Please refer to **Table 4-1**.

A PowerPoint presentation in English, based on the information contained in the BID, was used to present information to stakeholders during the public meeting. Afrikaans and Sesotho interpreters were present to assist with the communication process.

In addition to the Sasol staff and project team members and consultants, six stakeholders representing the authorities, business and industry, Zamdela community based organisations, and the media attended the public meeting. The meeting list is included in **Annexure 5**.

Sasolburg public meeting

Table 4-1: Distribution of BIDs at the Sasolburg public meeting

Meeting Details	Venue	Approximate number of attendees	Number of BIDs/ comment sheets distributed		
			English	Afrikaans	Sesotho
Sasolburg Meeting Monday, 7 October 2013	Boiketlong Community Hall	6 Stakeholders 17 (SRK and Sasol team members)	20	20	20

4.2 Opportunities for comment

In addition to the opportunities to comment verbally at the public meeting, stakeholders were encouraged to submit their written comments to the team members present at the meeting, using the comment form enclosed with the BID.

Stakeholders could also contact the SRK stakeholder engagement team via telephone, email or fax to submit comments and to discuss any issues of concern.

Four written comments and 1 email submission were received during the comment period.

4.3 Key issues raised by stakeholders during announcement

The key comments, concerns and suggestions raised by stakeholders for the Sasolburg operation are summarised below. For the full list of comments, please refer to the CRR which is attached in the Motivation Report as **Annexure D**:

- **Comments relating to Sasol's application process** – Stakeholders' comments focused on Sasol's reasons for applying for postponement, legal requirements, timeframe for compliance, and requests for details regarding which plants and processes require postponement.
- **Stakeholder engagement** - It was noted that the BID did not provide sufficient information for meaningful stakeholder comment. Stakeholders commented on the poor attendance at the public meeting and made suggestions for more convenient venues and meeting times. Some stakeholders requested an extended public comment period.

The Sasol Community Working Group thanked Sasol for its efforts and demonstrating care for the surrounding communities.

- **Environmental concerns** - Stakeholders expressed concern regarding Sasol's air emissions and actual contribution to air pollution in the area. Other environmental concerns regarding the impact of Sasol's emissions on water quality, health and socio-economic aspects, such as Sasol's obligation to re-invest in communities in their area of operation, and to empower communities to care for the environment, were also raised.

5 Public comment on the Draft Motivation Report

It was anticipated that the draft Motivation Report would be made available for public comment in January or February 2014. However, due to the amendment of the Minimum Emissions Standards (MES) in November 2013, the schedule for the availability of the report was affected. A feedback letter was distributed by mail, email and fax (in English) in January 2014, to notify stakeholders of the schedule change. This letter was available in Afrikaans and Sesotho on request. Refer to the letter in **Annexure 6**.

Due to the fact that the public meetings held during the first round of stakeholder engagement was poorly attended, despite reasonable efforts, it was proposed to hold focus group meetings with key stakeholders in addition to public meetings during the second round of engagement. This was to encourage greater stakeholder participation in the application process.

Stakeholders were invited to comment on the Draft Motivation Report, as follows:

- Distribution by email and mail, of an invitation letter to attend public meetings, accompanied by a Comment Form in English. These documents were available in Afrikaans and Sesotho upon request (**Annexure 7**).
- Posting the letter, Comment Form and the Draft Motivation Reports on the SRK website (www.srk.co.za).
- Placing the letter, Comment Form and the Draft Motivation Reports in publicly accessible venues close to the Sasolburg operation, as during the announcement phase.
- Advertisements in two national newspapers to announce the availability of the Draft Motivation Report for public comment (**Annexure 8**):
 - Sunday Times (English), Sunday 30 March 2014.
 - Beeld (Afrikaans), Tuesday 1 April 2014.
- Advertisements in local newspapers (**Annexure 8**):
 - Sasolburg Ster (English), Wednesday 2 April 2014.
 - Puisano (Sesotho), Friday 11 April 2014.
 - Vaal Weekblad (Afrikaans, Wednesday 2 April 2014).
- Telephonic and SMS notifications to stakeholders to inform them of the opportunities to comment.

5.1 Public meeting

The public meeting for the Sasolburg operation was held on Monday, 19 May 2014, between 13:00 and 15:00, at the Ingwe Conference Centre in Vanderbijlpark. The primary objectives of the second round of stakeholder engagement were to:

- Provide stakeholders with the opportunity to discuss and comment on the Draft Motivation Report.
- Ensure that their views and comments recorded in the announcement phase have been recorded and understood.

In addition to invitation letters distributed via email, the invitation letters, comment forms and Draft Motivation Report were made available at public places. Forty comment forms and 10 CD copies of the report were made available to stakeholders at the public meeting.

A PowerPoint presentation in English, based on the information contained in the Draft Motivation Report, was used to present information to stakeholders during the public meeting.

In addition to the Sasol staff and project team members, thirteen stakeholders representing authorities, residents, landowners and business and industry attended the public meeting. The meeting list is included in **Annexure 9**.

5.2 Focus Group Meeting with key stakeholders

A focus group meeting was held with key stakeholders such as NGOs, environmental and conservation groups and organised sectors of society (business and labour, organised civil society groups and community based organisations) on 23 May 2014, at the Hacklebrooke Conference Centre in Johannesburg. The purpose of this meeting was to provide key stakeholders with an additional opportunity to comment on the Draft Motivation Reports of all Sasol operations. Please refer to **Annexure 10** for a list of attendees at this meeting. All comments made at this meeting have been included in the CRRs of all Sasol operations which are attached in the Motivation Report as **Annexure D**.

Focus group meeting in Johannesburg

5.3 Additional invitation for additional Focus Group Meeting with key stakeholders

An additional invitation was extended to representatives of certain key stakeholders such as NGOs and local and provincial government to participate in an additional meeting with the Sasol project team to clarify any technical questions or comments they may have on Sasol's applications and reports. These organisations have not requested an additional clarification meeting with the Sasol project team.

5.4 Key issues raised by stakeholders during public comment on Draft Motivation Reports

The key comments, concerns and suggestions raised by stakeholders at the Sasolburg public meeting are summarised below:

- **Application process** - Stakeholders were of the opinion that Sasol was in direct violation of the Bill of Rights, which stipulates that every citizen is entitled to an environment that is not harmful to their health and questioned why Sasol was delaying compliance as it had since 2010 to comply with the MES. In addition, that Sasol had no right to apply for postponement I the area in which they operate was not in compliance with national ambient air quality standards.
- **Environmental concerns** – Questions relating to the amount of money that Sasol has spent to reduce PM₁₀ emissions in Zamdela and questions regarding Sasol's contribution to emission of

greenhouse gases and climate change. Concerns were expressed that Sasol's emissions causes serious respiratory problems, headaches and asthma. Stakeholders wanted to know what Sasol's impact was on health of residents and how this impact was going to be addressed.

Some stakeholders felt that Sasol was shifting the blame for non-compliance with ambient air quality standards to communities. In addition, that Sasol has been afforded sufficient opportunity to comply with the MES.

Some stakeholders were of the opinion that postponements from the MES should not be granted for Sasol operations as there was no legal basis for their application, and that Sasol has not addressed the adverse health impacts of their operations, or cumulative impacts. Applications have not been submitted within the appropriate time of compliance date and no postponement should be allowed for hazardous air pollutants, such as PM and other hazardous emissions.

- **Stakeholder engagement** – Questions were asked regarding the methods used to involve stakeholders in Sasol's application process and the success of public meetings to engage stakeholders. It was noted that the information presented at public meetings were too technical and that capacity building initiatives should have been engaged to assist stakeholders to contribute more meaningfully to this process. In addition, that the 40 day comment period was not sufficient to comment on reports and consult with specialists.

It was noted that advertisements were not the most effective way of advertising public meetings and suggestions were made for more effective ways of notifying communities of public meetings in future. Questions were raised as to how stakeholders were to provide comment on reports when it is stated in the draft motivation reports that it was a criminal offence to publish any part of the document without written consent of the author.

6 Way forward on application process

Stakeholders were informed in writing (email, fax, post) (**Annexure 11**) that the Minister of Environmental Affairs formally notified Sasol that she would not consider its exemption applications, and advised that postponement applications should be made instead. In line with the Minister's notification, Sasol submitted the following to the NAQA for decision-making:

- Final postponement applications that have not been affected by the Ministers' notification.
- Previous exemption applications as additional postponement applications.

7 Notification of public comment on draft Motivation Reports in support of additional postponement applications

Stakeholders were invited to comment on the Additional Postponement Applications which were available for stakeholder comment for a period 40 days from, **Monday 13 October to Friday 21 November 2014**, as follows:

- Distribution by email, mail and fax of an information letter, accompanied by a Comment Form in English. These documents were available in Afrikaans and Sesotho upon request (**Annexure 12**).
- Posting the letter, Comment Form and additional postponement applications on the SRK website www.srk.co.za.

- Advertisements in local newspapers to announce the availability of the Draft Additional Postponement Applications for public comment (**Annexure 13**):
 - Sasolburg Ster (English), Wednesday 8 October 2014.
 - Puisano (Sesotho), Wednesday 8 October 2014.
 - Vaal Weekblad (Afrikaans), Wednesday 8 October 2014.
 - Ridge Times (English & Afrikaans), 8 October 2014.
 - Ekasi News (Zulu), 10 October 2014.

8 Notification of submission of Final Additional Postponement Applications

Stakeholders were notified in writing (mail, email and fax) that the final additional postponement applications have been submitted to the NAQO for decision-making and that comments on the reports can be submitted directly to the NAQO within 21 days. Final Motivation Reports were made available electronically for stakeholder's information on the SRK website www.srk.co.za, or on request from the stakeholder engagement office.

9 Comment and Response Report

All comments, concerns, questions and suggestions raised during the Sasolburg public meeting, as well as any written comments received from stakeholders have been recorded in the Comment and Response Report (CRR). The CRR provides a consolidated record of stakeholder comments as well as responses from the SRK, Airshed and Sasol project team members. The CRR is attached in the Motivation Report as **Annexure D**.

10 Conclusion

Contributions to Sasol's application process by a wide range of stakeholders will ensure that the relevant aspects and issues raised and reflected in the CRR are considered as part of the authority decision-making process.

Annexure 3: Invitation Letters, BID and Comment Forms

17 September 2013
 460365

INVITATION TO REGISTER AND PARTICIPATE

Application for postponement and exemption from certain requirements of the National Environmental Management: Air Quality Act No. 39 of 2004 - Minimum Emissions Standards for Sasol's operations in Secunda, Sasolburg and Ekandustria

Dear Stakeholder

- ***Availability of a Background Information Document (BID) for comment***
- ***Invitation to register as an I&AP***
- ***Public Meetings***
- ***Subsequent steps in the application process***

Sasol is an international integrated energy and chemical company, and a significant business player in the South African economy. Sasol's manufacturing operations in South Africa are predominantly in Secunda in Mpumalanga and Sasolburg in the Free State.

In 2010, Minimum Emission Standards (MES) were published under the National Environmental Management: Air Quality Act (Act No 39 of 2004). In terms of the MES, existing production facilities must comply with 'existing plant standards' by 1 April 2015, and with stricter 'new plant standards' by 1 April 2020.

While most of Sasol's process emissions will comply with the future MES, there are some that cannot meet the standards within the required timeframes, and others which are unlikely to meet the standards at all. Sasol Synfuels (Proprietary) Limited in Secunda and three operating divisions of Sasol Chemical Industries Limited (Sasol Solvents in Secunda, Sasol Infrachem in Sasolburg and Sasol Nitro in Ekandustria), therefore intend to apply for either postponements or exemptions from the MES in these specific cases.

Sasol's applications will include the findings of independently prepared Atmospheric Impact Reports (AIRs), which will determine Sasol's impact on ambient air quality, along with further reasons that warrant consideration in a decision about postponements or exemptions from the MES. To achieve this, Sasol has appointed Airshed Planning Professionals to prepare the Atmospheric Impact Reports and SRK Consulting to manage the technical studies and the required stakeholder engagement process.

Availability of a Background Information Document (BID) for comment

The enclosed Background Information Document (BID) includes details of the reasons for Sasol's postponement and exemption applications. It provides interested and affected parties (I&APs) with an initial opportunity to comment on the application process and to register. Your comments and suggestions on any aspect of the application process will be included in the application and will assist the authorities to make a decision.

The BID, with an accompanying Registration and Comment Form, will also be available for public comment in four different languages (English, Afrikaans, Sesotho and isiZulu), on the SRK Website at <http://www.srk.co.za/en/page/sasol-postponement-exemption>, and at the public places listed below.

You are welcome to comment on the BID by:

- Completing the enclosed registration and comment form and submitting it to the stakeholder engagement office (details below);
- Writing a letter or additional written submission by mail, email or fax; and / or
- Calling the stakeholder engagement office.

Invitation to register as an I&AP

You are invited to register as an interested and affected party (I&AP) for Sasol's application process, in order to comment or raise any issue of concern. Please register by completing the enclosed Registration and Comment Form and submitting this to the Stakeholder Engagement Office by **Tuesday, 15 October 2013**. You are welcome to forward this invitation to others who may be interested in registering as I&APs in this process.

Initial public meetings

Initial public meetings will be held to facilitate information sharing, and to obtain comments on Sasol's application process. Details of the public meetings are provided below. Should you wish to attend the public meetings, or comment on this BID, please contact:

Lysette Rothmann-Guest

Tel: +27(0)11 441 1111

Fax: +27(0)86 5061737

Email: irothmann-guest@srk.co.za

Area	Date	Time	Venue
Sasolburg	Monday, 7 October 2013	13:00 – 15:00	Boiketlong Community Hall, Eric Louw Street, Sasolburg
Ekandustria	Wednesday, 9 October 2013	11:00 – 13:00	Kaia Manzi Conference Centre, 75 Kilimanjaro Street, Bronkhorstspruit Dam
Secunda	Thursday, 10 October 2013	13:00 – 15:00	eMbhalehle Community Hall, 2937 Ingwe Street, eMbhalehle

Subsequent steps in the Application Process

Once the Draft Applications are completed, they will be made available for public comment. I&APs will be given advanced notice of the availability of the reports and of the date and venue of scheduled public meetings to discuss them.

Thank you for your participation in this application process and we look forward to engaging with you in due course.

Yours faithfully,

SRK Consulting (South Africa) (Pty) Ltd

BACKGROUND INFORMATION DOCUMENT AND OPPORTUNITY TO COMMENT

(ALSO AVAILABLE IN AFRIKAANS, SESOTHO AND ISIZULU)

SEPTEMBER 2013

APPLICATIONS FOR POSTPONEMENT AND EXEMPTION FROM CERTAIN REQUIREMENTS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT NO. 39 OF 2004 - MINIMUM EMISSIONS STANDARDS, FOR SASOL'S OPERATIONS IN SECUNDA, SASOLBURG AND EKANDUSTRIA

INTRODUCTION

The purpose of this document is to provide stakeholders with the following:

- Information on the background to Sasol's applications for postponements or exemptions from the requirements of the National Environmental Management: Air Quality Act No 39 of 2004 (NEMAQA) – Section 21 Minimum Emissions Standards (MES) (published in GNR No. 248 of 31 March 2010) for Sasol's operations in Secunda, Ekandustria and Sasolburg (The location of these facilities is indicated on pages 9-11).
- An outline of the legal framework governing air quality management in South Africa and specifically NEMAQA Section 21 listed activities, pertinent to this BID and related applications.
- Sasol's high level reasons for requesting postponement from Compliance Timeframes and exemptions for selected NEMAQA Section 21 listed activities.
- Information on the stakeholder engagement and application process that will be followed.
- Opportunity to provide comments relating to the application.

BACKGROUND

Background to Sasol

Sasol is an international integrated energy and chemical company, and a significant business player in the South African economy. Sasol's manufacturing operations in South Africa are predominantly in Secunda, Mpumalanga and Sasolburg, Free State, spread across economic sectors including energy and chemicals.

In Secunda, Mpumalanga, Sasol's operations comprise operations under entities including Sasol Mining (Proprietary) Limited, Sasol Synfuels (Proprietary) Limited, various entities of Sasol Chemical Industries Limited (Sasol Solvents, Sasol Polymers, Sasol Nitro), Sasol Technology (Proprietary) Limited and Sasol Group Services (Proprietary) Limited. In Sasolburg, operations comprise Sasol Mining (Proprietary) Limited, Sasol Oil (Proprietary) Limited, various entities of Sasol Chemical Industries Limited (Sasol Solvents, Sasol Polymers, Sasol Olefins and Surfactants, Sasol Wax, Sasol Merisol and Sasol Infrachem) and Sasol Technology (Proprietary) Limited. Sasol Nitro has additional operations at Ekandustria in Gauteng.

Air quality management

The term "ambient air quality" refers to the state of the air in our surrounding environment. Good air quality is important not only for humans, but for other organisms and the environment in general. Poor air quality is a result of a number of factors, including emissions from various sources, both natural (such as veld fires) and "human-induced" (industrial and domestic emissions).

The role of the authorities is to ensure that ambient air quality meets standards set to protect human health and the environment. In order to achieve this, the Department of Environmental Affairs has promulgated two related but distinct standards. The first are referred to as point source emissions standards (also called Minimum Emissions Standards), which place limits on the concentration of emissions from certain industrial activities. These are contained in the Section 21 listed activities as described in the Introduction. The second are ambient air quality standards which seek to set total emissions from all contributors (i.e. industry, citizens and natural causes) to a level that protects human health and the environment.

Sasol's approach to environmental management

Sasol is committed to growing its business for the long term in a safe, ethical, compliant and environmentally responsible way, consistent with its Safety, Health & Environment policy and Sasol values. It is continuously implementing new actions and processes to align with its commitments. Sasol reports on its environmental improvement objectives in its annual Sustainable Development Reports, available at:

<http://www.sasol.com/sustainability/reports>

Note: Greenhouse gases, which cause climate change, are not part of the MES. Hence greenhouse gases are not considered in Sasol's postponement and exemption applications. These applications are limited to atmospheric emissions which have localised impacts and which are not related to greenhouse gases.

Sasol's approach to air quality management

Sasol's approach to air quality management is well aligned with the risk-based philosophy adopted by the ambient air quality standards.

Sasol prepares dispersion model scenarios to understand its impacts on ambient air quality in the regions in which it operates, and its capacity to improve these outcomes with point source emission reduction technologies e.g. electrostatic precipitators for particulate matter. This is contextualised against the backdrop of other sources of ambient air pollution, to identify the most effective actions to achieve ambient air quality improvements. This approach helps to inform Sasol's air quality management priorities, by identifying the key actions to effectively improve ambient air quality.

Sasol remains committed to meeting its commitments agreed to in the Highveld Priority Area Air Quality Management Plan (where its Secunda facility is located) and the Vaal Triangle Priority Area Air Quality Management Plan (where its Sasolburg facility is located).

To this end Sasol is implementing projects in these priority areas, and provides regular updates to its local licensing authorities in this regard. These commitments include a reduction in Emissions of particulate matter, volatile organic compounds, hydrogen sulphide, sulphur dioxide and nitrogen dioxide.

Sasol has spent approximately R2 billion per year over the past decade on environmental improvement projects, most of which has been focused on air quality improvement.

BACKGROUND TO AIR QUALITY MANAGEMENT LEGISLATION IN SOUTH AFRICA

Constitution

Section 24 of the Constitution, specifically the Bill of Rights, stipulates that:

“Everyone has the right to an environment that is not harmful to their health or well-being; and to have the environment protected, for the benefit of present and future generations, through reasonable legislative and other measures that:

- *Prevent pollution and ecological degradation;*
- *Promote conservation; and*
- *Secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development.”*

National Framework for Air Quality Management

The National Framework for Air Quality Management in the Republic of South Africa (11 September 2007) provides a guideline to the interpretation and application of the NEMAQA, and has been developed to assist the responsible parties to achieve the objectives and regulations set out in the Act. The framework includes mechanisms, systems and procedures to attain compliance with ambient air quality standards, including an outline of the process required to set point source emissions standards.

NEMAQA

In keeping with the Bill of Rights, the NEMAQA was enacted on the 24 February 2005. One of its objectives is “*generally to give effect to (that right) in order to enhance the quality of ambient air for the sake of securing an environment that is not harmful to the health and well-being of people*”. It aims to “*provide reasonable measures for the prevention of pollution and ecological degradation and for securing ecologically sustainable development while promoting justifiable economic and social development*”.

NEMAQA provides for various specific air quality management measures. These include the declaration of priority areas such as the Vaal Triangle Priority Area and the Highveld Priority Area, ambient air quality standards and point source MES as published in GNR No. 248 31 March 2010.

Minimum Emissions Standards

Section 21 of the NEMAQA provides for the listing of activities that must be licensed in accordance with the MES, published in GN 248 of 2010. The MES prescribe the limits for point source emissions from existing plants that must be met by 1 April 2015, as well as more stringent limits that must be met by 1 April 2020 (the so-called ‘new plant standards’) (termed “Compliance Timeframes”).

Exemptions under NEMAQA

Section 59(1) of NEMAQA allows any person to apply for exemption from a provision of the Act. This application must be made to the Minister of the Department of Environmental Affairs. The applicant must provide reasons for the application and must take steps, as may be required, to bring it to the attention of relevant organs of state, interested persons and the public. This includes publication of a notice in two national newspapers.

Postponements under NEMAQA

Section 6 of the MES permits applications for postponements of the Compliance Timeframes. These applications must be made to the National Air Quality Officer at the Department of Environmental Affairs. As part of its application, Sasol is required to submit an Atmospheric Impact Report (AIR) and detailed justification and reasons. Postponement applications must be announced by way of notice in at least one newspaper circulating in the area affected by the plant.

Specific Legal Provisions for Postponement and Exemption Applications

Postponement of the Minimum Emissions Standards will be applied for in terms of section 6 of the Listed Activities and Associated Minimum Emissions Standards identified in terms of section 21 of the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004):

- (1) As contemplated in Section 5.4.3.5 of the 2007 National Framework for Air Quality Management in South Africa (2007), an application may be made to the National Air Quality Officer for the postponement of the compliance timeframes in Section 5 for an existing plant.
- (2) The application contemplated in 6(1) must include:
 - (a) An atmospheric Impact Report in terms of Section 30 of the Act, compiled by a person registered as a professional engineer or as a professional natural scientist in the appropriate category;
 - (b) A detailed justification and reasons for the application; and
 - (c) A certified copy of the announcement of the intention to seek postponement in, at least, one newspaper distributed in the area affected by the specific plant.
- (3) The National Air Quality Officer, with the concurrence of the Licensing Authority as contemplated in section 36 of the Act, may grant a postponement of the compliance timeframes in (5) for an existing plant, not exceeding 5 years.

Exemption from complying with the Minimum Emissions Standards will be applied for in terms of section 59 of NEM: AQA:

- (1) (a) Any person or organ of state may, in writing, apply for exemption from the application of a provision of this Act to the Minister.
(b) No exemption from a provision of section 9, 22 or 25 may be granted in terms of paragraph (a).
- (2) An application in terms of subsection (1) must be accompanied by reasons.
- (3) (a) The minister may require an applicant applying for exemption to take appropriate steps to bring the application to the attention of relevant organs of state, interested persons and the public.
(b) The steps contemplated in paragraph (a) must include the publication of a notice in at least two newspapers circulating nationally –
 - (i) Giving reasons for the application; and
 - (ii) Containing such other particulars concerning the application as the Minister may require.
- (4) The Minister may–
 - (a) From time to time review any exemption granted in terms of this section; and
 - (b) On good grounds withdraw any exemption.
- (5) The Minister may on such conditions and limitations determined by the Minister delegate any of the powers contained in this section to –
 - (a) The MEC responsible for air quality in a province; or
 - (b) A metropolitan or district municipality.

SASOL'S APPLICATIONS

Sasol is applying for selected postponements and exemptions at certain of its operations. Four of Sasol's local entities may not meet full requirements for compliance with the NEMAQA and the MES, namely:

- Sasol Synfuels Limited - Secunda, Mpumalanga
- Sasol Solvents, an operating division of Sasol Chemical Industries Limited - Secunda, Mpumalanga
- Sasol Infrachem, an operating division of Sasol Chemical Industries Limited - Sasolburg, Free State
- Sasol Nitro, an operating division of Sasol Chemical Industries Limited - Ekandustria, Gauteng

The locality of the affected operations is shown in the figure above.

More detail about the applications being made for each of these business units is provided on page 11- 13. The four entities operate a number of different processes that require Atmospheric Emissions Licences, most of which will comply with the Minimum Emissions Standards. Those processes involving emissions that cannot comply with the standards are being divided into separate applications, namely:

- Postponement applications - for processes involving emissions which cannot meet the 2015 deadline for existing plants but which are expected to be able to meet the emissions standards within 5 years of this date.
- Exemption applications - for processes involving emissions which are unlikely to meet the emissions standards at any time in the future.

The applications will take into consideration the findings of independently prepared Atmospheric Impact Reports, which will determine Sasol's impact on ambient air quality in the areas affected by its facilities, together with a number of other reasons, described below, that warrant consideration in a decision about postponements or exemptions from the MES. Where exemptions are sought, proposals for appropriate continuous improvement will be included. Sasol will also continue to explore abatement technologies for further improvement in its air emissions, in line with its continuous improvement philosophy.

The postponement and exemption applications will be separated because they are subject to different requirements under NEMAQA: postponements are regulated under Regulation 6 of the MES, while exemptions are regulated under Section 59 of the Act.

SASOL'S REASONS FOR APPLYING FOR SELECTED POSTPONEMENTS AND EXEMPTIONS

There are various reasons, including those listed below, which make abatement to the emissions levels within the Compliance Timeframes prescribed by the MES challenging in some cases, and reasonably impracticable in others. These reasons will be detailed for each process in the motivation for postponements or exemptions that will be submitted to the National Air Quality Officer and Minister respectively.

- **Holistic case for point source abatement** – Sasol's on-going assessment of air quality issues around its plants suggests that the MES will not necessarily yield significant improvements in ambient air quality, due to the material impact of activities such as domestic coal and wood burning, which elevates criteria pollutant concentrations during the cold winter months. Thus high cost on-site investments are unlikely to materially improve poor air quality in the priority areas in which Sasol operates. Environmental management must be integrated, acknowledging that all elements of the environment are linked and interrelated, and it must take in to account the effects of decisions on all aspects of the environment by selecting "best practicable environmental options", which are the options that provide the most benefit or causes the least damage to environment as a whole, at a cost acceptable to society
- **Environmental trade-offs** – Improvements in air quality often requires trade-offs which involve other negative environmental impacts and outcomes, and hence need to be considered more thoroughly in the context of integrated environmental management. For instance, reduction of sulphur dioxide emissions from the combustion of coal necessitates a significant increase in water use, as well as the mining and road transport of large volumes of lime or limestone, while also increasing greenhouse gas emissions. Furthermore, in some cases abatement technology will result in a significant increase in liquid and/or solid waste streams, which require disposal. This runs counter to national policy imperatives to reduce waste production and introduces further environmental impacts which must be balanced against air quality improvement objectives.
- **Space constraints** – The space available at Sasol plants has been optimised over decades of plant operations, expansions and improvements. This means that in some cases very little space is available for the installation of additional bulky abatement technology, where meeting the full requirements of the MES would require portions of the plant to be decommissioned and moved to a new site or replaced entirely. This would result in prohibitively costly upgrades to an existing plant.
- **Financial** – In some cases the cost of implementing abatement technology to meet new plant standards at Sasol's existing facilities will materially affect the remaining economic lifetime of the facilities. The socio-economic consequences of this need to be considered in ensuring that a balanced and sustainable approach to environmental management is taken.
- **Retrofitting existing plants to new plant standards** – Standard equipment installed on newer plants may not perform to the same levels when installed on existing plants, due to operational and design differences in old equipment.
- **Project implementation timeframes** – The execution of large capital projects, as required for compliance with the MES, requires several years to complete. The implementation of the required abatement technology within the Compliance Timeframes would necessitate the execution of several projects simultaneously, putting strain on project resources and resource availability. In order to limit downtime of the facility for production volume and energy security purposes, abatement retrofits are installed during planned maintenance and shutdown periods. In some cases this means taking one facility off-line to undertake maintenance while others remain running. This schedule in some cases extends beyond the 5 year period.

Interested and affected parties will be given an opportunity to comment on these aspects of the draft motivation reports during the stakeholder engagement process.

Alternative mechanisms to bring about sustainable improvements in ambient air quality, through approved offsets

For Sasol's plants built decades ago, reducing point source Emissions to levels achievable by new plants designed to latest specifications is not feasible for all its processes. However, as recognised by the Department of Environmental Affairs' National Air Quality Framework which guides development of air quality policy, an alternative mechanism to improve ambient air quality is being explored, to enable industries to "offset" their point source Emissions by reducing other Emissions sources contributing to ambient air quality, as part of a multipronged approach to addressing ambient air quality challenges. Examples of such alternatives include the reduction of coal and wood burning by poor communities in winter through cleaner fire making and cooking methods. Sasol has invested in a number of projects to reduce community Emissions, and is currently implementing a pilot project to quantify the potential benefits arising from another solution to address community Emissions, with significant additional social benefits.

Sasol is engaging with authorities to advance the development of a formally recognised offset mechanism supported by appropriate justifications, which would enable businesses to achieve the objectives of the Air Quality Act in line with sustainable development principles.

APPLICATION PROCESS

Sasol's approach

Sasol has appointed a team of independent specialists to assist with the applications. SRK Consulting (Pty) Ltd has been appointed to undertake the stakeholder engagement process. Airshed Planning Professionals (Pty) Ltd has been appointed to prepare the AIR. Sasol will appoint an independent fourth party as peer reviewer to comment on the air dispersion modelling approach, given the requirements for the postponements and exemptions applications.

In addition to the newspaper notices required to be published, Sasol is committed to providing stakeholders with the opportunity to provide their comment during the application process. This process has been informed, as far as practicable, by the requirements for consultation in terms of the National Environmental Management Act Environmental Impact Assessment (EIA) Regulations. Responses to comments received during the stakeholder engagement process will be submitted together with the Motivation Report.

The proposed technical and stakeholder engagement activities, as well as the broad timeframes for roll out of these processes are shown below.

Content of the Motivation Reports

Motivation Reports for the affected Sasol operations are being prepared and will include detail on each of the specific applications for postponements from Compliance Timeframes and/or exemptions, and the reasons for them.

The Motivation Report for both exemption and postponement applications will, amongst other things, be informed by the AIR as required in terms of section 6 of the MES to support such applications. The Motivation Report will be submitted, together with a report containing all the comments received from stakeholders, to the Minister of the Department of Environmental Affairs (DEA) and the National Air Quality Officer (NAQO) for consideration.

SASOL SYNFUELS AND SASOL SOLVENTS, SECUNDA

The Sasol Secunda site incorporates a number of business activities, including Sasol Synfuels and Sasol Solvents. At Secunda, Sasol Solvents, an operating division of Sasol Chemical Industries Limited, operates 12 plants that remove usable components from wash water and separate them into marketable products. Sasol Synfuels (Proprietary) Limited operates the world's only commercial coal-based synthetic fuels manufacturing plant.

Location of the Site

Both Sasol Synfuels and Sasol Solvents are located in the Sasol Secunda Complex in the Govan Mbeki Local Municipality, which forms part of the Gert Sibande District Municipality in the Mpumalanga Province.

Preparation of the AIR

The following emissions are being contemplated in the AIR:

- sulfur dioxide (SO_2)
- sulfur trioxide (SO_3) and acid mist as SO_3
- nitric oxide and nitrogen dioxide (NO_x)
- particulate matter (PM)
- carbon monoxide (CO)
- ammonia (NH_3)
- hydrogen fluoride (HF)
- hydrogen sulfide (H_2S)
- volatile organic compounds (VOCs)

The motivation report for the Sasol Secunda complex will include detail on each of the specific applications for postponements from Compliance Timeframes and/or exemptions, and reasons for them.

SASOL INFRACHEM, SASOLBURG

Sasol Infrachem, an operating division of Sasol Chemical Industries Limited, produces and markets ammonia and provides a services platform for reforming natural gas into synthesis gas.

Location of the Site

Sasol Infrachem is located in Sasolburg in the Metsimaholo local municipality which is part of the Fezile Dabi District Municipality in the Free State Province.

Preparation of the AIR

The following emissions are being contemplated in the AIR:

- sulfur dioxide (SO_2)
- nitric oxide and nitrogen dioxide (NO_x)
- particulate matter (PM)
- carbon monoxide (CO)
- Metals
- ammonia (NH_3)
- hydrogen chloride (HCl)
- hydrogen fluoride (HF)
- total organic compounds (TOCs)

Sasol Infrachem's motivation report will include detail on each of the specific applications for postponements from Compliance Timeframes and/or exemptions, and reasons for them.

SASOL NITRO, EKANDUSTRIA

Sasol Nitro, an operating division of Sasol Chemical Industries Limited, manufactures, markets and supplies industrial explosives, blasting accessories and fertiliser products. It also markets sulphur on behalf of the Sasol Group.

Location of the Site

Ekandustria is located approximately 65 km East of Pretoria and approximately 18 km north of the center of Bronkhorstspruit. Ekandustria exists within the Kungwini Local Municipality, which is part of the Tshwane Metropolitan Municipality.

Preparation of the AIR

The following emissions are being contemplated in the AIR:

- Mono-methylamine (MMA)

The motivation report for Sasol Nitro will include detail on the specific application for postponement from Compliance Timeframes and/or exemption, and reasons for it.

INVITATION TO COMMENT

Should you wish to register as an interested and affected party for this process, please complete the enclosed registration and comment form and submit it to the independent Stakeholder Engagement Team, at the contact details below, by the 15 October 2013.

UITNODIGING VIR REGISTRASIE EN DEELNAME

Aansoek om uitstel en vrystelling van sekere vereistes van die Nasionale Omgewingsbestuur: Wet op Luggehalte Nr.39 van 2004 – Minimum Emissies Standaarde vir Sasol se bedrywe in Secunda, Sasolburg en Ekandustria

Geagte Belanghebbende Party

- **Beskikbaarheid van Agtergrond Inligtingsdokument (AID) vir kommentaar**
- **Uitnodiging om te registreer as 'n Geïnteresseerde en Geaffekteerde Party**
- **Openbare Vergaderings**
- **Daaropvolgende stappe in die aansoekproses**

Sasol is 'n internasionaal geïntegreerde energie en chemiese maatskappy en speel 'n belangrike bedryfrol in die Suid-Afrikaanse ekonomie. Sasol se vervaardigingsbedrywe in Suid-Afrika is hoofsaaklik geleë in Secunda in Mpumalanga en Sasolburg in die Vrystaat.

Minimum Emissies Standaarde (MES) is in 2010 in terme van die Nasionale Omgewingsbestuur: Wet op Luggehalte (Wet 39 van 2004), gepubliseer. In terme van die MES moet bestaande produksiefasiliteite teen 1 April 2015 aan "bestaande aanlegstandaarde" voldoen en teen 1 April 2020 aan strenger "nuwe aanlegstandaarde".

Hoewel meeste van die emissies van Sasol se prosesse sal voldoen aan die toekomstige MES, is daar sommige wat nie aan die standaarde sal kan voldoen in die vereiste tydskedes nie, en ander wat waarskynlik glad nie aan die standaarde sal kan voldoen nie. Sasol Synfuels (Proprietary) Limited in Secunda en drie ander bedryfsafdelings van Sasol Chemical Industries Limited (Sasol Solvents in Secunda, Sasol Infrachem in Sasolburg en Sasol Nitro in Ekandustria), is gevoldiglik van plan om in hierdie spesifieke gevalle, om uitstel of vrystelling van die bepalings van MES aansoek te doen.

Sasol se aansoeke sal die bevindinge van onafhanklik voorbereide Atmosferiese Impak Verslae (AIV) insluit. Dit sal Sasol se impak op omliggende luggehalte, tesame met verdere redes wat in ag geneem behoort te

Partners AH Bracken, MJ Braune, JM Brown, CD Dalglish, JR Dixon, DM Duthe, BM Engelsman, R Gardiner, DJD Gibson, GC Howell, WC Joughin, DA Kilian, PR Labrum, DJ Mahlangu, RRW McNeill, HAC Meintjes, JA Middleton, MJ Morris, WA Naismith, GP Nel, VS Reddy, PN Rosewarne, PE Schmidt, PJ Shepherd, MJ Sim, VM Simposya, AA Smithen, HFJ Theart, KM Uderstadt, DJ Venter, ML Wertz, MD Wanless, A Wood

word by die besluit oor uitstel en vrystelling van die bepalings van die MES, bevat. Om dit te bereik het Sasol vir Airshed Planning Professionals aangestel om die AIVs op te stel en vir SRK Consulting om die tegniese ondersoeke en die openbare deelname proses, te bestuur.

Beskikbaarheid van `n Agtergrond Inligtingsdokument (AID) vir kommentaar.

Die ingesloten Agtergrond Inligtingsdokument (AID) sluit besonderhede van die redes vir Sasol se uitstel- en vrystellingsaansoeke in. Aanvanklik voorsien dit Geïnteresseerde en Geaffekteerde Partye van `n geleentheid om kommentaar te lewer op die aansoekproses en om te registreer. U kommentaar en voorstelle ten opsigte van enige aspek van die aansoekproses, sal ingesluit word by die aansoek en sal vir die owerhede van hulp wees tydens besluitneming.

Die AID, tesame met `n Registrasie- en Kommentaarvorm, sal ook vir openbare kommentaar in vier verskillende tale (Engels, Afrikaans, Sesotho en isiZulu) beskikbaar wees op SRK se Webblad by <http://www.srk.co.za/en/page/sasol-posptponement-exempiion> en by die openbare plekke hieronder gelys.

U word uitgenooi om kommentaar te lewer op die AID deur:

- die ingesloten Registrasie- en Kommentaarvorm in te vul en by die Openbare Deelnamekantoor, waarvan die besonderhede hieronder gegee word, in te dien;
- die skryf van `n brief of ander geskrewe voorlegging deur middel van gewone pos, e-pos of faks; en/of
- deur die Openbare Deelnamekantoor te skakel.

Uitnodiging om te registreer as n Geïnteresseerde en Geaffekteerde Party

Ten einde kommentaar te kan lewer, of enige kwessies te opper op Sasol se aansoekproses in hierdie spesifieke gevalle, word u uitgenooi om te registreer as *Geïnteresseerde en Geaffekteerde Party*. Registreer asseblief deur die ingesloten Registrasie- en Kommentaarvorm in te vul en by die Openbare Deelnamekantoor in te handig teen **Dinsdag, 15 Oktober 2013**. U kan ook hierdie uitnodiging aan enige iemand wat as *Geïnteresseerde en Geaffekteerde Party* in hierdie proses wil regstreer, bekend maak.

Aanvanklike openbare vergaderings

Aanvanklike openbare vergaderings sal gehou word ten einde deelname te faciliteer en om kommentaar op Sasol se aansoekproses in te win. Besonderhede van openbare vergaderings word hieronder gegee. Indien u belang sou stel om die vergaderings by te woon, of op die AID kommentaar te lewer, skakel asseblief vir:

Lysette Rothmann-Guest**Tel: +27(0)11 441 1111****Faks: +27(0)86 5061737****E-pos: irothmann-guest@srk.co.za**

AGTERGROND INLIGTINGSDOKUMENT EN GELEENTHEID VIR KOMMENTAAR

(OOK BESIKIBAAR IN ENGELS, SESOTHO EN ISIZULU)
SEPTEMBER 2013

AANSOEK OM UITSTEL EN VRYSTELLING VAN SEKERE VEREISTES VAN DIE NASIONALE OMGEWINGSBESTUUR: WET OP LUGGEHALTE NR. 39 VAN 2004 - MINIMUM EMISSIES STANDAARDE VIR SASOL SE BEDRYWIGHEDE IN SECUNDA, SASOLBURG EN EKANDUSTRIA

INLEIDING

Die doel van hierdie dokument is om belanghebbendes van die volgende te voorsien:

- Agtergrondinligting rakende Sasol se aansoeke om uitstel of vrystelling van die vereistes van die Nasionale Omgewingsbestuur: Wet op Luggehalte Nr 39 van 2004 (NEM:AQA) – Artikel 21 Minimum Emissies Standaarde (MES) (gepubliseer in GNR Nr. 248 van 31 Maart 2010) vir Sasol se bedrywighede in Secunda, Ekandustria en Sasolburg (die ligging van hierdie bedrywighede word op bladsy 9-11 aangedui).
- ‘n Uiteensetting van die wetlike raamwerk wat luggehalte in Suid-Afrika beheer en, spesifiek NEMAQA Artikel 21 se gelyste aktiwiteite, wat van toepassing is op hierdie Agtergrond Inligtingsdokument(AID) en verwante aansoeke.
- Sasol se hoë vlak redes vir die aansoek om uitstel van die voldoeningstydsraamwerke en vrystelling van sekere NEMAQA Artikel 21 gelyste aktiwiteite.
- Inligting rakende die openbare deelname- en aansoekproses wat gevvolg sal word.
- Geleenheid om kommentaar te lewer rakende die aansoek.

Sasol Se Agtergrond

Sasol is 'n internasionaal geïntegreerde energie en chemiese maatskappy wat 'n beduidende bydrae tot die Suid-Afrikaanse ekonomie lewer. Sasol se vervaardigingsbedrywe in Suid-Afrika is oorwegend geleë in Secunda in Mpumalanga en Sasolburg in die Vrystaat en sluit ekonomiese sektore soos energie en chemiese bedrywe in.

In Secunda bestaan Sasol se bedrywe uit die volgende besigheidsentiteite: Sasol Mining (Eiendoms) Limited Beperk, Sasol Synfuels (Eiendoms) Beperk en verskeie entiteite van Sasol Chemical Industries Beperk (Sasol Solvents, Sasol Polymers, Sasol Nitro), Sasol Technology (Eiendoms) Beperk en Sasol Group Services (Eiendoms) Beperk. In Sasolburg bestaan die bedrywe uit die volgende entiteite: Sasol Mining (Eiendoms) Beperk, Sasol Oil (Eiendoms) Beperk, verskeie entiteite van Sasol Chemical Industries Beperk (Sasol Solvents, Sasol Polymers, Sasol Olefins en Surfactants, Sasol Wax, Sasol Merisol en Sasol Infrachem) en Sasol Technology (Eiendoms) Beperk. Sasol Nitro het addisionele bedrywighede in Ekandustria in Gauteng.

Luggehaltebestuur

Die term "omliggende luggehalte" verwys na die gehalte van lug in die omringende omgewing. Goeie luggehalte is belangrik nie net vir mense nie, maar ook vir ander organismes en die omgewing in die algemeen. Swak luggehalte is die gevolg van 'n aantal faktore, soos emissies van verskeie bronse: beide "natuurlik" (soos veldbrande) en "mensgemaak" (soos industriële en huishoudelike emissies).

Die rol van die owerhede is om te verseker dat die luggehalte voldoen aan die standaarde wat daar gestel is om menslike gesondheid en die omgewing te beskerm. Die Departement van Omgewingsake het daarom twee verwante, maar afsonderlike standaarde gepromulgeer. Die eerste word 'n puntbron emissiestandaard genoem (of 'n minimum emissiestandaard), wat beperkings plaas op die konsentrasie van emissies van sekere industriële aktiwiteite. Dit word vervat in Artikel 21 gelyste aktiwiteite, soos in die Inleiding beskryf. Die tweede is omliggende luggehaltestandaarde wat ten doel het om standaarde daar te stel vir totale emissies van alle bydraers (i.e. industrieë, landsburgers en natuurlike oorsake) tot 'n vlak wat menslike gesondheid en die omgewing beskerm.

Sasol se benadering tot Omgewingsbestuur

Sasol is daartoe verbind om hul besigheid in die langtermyn te laat groei op 'n veilige, etiese en omgewingsverantwoordelike wyse. Dit geskied op 'n manier wat aan wetlike voorskrifte voldoen en inlyn is met Sasol se Veiligheids-, Gesondheids- en Omgewingsbeleid en sy waardes. Sasol is deurlopend besig om nuwe aksies en prosesse te implementeer wat in ooreenstemming is met hul verbintenisse. Sasol rapporteer jaarliks in hul Volhoubare Ontwikkelingsverslae oor doelwitte vir omgewingsverbeterings. Hierdie verslae is beskikbaar by:

<http://www.sasol.com/sustainability/reports>

Nota: Kweekhuisgasse, wat klimaatsverandering veroorsaak, is nie deel van die MES nie, en word dus nie in Sasol se aansoek om uitstel en vrystelling ingesluit nie. Die aansoeke is beperk tot atmosferiese emissies wat gelokaliseerde invloede het, en is nie verwant aan kweekhuisgasse nie.

Sasol se benadering tot die bestuur van luggehalte

Sasol se benadering tot die bestuur van luggehalte is inlyn met die risiko gebaseerde filosofie wat deur die omliggende luggehalte standaarde aanvaar is.

Sasol berei dispersie model scenarios voor om hul impak op omliggende luggehalte te verstaan in die gebiede waarin hul bedrywighede voorkom, asook hul kapasiteit om die resultate te verbeter met puntbron emissie verminderingsstegnologie, byvoorbeeld elektrostatische presipitators vir partikulêre materie. Dit word geplaas binne die konteks van ander bronne van omliggende lugbesoedeling, om sodoende die mees effektiewe aksies te identifiseer om verbeterings aan omliggende luggehalte te bereik. Hierdie benadering help om Sasol se prioriteite ten opsigte van luggehalte te bepaal. Deur sleutelaksies te identifiseer word omliggende luggehalte doeltreffend verbeter.

Sasol bly daartoe verbind om aan die ooreenkomste wat aangegaan is in the Hoëveld Prioriteitsarea Bestuursplan (waar die Secunda fasilitet geleë is) en die Vaaldriehoek Prioriteitsarea Bestuursplan (waar die Sasolburg fasilitet geleë is) na te kom.

Om dit te bereik, is Sasol in die proses om projekte in hierdie prioriteitsareas te implementeer. In hierdie verband word gereeld opdaterings aan hul plaaslike lisensiéringsowerhede voorgelê. Die verbintenisse sluit in vermindering in emissies van partikulêre materie, vlugtige organiese verbindings, waterstofsulfied, swaweldioksied en stikstofdioksied.

Gedurende die laaste 10 jaar het Sasol ongeveer R2 biljoen per jaar aan omgewingsverbeteringsprojekte bestee. Hiervan was die meeste op die verbetering van luggehalte gefokus.

AGTERGROND TOT WETGEWING RAKENDE LUGGEHALTE BESTUUR IN SUID-AFRIKA

Die Grondwet

Artikel 24 van Die Grondwet, spesifiek die Handves van Menseregte, bepaal dat:

“Almal die reg het tot ‘n omgewing wat nie skadelik vir hul gesondheid of welstand is nie; en om hul omgewing te laat beskerm tot voordeel van huidige en toekomstige geslagte, deur middel van billike wetlike en ander maatreëls wat:

- Besoedeling en ekologiese agteruitgang voorkom
- Natuurbewaring bevorder en
- Volhoubare ekologiese ontwikkeling en gebruik van natuurlike hulpbronne verseker, terwyl regverdigbare ekonomiese en sosiale ontwikkeling bevorder word”.

Nasionale Raamwerk vir Luggehaltebestuur

Die Nasionale Raamwerk vir Luggehaltebestuur in die Republiek van Suid-Afrika (11 September 2007) verskaf ‘n riglyn vir die interpretasie en toepassing van die NEMAQA, en is ontwikkel om betrokke partye by te staan om aan die doelwitte en vereistes van die regulasies, soos in die wet uiteengesit, te voldoen. Die raamwerk sluit meganismes, sisteme en procedures in om aan die omliggende lugkwaliteitstandaarde te voldoen, en sluit ‘n raamwerk in van die proses wat vereis word vir die daarstelling van puntbron emissiestandaarde.

NEMAQA

In ooreenstemming met die Handves van Menseregte, is die NEMAQA uitgevaardig op 24 Februarie 2005. Een van die doelwitte van die wet is “om in die algemeen uitvoering te gee (aan die reg) om die kwaliteit van die omliggende luggehalte te verbeter om sodoende ‘n omgewing te waarborg wat nie skadelik vir die gesondheid en welstand van mense sal wees nie”. Dit het ten doel “om redelike maatreëls daar te stel vir die voorkoming van besoedeling en ekologiese agteruitgang, en vir die versekering van ekologies volhoubare ontwikkeling, terwyl dit regverdigbare ekonomiese en sosiale ontwikkeling bevorder.”

NEMAQA maak voorsiening vir verskeie spesifieke luggehalte bestuursmaatreëls. Dit sluit die verklaring van prioriteitsareas, soos die Vaaldriehoek en die Hoëveld Prioriteitsarea se omliggende luggehalte standarde en puntbron emissies in, soos gepubliseer in die GNR Nr. 248, van 31 Maart 2010.

Minimum Emissies Standaarde

Artikel 21 van die NEMAQA maak voorsiening vir die lys van aktiwiteite wat gelisensiéer moet word ingevolge MES, soos gepubliseer in die GN 248 van 2010. Die MES skryf perke vir puntbron emissies voor waaraan bestaande aanlegte moet voldoen teen 1 April 2015.

Vrystellings in terme van NEMAQA

Artikel 59(1) van NEMAQA maak voorsiening vir enige persoon om aansoek te doen vir vrystelling van 'n bepaling van die Wet. Hierdie aansoek moet aan die Minister van die Departement Van Omgewingsake gerig word. Die aansoeker moet redes vir die aansoek voorsien en moet die nodige stappe neem om die aansoek onder die aandag van betrokke regeringsorganisasies, belanghebbende persone en die publiek te bring. Dit sluit die publikasie van 'n kennisgewing in twee nasionale koerante in.

Uitstel in terme van NEMAQA

Artikel 6 van die MES maak voorsiening vir aansoek om uitstel om aan die tydraamwerk te voldoen. Hierdie aansoeke moet aan die Nasionale Luggehalte Beampte by die Departement van Omgewingsake voorgelê word. As deel van die aansoek, is Sasol verplig om 'n Atmosferiese Impakverslag (AIV) in te dien, asook gedetailleerde regverdiging en redes vir die aansoek. Kennis moet gegee word van aansoeke om uitstel deur die plasing van 'n kennisgewing in ten minste een koerant in die area wat deur die aanleg geaffekteer word.

Bylaag 2 Spesifieke Wetlike Bepalings vir Uitstel- en Vrystellingsaansoeke.

Aansoeke vir uitstel van die Minimum Emissie Standaarde word Aansoek om vrystelling vir voldoening aan die Minimum Emissie in terme van Artikel 6 van die Gelyste Aktiwiteite en Geassosieerde Minimum Emissiestandaarde geïdentifiseer in terme van Artikel 21 van die Nasionale Omgewingsbestuur: Wet op Luggehalte (Wet Nr 39 van 2004):

1. Soos bepaal in Artikel 5.4.3.5 van die 2007 Nasionale Raamwerk vir Luggehaltebestuur in Suid-Afrika (2007) kan 'n aansoek tot die Nasionale Luggehalte Beampte gerig word vir die uitstel van die voldoeningsraamwerk in Artikel 5 vir 'n bestaande aanleg.
 2. Die aansoek soos bepaal in 6(1) moet die volgende bevat:
 - a) 'n Atmosferiese Impak Verslag in terme van artikel 30 van die Wet, ingeval deur 'n persoon wat geregistreer is as 'n professionele ingenieur of as 'n professionele natuurwetenskaplike in die toepaslike kategorie;
 - b) 'n Gedetailleerde regverdiging en redes vir die aansoek; en
 - c) 'n Gesertifiseerde afskrif van die bekendmaking van die voorneme om uitstel in ten minste een koerant, wat in die gebied gesirkuleer word wat deur die spesifieke aanleg beïnvloed word.
 3. Die Nasionale Luggehalte Beampte mag, met die instemming van die Licensieringsgesag, soos bepaal in Artikel 36 van die Wet, uitstel verleen van die voldoeningsraamwerk in (5) vir 'n bestaande aanleg. Hierdie uitstel mag nie vir langer as 5 jaar wees nie.
1. (a) Enige persoon of staatsorganisasie mag skriftelik aansoek doen by die Minister vir vrystelling van 'n bepaling van die Wet.
(b) Geen vrystelling van 'n bepaling van artikel 9,22, of 25 mag in terme van paragraaf (a) toegestaan word nie.
 2. 'n Aansoek in terme van subartikel (1) moet met redes met die aansoek gepaard gaan.
 3. (a) Die Minister mag van 'n applikant vereis om toepaslike stappe te neem om die aansoek onder die aandag van relevante regeringsorganisasies, betrokke persone en die publiek te bring.
(b) Die stappe soos in paragraaf (a) genoem, moet die publikasie van 'n kennisgewing in minstens twee nasionale koerante insluit wat-
 - (1) redes aanvoer vir die aansoek; en
 - (2) wat besonderhede insluit rakende die aansoek soos die Minister mag vereis.
 4. Die Minister mag –
 - (a) van tyd tot tyd enige vrystelling wat in terme van hierdie artikel toegestaan is, hersien; en
 - (b) met grondige redes die vrystelling terugtrek.
 5. Die Minister mag, met voorwaardes en beperkings soos deur die Minister bepaal, enige van die magte vervat in hierdie artikel, deligeer aan–
 - (a) die Lid van die Uitvoerende Komitee wat verantwoordelik is vir luggehalte in 'n provinsie ; of
 - (b) 'n metropolitaanse- of distriksmunisipaliteit.

SASOL SE AANSOEKE

Sasol doen aansoek vir geselekteerde uitstel en vrystelling by sekere van sy aanlegte. Vier van Sasol se plaaslike besigheidsentiteite mag moontlik nie aan die volle vereistes vir voldoening aan die NEMAQA en die MES voldoen nie, naamlik:

- Sasol Synfuels Beperk - Secunda, Mpumalanga
- Sasol Solvents, 'n bedryfsafdeling van Sasol Chemical Industries Beperk - Secunda, Mpumalanga
- Sasol Infrachem, 'n bedryfsafdeling van Sasol Chemical Industries Beperk - Sasolburg, Vrystaat
- Sasol Nitro, 'n bedryfsafdeling van Sasol Chemical Industries Beperk - Ekandustria, Gauteng

Die ligging van die betrokke bedryfsafdelings word in the figuur hierbo geïllustreer.

Meer besonderhede rakende die aansoeke vir elk van die besigheidseenhede word in bladsy 9-11 voorsien. Die vier eenhede bedryf 'n aantal verskillende prosesse wat Atmosferiese Emissies Licensies benodig. Die meeste van die prosesse sal aan die Minimum Emissies Standaarde voldoen. Die prosesse wat emissies behels wat nie aan die standaarde sal kan voldoen nie, word in verskillende aansoeke verdeel, naamlik:

- Uitstelaansoeke – vir prosesse wat emissies behels wat nie die 2015 sperdatum vir bestaande aanlegte sal haal nie, maar waar daar verwag word dat hulle sal kan voldoen aan die emissies standaarde binne die volgende 5 jaar van hierdie datum.
- Vrystellingsaansoeke – vir prosesse wat emissies behels waar dit onwaarskynlik is dat daar op enige tydstip in die toekoms aan die voldoen sal kan word.

Die aansoeke sal bevindinge van onafhanklik voorbereide Atmosferiese Impakverslae in ag neem. Dit sal Sasol se impak op die omliggende lugkwaliteit in die areas wat deur hul fasilitate geraak word, aandui. Dit sal ook ander redes, soos hieronder beskryf, wat oorweging regverdig tydens besluitnemings om uitstel en vrystelling van die MES in ag neem. Sasol sal voortgaan om verminderingsstegnologieë te ondersoek met die oog op verdere verbetering van die gehalte van hul lug emissies, inlyn met hul filosofie van voortdurende verbetering van lugkwaliteit.

Die uitstel- en vrystellingsaansoeke sal afsonderlik ingedien word, aangesien hul onderhewig is aan verskillende vereistes in terme van NEMAQA. Uitstel word gereguleer onder Regulasie 6 van die MES, terwyl vrystellings in terme van Artikel 59 van die Wet gereguleer word.

SASOL SE REDES VIR GESELEKTEERDE UITSTEL- EN

VRYSTELLINGSAANSOEKE

Daar is verskeie redes, insluitend dié hieronder gelys, wat die vermindering van emissievlekke soos voorgeskryf in die voldoeningstydraamwerke van die MES, moeilik bereikbaar maak in sommige gevalle, en redelik onprakties in ander gevalle. Hierdie redes sal vir elke proses gespesifiseer word in the motivering vir uitstel en vrystelling wat onderskeidelik aan die Nasionale Luggehalte Beampete en die Minister voorgelê sal word.

- **Holistiese saak vir puntbronvermindering** – Sasol se deurlopende assessering van die kwessie van luggehalte in en om sy aanlegte, duï daarop dat die MES nie noodwendig beduidende verbeterings in omliggende luggehalte sal lewer nie, as gevolg van die materiële impak van aktiwiteite soos die huishoudelike brand van steenkool en hout, wat die besoedelingskonsentrate gedurende die wintermaande verhoog. Dit is dus onwaarskynlik dat hoë finansiële terreininsette enige wesenlike verbeterings in swak luggehalte in die prioriteitsareas waarin in Sasol hul aanlegte bedryf, tot gevolg sal hê. Omgewingsbestuur moet geïntegreer word, en daar moet besef word dat alle omgewingselemente gekoppel en interafhanklik van mekaar is. Die effek van die besluite rakende alle aspekte van die omgewing moet in berekening gebring word deur die kies van die “mees praktiese omgewingsoplossings”, wat die opsigte is wat die meeste voordele bring en wat die minste skade aan die omgewing as ‘n geheel berokken, teen ‘n koste wat vir die samelewning aanvaarbaar is.
- **Omgewings onderhandelingsmeganismes** – Verbeterings in luggehalte vereis soms onderhandelingsmeganismis wat ander negatiewe omgewingsaspekte en resultate behels, en wat dus deeglik in oorweging geneem moet word in die konteks van geïntegreerde omgewingsbestuur. Byvoorbeeld, die vermindering van swaweldioksied emissies tydens die verbranding van steenkool, veroorsaak ‘n beduidende toename in watergebruik sowel as die myn en vervoer van hoë volumes kalksteen, terwyl dit ook ‘n verhoging in kweekhuisgasse tot gevolg het. Verder, in sekere gevalle het verminderingstegnologie ‘n beduidende vloeistof vermeerdering en/of soliede afvalstrome tot gevolg wat storting vereis. Dit druis in teen die nasionale beleidsverpligte om afvalwater te verminder en bring verdere omgewingsimpakte mee wat teen luggehalte verbeteringsobjektewe opgeweeg moet word.
- **Ruimte Beperkings** – Die ruimte wat by Sasol se aanlegte beskikbaar is, is oor dekades van bedryf, uitbreidings en verbeterings geoptimaliseer. Dit beteken dat in sekere gevalle daar baie min plek is vir die aanbring van groot addisionele verminderingsinstellasiës. Volle voldoening aan die MES sal vereis dat dele van die aanleg gesluit en geskuif sal moet word na ‘n nuwe terrein, of in geheel vervang sal moet word. Dit sal uiters duur upgraderings by bestaande aanlegte tot gevolg hê.
- **Finansieel** – In sekere gevalle sal die implementeringskoste van verminderingstegnologie om aan nuwe aanlegstandaarde by bestaande Sasol aanlegte te voldoen, die oorblywende ekonomiese leeftyd van die aanlegte direk beïnvloed. Die sosio-ekonomiese gevolge van hierdie vereiste moet in ag geneem word sodat ‘n gebalanseerde en volhoubare benadering tot omgewingsbestuur verseker word.
- **Hertoerusting van bestaande aanlegte tot nuwe standaarde** – As gevolg van verskille in bestuur en ontwerp in ou toerusting, is dit moontlik dat standaard toerusting wat in nuwer aanlegte geïnstalleer word, nie op dieselfde vlakke sal presteer wanneer dit by bestaande aanlegte geïnstalleer word nie,
- **Projek implementeringstydraamwerke** – Die uitvoer van grootskaalse kapitale projekte, soos vereis vir voldoening aan die MES, impliseer lang tydperke voor dit voltooi is. Die implementering van die vereiste verminderingstegnologie, binne die voldoeningstydraamwerk, het die uitvoer van ‘n aantal projekte in dieselfde tydsperiode tot gevolg, wat druk uitoefen op projekbronne en beskikbaarheid van bronne. Om staantyd te verminder vir die aanleg se produksievolume en vir doeleindes van energiesekuriteit, word verminderingstegnologie geïnstalleer gedurende verpligte aanlegsluiting om beplande onderhoud te doen. In sekere gevalle beteken dit dat een aanleg se produksie gestop word vir onderhoudsdoeleindes terwyl ander bly produseer. Hierdie skedule strek in sommige gevalle verder as die 5 jaar periode.

Betrokke en geaffekteerde partye sal gedurende die openbare deelname proses die geleentheid gebied word om kommentaar te lewer op die konsep motiveringsverslae, rakende hierdie aspekte van die aansoek.

Alternatiewe meganismes om volhoubare verbeterings in omliggende luggehalte deur goedgekeurde alternatiewe teenwigte daar te stel

Vir Sasol se aanlegte wat dekades gelede gebou is, is die vermindering van puntbron emissies tot vlakke wat bereikbaar is vir nuwe aanlegte (ontwerp volgens die nuutste spesifikasies) nie haalbaar vir al hul prosesse nie. Die Departement van Omgewingsake erken egter deur sy 'Nasionale Luggehalte Raamwerk', wat leiding neem in die ontwikkeling van luggehalte beleid, dat 'n alternatiewe meganisme ondersoek behoort te word om omliggende luggehalte te verbeter. Dit sal industrieë in staat stel om hul puntbron emissies af te sit teen die vermindering van ander emissie bronne wat tot grondvalakluggehalte bydra, as deel van hul veeldoelige benadering om uitdagings met betrekking tot omliggende luggehalte aan te spreek. Voorbeeld van die alternatiewe sluit die vermindering van die brand van steenkool en hout by arm gemeenskappe gedurende die winter in, deur die gebruik van skoner vuurmaak- en kookmetodes. Sasol het in 'n aantal projekte belê vir die vermindering van die gemeenskap se emissies. Sasol is tans besig met die implementering van 'n loodsprojek om die potensiële voordele te bepaal van 'n ander oplossing wat gevind is om die emissies wat deur die gemeenskap vrygestel word aan te spreek. Hierdie stap sal beduidende addisionele sosiale voordele tot gevolg hê.

Sasol is in gesprek met owerhede om 'n formeel goedgekeurde teenwigmeganisme te bevorder. Dit word ondersteun deur toepaslike regverdigings, wat besighede in staat sal stel om die doelwitte van die Wet op Luggehalte te bereik, inlyn met die beginsels van volhoubare ontwikkeling.

DIE AANSOEKPROSES

Sasol se benadering

Sasol het 'n span onafhanklike spesialiste aangestel om met die aansoeke behulpsaam te wees. SRK Consulting is aangestel om die openbare deelname proses te onderneem en Airshed Planning Professionals om die AIV voor te berei. Sasol sal 'n onafhanklike vierde party aanstel as gelyke hersiener om kommentaar te lewer op die benadering vir die lugverspreidingsmodel, gegewe die vereistes vir aansoeke van uitstel en vrystelling.

Sasol is verbind tot die vereiste om advertensies te publiseer, en verder om belanghebbendes die geleentheid te gee om kommentaar te lewer gedurende die aansoekproses. Die proses word gelei, so ver as moontlik, deur die vereistes vir konsultasie ingevolge die Regulasies van die Nasionale Omgewingsbestuurswet vir Omgewingsimpakstudies (OIS). Reaksies van belanghebbendes wat tydens die openbare deelnameproses geopper word, sal saam met die Motiveringsverslag ingedien word.

Die voorgestelde tegniese en openbare deelname aktiwiteite, sowel as die breë tydsraamwerk vir die proses word hieronder geïllustreer.

Inhoud van die Motiveringsverslae

Motiveringsverslae vir die betrokke Sasolbedrywe word voorberie en sal besonderhede bevat van elk van die spesifieke aansoeke vir uitstel van die voldoeningstydssraamwerke en/ of vrystelling, en die redes daarvoor.

Die motiveringsverslag vir beide die vrystellings- en uitstelaansoeke sal, ter ondersteuning, onder andere van sulke aansoeke, deur die AIV ingelig word soos vereis ingevolge artikel 6 van die MES. Die Motiveringsverslag sal vir oorweging ingedien word by die Minister van Omgewingsake, en die Nasionale Luggehalte Beampte, saam met 'n verslag wat al die kommentaar van belanghebbendes bevat.

SASOL SYNFUELS EN SASOL SOLVENTS, SECUNDA

Die Sasol Secunda aanlegte inkorporeer 'n aantal besigheidsaktiwiteite wat Sasol Synfuels en Sasol Solvents insluit., Sasol Solvents, 'n bedryfsafdeling van Sasol Chemical Industries Limited, bedryf 12 aanlegte wat bruikbare bestanddele van waswater in bemarkbare produkte verwerk. Sasol Synfuels (Proprietary) Limited bedryf die wêreld se enigste kommersiële steenkoolgebaseerde sintetiese brandstof vervaardigingsaanleg.

Ligging van die Aanleg

Beide Sasol Synfuel en Sasol Solvents is geleë in die Sasol Secunda Kompleks in the Govan Mbeki Plaaslike Munisipaliteit, wat deel is van die Gert Sibande Distriksmunisipaliteit in die Mpumalanga Provinsie.

Voorbereiding van die AIV

Die volgende emissies word aangespreek in die AIV:

- swaweldioksied (SO_2)
- swaweltrioksied (SO_3) en suur mis as SO_3
- salpeteroksied en stikstofdioksied (NO_x)
- deeltjies materie (PM)
- koolstofmonoksied (CO)
- ammoniak (NH_3)
- waterstof fluoried (HF)
- waterstofsulfied (H_2S)
- vlugtige organiese verbindings (VOVs)

Die motiveringsverslag vir die Sasol Secunda kompleks sal besonderhede van elk van die spesifieke aansoeke om uitstel van voldoening tydsraamwerke en/of vrystellings, en redes daarvoor, insluit.

SASOL NITRO, INFRACHEM

Sasol Infrachem, 'n bedryfsafdeling van Sasol Chemical Industries Limited, vervaardig en bemark ammoniak en voorsien 'n diensplatform vir die hervorming van natuurlike gas in sintetiese gas.

Ligging van die Aanleg

Sasol Infrachem is geleë in Sasolburg in die Metsimaholo Plaaslike Munisipaliteit, wat deel is van die Fezile Dabi Distriksmunisipaliteit in die Vrystaat Provincie.

Voorbereiding van die AIV

Die volgende emissies word aangespreek in die AIV:

- swaweldioksied (SO_2)
- salpeteroksied en stikstofdioksied (NOx)
- deeltjies materie (PM)
- koolstofmonoksied (CO)
- metale
- ammoniak (NH_3)
- waterstofchloried (HCl)
- waterstoffluoried (HF)
- totale organiese verbindings (TOVs)

Die motiveringsverslag van Sasol Infrachem sal besonderhede van elk van die spesifieke aansoeke om uitstel van voldoenings- tydsraamwerke en/of vrystellings en redes daarvoor, insluit.

SASOL NITRO, EKANDUSTRIA

Sasol Nitro, 'n bedryfsafdeling van Sasol Chemical Industries Limited, vervaardig, bemark en verskaf nywerheidsploffstof bykomstighede en kunsmisprodukte. Dit bemark ook swael namens die Sasol Groep.

Ligging van die Aanleg

Ekandustria is omtrent 65 km Oos van Pretoria en min of meer 18 km Noord van die middel van Bronkhorstspruit geleë. Ekandustria val binne die Kungwini Plaaslike Munisipaliteit, wat deel is van die Tshwane Metropolitaanse Munisipaliteit.

Voorbereiding van die AIV

Die volgende emissies word aangespreek in die AIV:

- Monometielamiene (MMA)

Die motiveringsverslag vir Sasol Nitro sal besonderhede van elk van die spesifieke aansoeke om uitstel van voldoenings- tydraamwerke en/of vrystellings en redes daarvoor, insluit.

UITNODIGING VIR KOMMENTAAR

Indien u as 'n belanghebbende en geaffekteerde party vir hierdie proses wil regstreer, moet u asseblief die ingeslotte registrasie en kommentaarvorm invul en by die onafhanklike Openbare Deelnamespan indien teen 15 Oktober 2013. Die kontakbesonderhede word hieronder gegee.

For more information contact:
Ron Tonks
(031) 308 8130
Fax: (031) 308 8131
E-mail: Reby.Ton@transnet.net

Preference will be given to Respondents based on New BEE status.

New BEE STATUS: The New BEE status of all potential bidders will be determined as part of the bid evaluation process.

Request for Proposals

Through-the-Line communication and marketing campaign
(RFP Number: 257/09/10/2013)

Did you know that the Council for Scientific and Industrial Research (CSIR):

- contributed to the development of the lithium ion battery – now common in consumer electronics?
- developed the Notelaker, a laptop for blind people?
- improved the architectural design of hospitals to limit the spread of tuberculosis?
- developed a system that foils cash-in-transit heists using a foam that hardens in seconds?

These are just some of the CSIR's innovations and we would like to share more examples of how we, with our partners, are shaping a better future through science.

Proposals and cost estimates to help tell the CSIR story creatively to a broad range of stakeholders are invited from advertising/communication/marketing agencies

Download the necessary documentation from <http://www.cair.co.za/tenders.html>

Proposals should be submitted at the following address no later than 12:00 (noon) on Monday, 14 October 2013

Tender box, CSIR Main Reception, Gate 3 [North Gate]
 Meiring Naude Road, Braamfontein, Pretoria

Companies requiring additional information can attend the briefing session on Monday, 30 September 2013 from 10:00 to 12:00

To RSVP and to get the briefing venue details, please contact
 Marcelline Roux on (012) 841 2219 or [preferably] on marcelline.roux@csir.co.za

BELEGGINGS

Tencent nou \$100 mjd. werd

Naspers slaan groot munt uit internetgroep se vertoning

Die Chinese internetgroep Tencent se inkwakarde het Maandag tot meer as \$100 miljard gegroeи, minder as 'n dekade nadat dié groep genoteer is.

Die groep se aandeelprys het Maandag in Hongkong met 2,5% gestyg tot HK\$421,20, wat sy markwaarde op HK\$782,8 miljard (\$101 miljard) aan die stede bring.

Hy is nou een van die ses grootste maatskappye op die Hongkongse beurs. Naspers besit sowat 'n derde van Tencent.

Tencent se aandalprys en boodskapsdiens Is baie gewild onder Chinese. Dit word veral gebruik deur mense wat die selfe netlike Internet gebruik.

Tencent se QQ-internetboodskapsdiens het nou reeds 819 miljoen aktiewe gebruikers en sy WeChat-diens 236 miljoen.

Hulle was op die voorpunt van die hele mobiele verskuiwing," sê Billy Leung, 'n ontsender van die RHB-navorstingsinstituut in Hongkong.

Hy neem die groep se høe markwaarde sal help om sy handelsnaam wêreldwyd te vestig.

Tencent, wat in 2004 genoteer is, is die grootste internetgroep in Asië. Sy markwaarde is groter as dié van McDonald's en Boeing, maar steeds lewat kleiner as Apple, Google, Facebook, Microsoft en Samsung.

China het aan die einde van Julie 591 miljoen internetinteleknaar geslaan, waarvan 87 miljoen in 2004. Sowat 464 miljoen Chinese

het die internet deur hulselfone gebruik – 10% meer as aan die einde van Desember. Die groep is meer as die bevolking van enige land op aarde, met die uitsondering van Indië.

Tencent se aandeelprys het vanjaar met 69% gestyg, vergelyk met 'n stygging van 4,8% in die Hangseng-Indeks. Naspers het groot inlust geslaan uit dié vertoring. Sy belang in Tencent het daartoe bygedra om die groep van 'n koerantonderneming tot die

wêreld se grootste mediatgroep in ontluikende markte te transformeer.

Naspers se aandeelprys het tot dusver vanjaar met 76% gestyg, vergelyk met 'n stygging van 11% in die JSE se indeks van alle aandele.

Tencent is in 1998 gevestig en het aanvanklik gefokus op e-pos, opspottersdiens en aandalprys-

ties – Bloomberg.

»Sake24 is deel van Media24, wat our Naspers besit word.

Carin Smith vereer vir uitstaande joernalistiek

Carin Smith, voorheen van Sake24, is Vrydagaaand in Kaapstad op 'n galadine van die sagtevrugbedryf en die Landbounavorsingsraad (LNR) vereer vir die Intellektueeltoekenning vir uitstaande joernalistiek vir die vrugbedryf in die gedrukte media.

Carin Smith

Sy het die toekenningsontvanger vir haar insiggegewende beriggetlewingsoor 2012 se plaasverkerstakings en geweld op Bolandse plaas.

Perival Young en Anthony van der Merwe van enhus die joernalistiek-toekenning vir die elektroniese media ontvanger.

Gys du Toit van Dutoit Groep, die grootste verskaffer van groente en vrugte in die Wes-Kaap en in 2013 Dis Burger van Kaapstad Sakelaeke van die Jaar, is as bedryfsleier van die vrugbedryf aangesep.

Warren Barn van Lushet Farms is vereer vir sy prototasis as 'n nuwe tecnoleder van die vrugbedryf. Jurie Muller van Lakenvle, Ceres, is aangevoer as die plaaswerker van die jaar in bestuurposisie en Leandre Opperman van Moresdal as die sagtevrugbedryf se plaaswerker van die jaar.

Die sagtevrugbedryf en die LNR-navorstingskoekening het na dr Martin Taylor van ExpertCo gegaan – Leon Louw.

Kunswerke uit Krugier se versameling opgeveil

Kunswerke in die versameling van die Grootse kunsmeester Jan Krugier sal na verwagting \$170 miljoen behaal op 'n veiling in November in New York.

Meer as 150 lotte word op 4 en 5 November by Christie's International opgeveil, sê die aalslaer. Impressioniste en moderne werke deur kunstenaars soos Picasso, Giacometti en Kandinsky sal die velling oorheers.

Daar sal ook kontemporêre kunswerke, Ou Meesters en Latyns-Amerikaanse en Afrikaanse kuns te koop wees.

Krugier, wat ook werk vir die familie van Picasso verkoopt het, was vier dekades lank een van die wêreld se topkunstenaars in 20ste-eeuse kuns.

Hy het die galerie in Genève en New York bestuur en was gereeld in 'n uitsteller op spogeleenthede soos Art Basel in Switserland en Tafel Moestuin in Nederland. Hy is in 2008 oofgedle.

"Jan was 'n prominent handelaar en dankbaar sy betrokkenheid by die Picasso-familie kon nie van die mededinging net so verkoop wat volgende daarvan onvankbaar bly nie," sê Richard Ony, gallery-eienaar in Londen.

Krugier was van Poolse herkoms en 'n oorlewende van die

Die makel (ontwerpmodel) van 'n 19 m hoë beeldhouwerk deur Pablo Picasso wat voor die burgercentrum in Chicago in die USA staan, word oersaasdaag deur Christie's International opgeveil. Dit is deel van die versameling van wyle Jan Krugier, 'n bekende kunshandelaar.

Foto: CHRISTIE'S IMAGES, BLOOMBERG
Auschwitz-Birkenau-konsentrasiekamp.
Hy het sy eerste kommersiële uitstalling van Picasso se werk ná open het – Bloomberg

dié se doed in 1973 gehou. Hy het daarna verskeie kunswerke van Marina Picasso, die kunstenaar se kleindogter, verkook.

Sy het in 1990 die opbrengs van die verkoop aan 'n weeshuis in Viëtnam geskenk.

Christie's gaan 30 kunswerke van Picasso opveil, waarvan die waardelooste 'n plaatmaatemarket (ontwerpmodel) is van die 19 m hoë beeldhouwerk *Buste d'Homme écrivain* word op tussen \$5 miljoen en \$8 miljoen gevorder. 'n Afrika-muskaar wat Picasso gehad het wat hy in verskeie van sy skilderke gebruik het, inklusive *Cuernos*, gaan vir tussen \$500 000 en \$900 000 opgeveil word.

Die market sal na verwagting tussen \$25 miljoen en \$35 miljoen buite staan.

Die 1971-skildery *Rusto d'Homme écrivain* word op tussen \$5 miljoen en \$8 miljoen gevorder. 'n Afrika-muskaar wat Picasso gehad het wat hy in verskeie van sy skilderke gebruik het, inklusive *Cuernos*, gaan vir tussen \$500 000 en \$900 000 opgeveil word.

Na die Tweede Wêreldoorlog het Krugier in Parys gewoon dat hy oor baie van 'n kunstenaar te word.

Hy is daarom Alberto Giacometti oortuig om hom eerder op kuns-handel toe te spuis, waarna hy sy eerste galerie in 1962 in Genève geopen het – Bloomberg.

Die myneurus Anglo American het desters begin om hom te onttrek aan ontwikkelingsprojekte wat baie kapitaal benodig en groot risiko inhoud.

Maandag het hy aangekondig dat hy hom aan die Pebble-koperprojek in die Amerikaanse deelstaat Alaska onttrek.

Dit is een van die grootste onontwikkelde koperreserves ter

wêreld, maar die omgewing maak dit moeilik om projekte uit te voer. Dit word nou al byna drie dekades lank bestudeer.

Mark Cutifani, uitvoerende hoof, het onlangs aangekondig dat die myneurus se voorgenoemde projekte van \$17 miljard gehalweer gaan word.

Die besluit oor Alaska is geen nie dan al die nuwe projekte

met lang looptye weer in oenskuig gereken is, sê hy.

Die klein gaan voorbaan val op projekte met die grootste potensiële opbrengs en minste risiko.

In 'n poging om kapitaal doeltreffender toe te wys, gaan projekte wat baie kapitaal vereen om aan die gang te hou, soos die opsy geskuif word.

Anglo het Pebble sedert 2007 as

gelyke vennoot saam met 'n filiaal van die Amerikaanse inyngroep Northern Dynastry bedryf. Laaste nomeerde sal nou op sy eie met die projek voortgaan.

Daar word nog onderhandel oor hoe Anglo hom aan die Pebble-projek gaan onttrek, naare die groep verweg dat hy sowat \$300 miljoen op 'n nablaaste grondslag gaan afskryf.

69%

Tencent se aandeelprys het tot dusver vanjaar met 69% gestyg, vergelyk met 'n stygging van 2,6% in die Hangseng-Indeks.

Caxton koop afdeling van verpakningsreus

Die mediagroep Caxton het Maandag bekend gemaak dat hy Nampak Cartons and Labels Divisie gekoop het, onderworpe aan die normale voorwaarde vir sulke transaksies.

Caxton se aandeelprys was Maandag kort voor sluitingstyd onveranderd op R18,00 – Sens

Mededinging: Omnia betaal 'kunsmisgelag'

Philip de Bruin

Kaapstad – Duur hofgedinge oor tien jaar tussen die Mededingingskommissie en die grootste rôlpelers in die kunsmisbedryf het die appellof hoef tot 'n einde gekom met 'n sege vir die kommissie.

Die toutrekkyer het in 2003 begin toe die maatskappy Nutri-Flu 'n klage teen Sasol en Total besit, en is in Jan Hakkstraal in Sasolburg, Vrystaal geleë.

Die kommissie ingedien het die Nutri-Flu's klage oor onregmatige prysverstelling en onregmatige konsinsvervaardigers.

In die loop van die kommissie se ondersoek is egter op beweerd kartelbedrywigheid tussen Sasol, Yara SA en Omnia Fertilizer afgelopen.

Uiteindelik het Sasol met die kommissie gesig en 'n boete van meer as R250 miljoen betaal.

Die klagte teen Yara en Omnia is vir verhoor na die Mededingingstribunaal verwys. Hulle het beswaar gemaak en aangevoer dat hulle nie ingestuif is nie by die onregmatige prysverstelling en kartelbedrywigheid tussen Sasol, Yara en Omnia vir verhoor te verwys.

Die tribunaal het die kommissie verwyser na die aard van die seuk dat die kommissie onregmatige prysverstelling en kartelbedrywigheid tussen Sasol, Yara en Omnia vir verhoor te verwys.

Yara is intussen gelijkwdeer en het nie aan die appellof se verrigtinge deelgeneem nie. Sasol het ook nie deelgeneem nie omdat hy voorer met die kommissie gesig het. Omnia inoet al die kommissie se regstorie in sowel die appellof as die mededingingsappellof betaal.

AANSOEK VIR UITSTEL EN VRYSTELLING VAN SEKERE VREESTES VAN DIE NASIONALE OMGEWINGSBESTUUR: WET OP LUIGGEHALTE, NR. 39 VAN 2004 – MINIMUM EMISSIESSTAARDE, VIR NASIONALE PETROLEUMRAFFINERIERS VAN SUID-AFRIKA (EIENDOMS) BEPERK (NATREF) IN SASOLBURG, IN SECUNDA.			
UITNODIGING VIR REGISTRASIE EN KOMMENTAAR			
Natref word gesamentlik deur Sasol en Total besit, en is in Jan Hakkstraal in Sasolburg, Vrystaal geleë.			
Daar word op die Natref-raffinadery vereid om aan die Minimum Emissiesstandaarde (MES) te voldoen, soos gepubliseer ingeval die Nasionale Omgewingsbestuur: Wet op Luiggehalte (Nr 39 van 2004). Ingeval dat die MES moet bestaande aanligtinge aan bestaande anligtinge voldoen teen 1 April 2015, en teen 1 April 2020 aan strenger standaarde vir nuwe aanligtinge.			
Alhoewel sommige van Natref se proses-emissies aan toekomstige MES sal voldoen, is daar sekere prosesse wat nie binne die voorgeskrewe tydsamestuur kan voltooi nie, en ander prosesse waar dit onwaarskynlik is dat daar aan die standaarde voldoen sal kan word. Natref is dus voornemens om vir uitstel van die MES aansoek te doen met betrekking tot hierdie spesifieke gevalle.			
Natref se aansoek sal 'n gedetailleerde motivering insluit, in ooreenstemming met die toepaslike beperkings van die Nasionale Omgewingsbestuur: Wet op Luiggehalte (Nr 39 van 2004). Ingeval dat die MES moet bestaande aanligtinge aan bestaande anligtinge voldoen teen 1 April 2015 en teen 1 April 2020 aan strenger standaarde vir nuwe aanligtinge.			
Belanghebbende party word geïnformeerd om Geinteresseerde en Geaffekteerde partye in hierdie proses te registréer. Om verders inligting te bekom, kommentaar te lever en om 'n Agtergrond-inligtingsdocument (AID) wat verder redes vir die aansoek insluit te bekom, konlik asseblief vir ons Lysette Rothmann-Guest by SRK se kantoor vir Openbare Deelname:			
Tel: +27(0)11 441 1111 Faks: +27(0)86 5061737 E-pos: irothmann-guest@srk.co.za

**APPLICATIONS FOR POSTPONEMENT AND EXEMPTION
FROM CERTAIN REQUIREMENTS OF THE NATIONAL
ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT NO.
39 OF 2004 - MINIMUM EMISSIONS STANDARDS, FOR
SASOL'S OPERATIONS IN SECUNDA, SASOLBURG AND
EKANDUSTRIA**

INVITATION TO REGISTER AND COMMENT

Sasol owns and operates facilities at Secunda in Mpumalanga, Sasolburg in the Free State, and Ekandustria in Gauteng.

Sasol will be required to comply with the Minimum Emission Standards (MES), published in terms of the National Environmental Management: Air Quality Act (NEMAGAQ) No. 39 of 2004. In terms of the MES, existing plants are required to comply by 1 April 2012 with existing plant standards, and by 1 April 2020 with stricter national standards.

While most of Sasol's process emissions will comply with the proposed MES, there are some that cannot meet the standards within the required timelines, and others which are unlikely to meet the standards at all. Sasol Synfuels (Pty) Ltd (invited in Secunda), and three operating divisions of Sasol Chemicals Limited (SPL) (Solvants in Secunda; Sasol Infrachem in Sasolburg; and Sasol Nitro in Ekandustria), therefore intend to apply for other postponements or exemptions from the MES in these specific cases.

Sasol Infrachem is located in Sasolburg on Klaas Hartzenbos Road.

Sasol's application will include a controlled intervention, in accordance with the applicable provisions of NEMAGAQ, by Consulting, an independent environmental consulting firm, assisted by appropriate technical specialists, has been appointed to compile the applications.

Stakeholders are invited to register as Interested Parties (IPs) for this application process. To obtain more information and a Background Information Document (BID), which includes sections for the application, as well as your comments, please contact Mrs Lynette Rothman-Davis on the SAI Stakeholder Engagement Office, tel: 016 365-8000 | fax: +27 16 506 1237 | email: infrachem.sai@sasol.com.

The BID is also available on the following public places and on the SAI website www.sai.co.za:

Public Place	Locality	Telephone
Public Library	100 Vryheid Road, Sasolburg	016 363 8300
Meisimahola Local Municipality, 100 Vryheid Street, Sasolburg		016 363 8316

Public meetings will be held with SAI to facilitate information sharing and to obtain comments on Sasol's applications for postponements or exemptions. Details of the public meeting in the Sasolburg area is as follows:

Date	Time	Venue
Monday, 7 October 2013	13:00 – 15:00	Bokbergs Community Hall, Engvlei St, Sasolburg

R37 million for new reservoir

Lazarus Dithagiso

DENEYVILLE. - Gream Fenwick of Risi-mati Engineers and Project Management and Pieter du Bruyn of Quanti Build Civils recently handed over the quality certificate of a structure worth R37 million with a water capacity of nine million litres to the executive mayor of Metsemaholo Municipality, Brutus Mahlaku.

The R37 million reservoir structure will cater for the Refengkotso community up to the Thembu Khubeka formal settlement. The biggest challenge that lies ahead for the municipality is the infrastructure for the installation of the sewerage system.

The new reservoir is an addition to the cur-

rent one which has the capacity of 5 million litres. Fenwick said he is pleased to finish as per contract agreement with the municipality. According to Fenwick the water pressure from the taps will be able to sustain the high number of residents in the area. Cllr Mahlaku said that he is happy that they hired residents to help out when the project kick started.

Quanti Build Civils and Risi-mati Engineers also made a huge contribution to the project. "The ANC is concerned about the lives of the residents, not about the Micky Mouse parties fighting for positions. We will never fail the vision and mission of Nelson Mandela for people to have access to services. The Sasol Firm and New Vaal are some of

the companies that we are working with," Mahlaku said.

Cllr Mahlaku accused the Economic Freedom Fighters (EFF) of trying to jeopardise what the government is doing for the people. He said EFF is just a minority party aiming to follow in the footsteps of the Congress of the People (Cope) to destabilise the ANC.

The multi-million project started last year.

The government is also planning to build a sport complex estimated to the value of R6 million in Refengkotso.

Among the officials who witnessed the launch was the MMC for finance and urban planning, Lebohang Semonyo, MMC for Corporate Services, Lindiwe Shongwe and Councillor Nomsa Kubheka MMC for Technical Services.

Vereeniging Child Welfare Society AGM

VEREENIGING. - The Vereeniging Child Welfare Society is holding its Annual General Meeting (AGM) on September 19 at 17:30 at Merriman Avenue 34.

Heroes - Riana's golden heart

Charmi Engelbrecht

Riana Burger from Trauma Support Vaal Triangle is a local woman who has been

Riana Burger

involved in trauma assistance for the past seven years. She works hand in hand with the local SAPD, hospitals and emergency services in assisting trauma victims, whether they be victims of house robbery, a fatal accident or a murder scenario.

Riana is there to give the victims and their families support. She does this without any financial reward. She is available 24/7, seven days a week, 365 days a year come hell or high water.

She is loving and caring towards the victims and she provides great support to the families in their darkest hours even when one can see that some situations take toll on her. She will never let her own feelings get in the way of helping others.

Riana also assisted the people at the block of flats that was destroyed by a fire in Vereeniging in 2011, where she helped the residents to evacuate the premises and find alternative shelter. Riana is a big inspiration to all those around her.

Not only does she reach out a helping hand to the victims and families of a tragic event but also to the SAPD, EMS and Fire Dept workers.

Vote for your local heroes and win cash

Jannie du Plessis

Readers now have the opportunity to vote for their local hero in the Vaalweekblad and Car Hi-Fi Specialists' 'Local Heroes' Competition. The total prize money is R5 000 and readers can win R500 by voting weekly for their heroes. R4 000 is up for grabs every month

and another R500 for the reader who nominates a hero and writes a story. After the winner is announced a draw will take place to determine the monthly SMS winner.

This week's story was chosen and published by a panel of judges and readers can now vote for their favourite entry by simply SMSing the words "HeroRiana" for Story 3 to 45534. SMS cost R1.50. Entries for this September competition can be mailed to jannie.duplessis@imedia24.com. Entries for the September competition end September 30.

Entries from the whole of Gauteng and areas such as Vanderbijlpark, Vereeniging, Midrand, Sasolburg, Deneysville, Diepsloot, Wakkerstroom, Barrage and surrounds are welcome. The entries must be submitted in Afrikaans or English. All relevant information must be provided: the incident, what took place, name and surname(s) involved, what happened and contact information of all the persons concerned.

For more information about the competition, contact Metrovaal Media's crime reporter Jannie du Plessis on (016) 950-7052 or E-mail jannie.duplessis@imedia24.com.

AANSOEK VIR UITSTEL EN VRYSTELLING VAN SEKERE VEREISTES VAN DIE NASIONALE OMGEWINGSBESTUUR:

WET OP LUGGEHALTE, NR. 39 VAN 2004 - MINIMUM EMISSIE STANDAARDE VIR SASOL SE BEDRYWIGHED IN SECUNDA, SASOLBURG EN EKANDUSTRIA

UITNODIGING VIR REGISTRASIE EN KOMMENTAAR

Sasol besit en bestuur terreine in Suidwol in Mpumalanga, Sasolburg in die Vrystaat, en Ekandustria in Gauteng.

Sasol word verduidelik op die Minimum Emissie Standaarde (MES) te voldoen, gepubliseer ingevolge die Nasionale Omgewingsbestuur: Wet op Luggehalte (Nr 39 van 2004). Ingelyks die MES, moet Sasol die standaarde uitvoerbaarheid voldoen teen 1 April 2015, en teen 1 April 2020 oorvoldende standaarde uitvoerbaarheid.

Alhoewel Sasol die MES sal voldoen, is daar sekere prosesse wat hul die standaarde nie sal voltooi nie. Daarom word voorgeskrewe tydskramwek kan voldoen nie, en ander prosesse wat onwaarskynlik kan optree aan die standaarde voldoen sal kan word. Sasol Spaarbos (Ekandustria) Bepaalde gebiede van drie operasionele divisies van Sasol: Chemicals & Polymers, Sasol Solvents & Lubricants, Sasol Infrachem, in Sasolburg en Sasol Nitro in Ekandustria, sal dus van voorbereiding op toestuur van vrystelling van die MES doen om vrystelling van die MES te voltooi te doen, in 'n teoploslike gevallie.

Infragas is in Klaas Hofmeyer Street in Sasolburg geleë.

Die aansoek word in gedetailleerde monitering in parensverband met die toepaslike regeling van die Nasionale Omgewingsbestuur: Wet op Luggehalte insluit. SRK Consulting, 'n onafhanklike omgewingsadviseur, mikroskopiese toetsing deur toeploslike spesialiste, is aangestel om die geskeide proses te ondersteun.

Beloogd word om 'n voorlopige uitsig te gee na die Geïnteresseerde partye in hierdie proses om te beslis of om te beslis om aanvraag om toestuur van vrystelling van die MES te doen, in 'n teoploslike gevallie.

Infragas is in Klaas Hofmeyer Street in Sasolburg geleë.

Die aansoek word in gedetailleerde monitering in parensverband met die toepaslike regeling van die Nasionale Omgewingsbestuur: Wet op Luggehalte insluit. SRK Consulting, 'n onafhanklike omgewingsadviseur, mikroskopiese toetsing deur toeploslike spesialiste, is aangestel om die geskeide proses te ondersteun.

Publieke vergaderings sal gehou word om uitleg met belanghebbende partye uit te ruil, en om kommentaar in te win, daargemaak dat daar soos ook vir uitstel of vrystelling. Besonderhede van die vergadering in Sasolburg sal gevolg.

Johannesburg - Government will honour former President Nelson Mandela by erecting a golden

status of Madiba at the Union Buildings. The gesture forms part of marking the 100th anniversary of the most iconic structure in the capital city of Pretoria. The announcement was made by Arts and Culture Minister Paul Mashatile at the New Age/SABC business briefing in Sandton, north of Johannesburg.

Work is at an advance stage to erect a statue of Tata Madiba at the Union Buildings as part of its centenary celebrations this year. To deepen Madiba's legacy, on

August 18, the department - in partnership with the Sport and Recreation Department - hosted a successful Mandela Sport and Culture Day

at FNB Stadium in Johannesburg. The sporting event was also part of the United4Mandela campaign, which seeks to bring together South Africans in celebration of Mandela's vision of sport as a unifying force in society.

For the first time in the history of the rainbow nation, fans enjoyed a doubleheader of a rugby and football match, played at the same venue. On the day, Bafana Bafana defeated Burkina Faso 2-0, while the Springboks also beat Argentina in their rugby test match. However, the South African Masters were unfortunate not to secure victory, losing 2-0 to the Italian Masters. The proceeds from the inaugural Nelson Mandela Sport and Culture Day will go towards building the Nelson Mandela Children's Hospital in Gauteng.

Union Building's centenary

Earlier this year, Cabinet approved the Union Buildings' 100th anniversary celebrations, which will be held in December under a theme that

will promote social cohesion, national unity and reconciliation. The Union Buildings form part of the official seat of the South African government and also house The Presidency offices. The imposing buildings are located in the northern end of Arcadia, Pretoria.

On 10 May 1994, the inauguration of Mandela, South Africa's first democratically elected president, and his deputy presidents, after the country's first free elections, heralded the beginning of a new era in South Africa's history. Designed by Sir Herbert Baker in 1908, building began in 1909 and was completed in 1913.

It took approximately 1 265 artisans, workmen and labourers almost three years to construct, using 14 million bricks for the interior of the walls, half a million cubic feet of freestone, 74 000 cubic yards of concrete, 40 000 bags of cement and 20 000 cubic feet of granite. - SAnews.gov.za

Breathing space for black-listed consumers

Cabinet has approved a proposal which will soon allow more consumers who manage to settle their debt and continue to make up more debt access credit again as they have settled their debts.

Cabinet spokesperson Phumla Williams said denying previously black-listed consumers costly "borders growth".

She said that many South Africans struggle to access credit either due to negative rating due to late payments on their study loans, default payments from unpaid clothing or furniture accounts and those who approach the National Credit Regulator to get help with the management of their debt.

"The key to the option is to ensure that those that have settled their debt and they are able to afford taking up more debt should be allowed to do so. They shouldn't be disadvantaged by the five year waiting period because if you may be aware currently what tends to happen is that even if you have settled your debt, you still have to wait for a period of five years."

National Credit Act 34 of 2007, Williams said, she disagreed that current challenges that led to the amendment to the Bill was that while the regulation would give consumers amending mechanisms that would see consumers

"The proposal that has been made is to encourage those that have settled their debt are able to continue their lives in terms of doing the business that they may wish to engage in," she said.

This proposal will soon come into effect after the Cabinet approved the recommendations of the Select Committee on Trade and International Relations following a report from the Removal of Adverse Credit Information Project.

National Credit Amendment Bill approved. Meanwhile, Williams also said Cabinet had approved several other Bills, including the National Credit Amendment Bill for introduction to Parliament with a view of assigning the National Regulators more powers to implement and enforce critical credit provisions.

The Bill aims to strengthen the capacity of the National Credit Regulator (NCR) to address certain challenges especially around court processes and to strengthen enforcement and implementation of the provisions of the being trapped in spiralling debt when they for example applied for more credit card while they are undergoing debt counselling.

- SAnews.gov.za

Parents urged to prepare learners for ANA

Pretoria - Cabinet has encouraged parents and guardians to support their children in preparation for the upcoming Annual National Assessments (ANA).

The literacy and numeracy ANA takes place between 10 and 13 September and will assess learner literacy and numeracy abilities at foundation, intermediate and senior phase.

The tests were introduced by the Department of Basic Education to measure the country's improvement in learning in specific grades and subjects.

The ANA will not be used for learner progression or promotion to the next grade but verifies that every learner in every school is developing the languages and mathematics skills appropriate for the grades.

This will allow educators to identify areas where they need to intervene.

"Parents and guardians must ensure that they

engage with the 2013 ANA results as this serves as an important diagnostic tool of learners' strengths and weaknesses," acting Cabinet spokesperson Phumla Williams said.

Last year's results painted a dismal picture which showed that the national average percentage in literacy for Grade 1 was 38% (2011), Grade 2 - 55% (52% in 2011), Grade 3 - 62% (55% in 2011).

Williams encouraged parents in particular to provide the Department of Basic Education which can be accessed on <http://www.education.gov.za>.

The department has provided schools with 2013 ANA timetables, 2012 ANA results and diagnostic analysis report; 2013 Assessment Guidelines for teachers to be able to plan for the administration of ANA and 2013 Exemplars for teachers to prepare learners for the administrative

APPLICATIONS FOR POSTPONEMENT AND EXEMPTION FROM CERTAIN REQUIREMENTS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT NO. 39 OF 2004 - MINIMUM EMISSIONS STANDARDS, FOR SASOL'S OPERATIONS IN SECUNDA, SASOLBURG AND EKANDUSTRIA

INVITATION TO REGISTER AND COMMENT

Sasol owns and operates facilities at Secunda in Mpumalanga, Sasolburg in the Free State, and Ekandustria in Gauteng.

Sasol will be required to comply with the Minimum Emission Standards (MES), published in terms of the National Environmental Management: Air Quality Act (NEMAQA) (Act No 39 of 2004). In terms of the MES, existing plants are required to comply by 1 April 2015 with existing plant standards, and by 1 April 2020 with stricter new plant standards.

While most of Sasol's process emissions will comply with the future MES, there are some that cannot meet the standards within the required timeframes, and others which are unlikely to meet the standards at all. Sasol Synfuels (Proprietary) Limited in Secunda, and three operating divisions of Sasol Chemical Industries Limited (Sasol Solvents in Secunda, Sasol Infrachem in Sasolburg and Sasol Nitro in Ekandustria), therefore intend to apply for either postponements or exemptions from the MES in these specific cases.

Sasol Infrachem is located in Sasolburg on Klasie Havenga Road.

Sasol's applications will include a detailed motivation in accordance with the applicable provisions of NEMAQA. SRK Consulting, an independent environmental consulting firm, assisted by appropriate independent specialists, has been appointed to compile the applications.

Stakeholders are invited to register as Interested and Affected Parties (I&APs) for this application process. To obtain more information and a Background Information Document (BID) which includes reasons for the application, or to submit your comments, please contact **Ms Lysette Rothmann-Guest** at the SRK Stakeholder Engagement Office, **Tel:**+27(0)11 441 1111 **Fax:** +27(0)86 5061737, **e-mail:** irothmann-guest@srk.co.za

Annexure 6: Stakeholder Feedback Letter

30 January 2014
460365

Application for postponement and exemption from certain requirements of the National Environmental Management: Air Quality Act No. 39 of 2004 (NEM:AQA) - Minimum Emissions Standards for Sasol's operations in Secunda, Sasolburg and Ekandustria

Notification of schedule change in availability of Draft Motivation Reports for public comment and further stakeholder meetings

We would like to thank all stakeholders who have registered, participated in the public meetings or submitted comments during the initial stakeholder registration and announcement phase of Sasol's application process which took place in September and October 2013.

It was anticipated and communicated at that stage, that the draft Motivation Reports would be made available for public comment in January or February 2014. However, the Minimum Emission Standards (MES) were amended on 22 November 2013 and published in Government Notice 892 of 22 November 2013. The amendments have required substantial consideration and investigation and the Motivation Reports, associated specialist studies and the process itself have been required to be updated to address the changes made. This therefore affects the schedule.

Stakeholders will be informed in due course of the availability of the Draft Motivation Reports for comment, and the details of further public meetings and focus group meetings to assist stakeholder to comment on the report.

This letter is also available in Afrikaans, Sotho and isiZulu upon request from the Stakeholder Engagement Office.

Stakeholder Engagement Office

Associate Partner: Stakeholder Engagement

Annexure 7: DMR: Invitation Letter and Comment Sheet

1 April 2014

Dear Stakeholder

Applications in terms of section 59 of the National Environmental Management: Air Quality Act No. 39 of 2004 (NEMAQA) and for postponement from certain requirements of GN893–Minimum Emissions Standards (MES), for Sasol's operations in Secunda, Sasolburg and Ekandustria

- **Availability of Draft Motivation Reports for public comment**
- **Public comment period: Tuesday, 15 April – Friday, 13 June 2014**
- **Invitation to attend public meetings and request focus group meetings**
- **Next steps in the application process**

We would like to thank all stakeholders who participated in the initial stakeholder registration and announcement phase of Sasol's application process during September and October 2013.

Subsequent to the announcement phase, the Minimum Emissions Standards (MES) were amended on 22 November 2013 and published in Government Notice 893 of 22 November 2013 (in the list of activities which result in atmospheric emission which have, or may have, a significant effect on the environment, including health, social conditions, ecological conditions or cultural heritage).

The substantial amendments required significant revision of Sasol's process and related documents to support its applications, and have delayed the availability of the Draft Motivation Reports for public comment, which was anticipated in January 2014. This delay was communicated to stakeholders in January 2014.

Draft Motivation Reports detailing Sasol's applications for Sasol Synfuels (Proprietary) Limited, Sasol Oil (Pty) Ltd and Sasol Group Services (Pty) Ltd in Secunda, and three operating divisions of Sasol Chemical Industries (Pty) Limited (Sasol Solvents in Secunda, Sasol Infrachem in Sasolburg and Sasol Nitro in Ekandustria) have been prepared.

Availability of Draft Motivation Reports for public comment

The draft Motivation Reports for the above-mentioned Sasol divisions are available for public comment for a period of forty (40) working days from **Tuesday 15 April to Friday 13 June 2014**. Newspaper advertisements (in English and Afrikaans) to announce opportunities for public comment have appeared in the Sunday Times on Sunday 30 March 2014, and in the Beeld on Monday 31 March 2014.

Partners AH Bracken, MJ Braune, JM Brown, CD Dalgleish, JR Dixon, DM Duthe, BM Engelsman, R Gardiner, DJD Gibson, GC Howell, WC Joughin, DA Kilian, PR Labrum, B Liber, DJ Mahlangu, RRW McNeill, HAC Meintjes, JA Middleton, MJ Morris, WA Naismith, GP Nel, VS Reddy, PN Rosewarne, PE Schmidt, PJ Shepherd, MJ Sim, VM Simposya, AA Smithen, HFJ Theart, KM Uderstadt, DJ Venter, ML Wertz, MD Wanless, A Wood

Tshwane Local Municipality	Cnr Botha/ Mark Street, Bronkhorstspruit	S E Kekana	013 932 6200

You are welcome to comment on the reports in the following ways:

- Completing the enclosed comment sheet, writing a letter, or email to the Stakeholder Engagement Office, or contacting SRK telephonically;
- Request a focus group meeting; and
- Attending public meetings.

Public Meetings

Stakeholders are invited to attend public meetings at which the project team will be present, to:

- Discuss and comment on the contents of the draft Motivation Reports and associated specialist studies;
- Verify that issues and concerns raised during the announcement phase have been considered; and
- Clarify questions or comments, or raise any additional comments.

Details of public meetings are:

Area	Date	Time	Venue
Sasolburg	Monday, 19 May 2014	13h00 – 15h00	Ingwe Conference Centre, 7 River Road,Vanderbijlpark
Ekandustria	Wednesday, 21 May 2014	11h00 – 13h00	Mega Conference Centre, Ekandustria Industrial Park (main entrance), first building on the right (old Metswedding District Municipality Offices)
Secunda	Thursday, 22 May 2014	14h00 – 16h00	Kruik Conference Centre, c/o PDP Kruger & Nelson Mandela Drive, Secunda

- **Maps to venues are attached**

Should you wish to confirm your attendance at any public meetings, request a focus group meeting, or comment on the draft Motivation Reports, please contact:

Lysette Rothmann-Guest

Tel:+27(0)11 441 1111

Fax: +27(0)86 5061737

Email: irothmann-guest@srk.co.za

Next steps in the Application Process

Following closure of the comment period, the Draft Motivation Reports will be updated and submitted as Final Motivation Reports to the Minister of the Department of Environmental Affairs and the National Air Quality Officer (NAQO).

Stakeholders will then have a further 21 days to comment on the Final Motivation Reports and can submit comments directly to the NAQO or the Minister, as the case may be. Details will be made available to stakeholders once these reports become available.

This letter is also available in Afrikaans, Sotho and isiZulu upon request from the Stakeholder Engagement Office.

Thank you for your participation in this application process and we look forward to engaging with you in due course.

Yours faithfully,

SRK Consulting (South Africa) (Pty) Ltd

Hengelklub spog met ryk geskiedenis

VEREENIGING. - In die jaar 1946 het TD Muir (oom Tommy) varswaterhengel in die Transvaal (nou Gauteng) begin. Georganiseerde-hengel het begin met die eerste komiteevergadering wat gehou is op 3 September 1946 in die ontspanningsklub van die firma Unie Staal Korporasie Beperk (USKO).

Dit is waar die Usko-hengelklub sy naam vandaan kry. Die eerste ampelike algemene jaarvergadering was gehou op 3 Oktober 1946. TD Muir was ook betrokke by die stigting van die THU (Transvaal Hengel Unie). Die laaste komiteevergadering was in USKO se hoofklub gehou op 26 Februarie 1991.

Met YSKOR wat USKO gekoop het in

middel 1991, het die sportklub gesluit. Die hengelklub moes van daar af op sy eie funksioneer en het besluit om die naam Usko te behou.

Die Usko-hengelklub het op 15 Februarie sy jaarlike (die jaar die 68ste) prysuitdeling gehou. Lede jong en oud, asook besoekers en eregaste (waaronder Fred en Ria Steyn, en Ernie Sharper en gade), het die aand bygewoon.

'n Totaal van 65 wisseltrofeeë is oorhandig aan lede. Sommige van hierdie trofeeë is oortrek met die graving van die vorige wenner se name, wat die 68 jaar geskiedenis weerspieël.

Voor die begin van die glansgeleenthed is die nuwe komitee ook aangewys.

Die nuwe komitee-lede is: Manny Klonaridis (voorsitter), Jannie Klonaridis (sekretaris en rekordbeambte), Jona Dicks (ondervoorsitter), Dolph Visagie (tesourier), Herman Dicks, George Combrink, Kristos Klonaridis en Freddie Hamilton.

Usko-hengelklub hou prysuitdeling.

Voelklub- Vergadering

VANDERBUL PARK. - Op Maandagdag, 14 April, bied die Vaul Voelklub 'n fotografiese aand aan waarvan die lede hulle spogvoefoto's gaan wys.

Die vergadering begin om 19:00 en gaste is welkom. Bring jouk voelboekie saam en geniet die aand saam. Vir navrae, ook om uit te vind waar die vergadering gehou gaan word, bel vir Rina de Klerk by (016) 982 2730.

Longcrested Eagle

Visse vat hoek

In accordance with the applicable requirements of the NEMAQA and the listing notice, Sasol's applications will specifically include detailed Motivation Reports outlining the justification, reasons and associated compliance proposals in relation to such applications. SRK Consulting, an independent environmental consulting firm, assisted by appropriate independent specialists, has been appointed to compile the applications and related reports, and to conduct an associated independent stakeholder engagement process. The application process and associated stakeholder engagement process was initially announced in September 2013 and subsequently initiated.

The draft Motivation Reports, together with relevant annexures including the Atmospheric Impact Report and draft Comment and Response Reports for Sasol Infrachem have been prepared, and these documents are available for public comment.

The documentation is available in PDF format on the SRK website, <http://www.srk.co.za/en/page/sasol-postponement-exemption>, and at the following public places from Tuesday 15 April 2014:

Public Place	Locality	Telephone
Sasolburg Public Library	John Vorster Road, Sasolburg	016 973 8464
Mafikeng Local Municipality	Fichard Street, Sasolburg	016 973 8300

Stakeholders who registered when notification was first given, as well as any other stakeholders who now wish to register, may also obtain copies of and submit comments on the documentation by contacting Ms Lysette Bothma-Guest at the SRK Stakeholder Engagement Office: Tel +27(0)11 441 1111 Fax +27(0)86 5061 737, e-mail: krofmann-guest@srk.co.za

A public meeting will be held with stakeholders where the draft Motivation Reports, the Atmospheric Impact Report and relevant other information in relation to the proposed applications will be presented. Participants will have the opportunity to meet the project team and to provide comment on the documents and associated applications. Details of the public meeting in the Sasolburg area are as follows:

Date	Time	Venue
Monday, 19 May 2014	13h00 - 15h00	Ingen Conference Centre, 7 River Road, Vanderbijlpark

DUE DATE FOR COMMENT: Friday 13 June 2014

 **srk** consulting

Die Goosen-egpaar se hengeluitstaple was beslis suksesvol.

Die Leerskool Frannie Meyer in Vanderbijlpark se leerlingraad is voor van links: Zendri van Blijion (hoofdogter), Jaan-Pierre Evert, Dries Bredenhann, Richard van der Westhuizen, Eden Hechter (onderhoofseun), Thokozani Nkosi en Oritiwiwe Kekane. Middel: Bianca Steyn, Beulah Britz, Cheney Thysse, Zandile Gxilishe, Anzelle Fourie, Themba Maduna en Keanu Harlow. Agter: Leone Wallie, me. Strydom (leerhoof), Anuske Prinsloo, Melissa Hartslef, Simon Jackson, Logan Machete, Jo-Ann Booysen (onderhoofdogter), Johannes Havenga (hoofseun) en mnr. De Swardt (leerlingraadhoof).

Aksie tydens die Laerskool Elgwa in Vanderbijlpark se mini-rugbydag wat onlangs gehou is.

AANSOEK VIR UITSTEL EN VRYSTELLING VIR NATREF SE BEDRYWIGHED IN SASOLBURG, VAN SEKERE VEREISTES VAN DIE LYS VAN AKTIWITEITE WAT ATMOSFERIESE EMISSIES TOT GEVOLG HET EN WAT 'N BEDUIDENDE UITWERKING OP DIE OMGEWING HET OF MAG HE. DIT SLUIT IN GESONDHEID, SOSIALE TOESTANDE, EKONOMIESE TOESTANDE, EKOLOGIESE TOESTANDE OF KULTURELE NALATENSKAP. (LISTING NOTICE GN 893 IN GG 37054 OF 22 NOVEMBER 2013) SOOS GEPUBLIEER IN TERME VAN DIE NASIONALE OMGEWINGSBESTUUR: WET OP LUGGEHALTE (NR 39 VAN 2004) ("NEMAQA")

BESKIKBAARHEID VAN KONSEPMOTIVERINGSVERSLAE VIR PUBLIEKE KOMMENTAAR

om ander anders te voldoen aan die voorstofs in die hogenodige kennisgewing, insluitende die noeming van spesifieke tydsomvawers in Dool 2 en die Minimum Emissie Standaarde (MES) in Dool 3. In terme van die kennisgewing moet bestondende omstandighede voldoen aan die MES, soos van toepassing op bestondende omstandighede teen 1 April 2020.

Alhoewel meeste van Natref se gedylekt ekonomiese en gesosialeerde emissiesprosesse sal voldoen aan die MES, is daar sekere uitdagings rondom ekonomiese tydsomvawers en ander emissiesprosesse wat waarskynlik nie om die MES sal voldoen nie. Natref doen dus onseker om uitstel in terme van regulasie 11 en 12 van die kennisgewing, wanneer uitkoming van die MES met verlengde tydsomvawers bereik kan word. Natref doen verder aanspraak vir vrystelling in terme van Artikel 59 van NEMAQA, want dit veroorsaak slegs dat een die MES voldoen sal kan word, en in hierdie gevalle sal Natref alternatiewe emissie limitee aan voldoendes voorwaardes voor.

In ooreenstemming met gespecifiseerde vereistes van die NEMAQA en die kennisgewing, sal Natref so sonnemke spesifiek gedetailleerde konsep Motiveringverslae indien dat die regeringding en gesousisteerde voldoendes voorstelle met betrekking tot sodanige amptelike en verwel. SRK Consulting, 'n onafhanklike onafhanklike konsultant, bygestuur deur toespesiale en afsonderlike spesialiste, is ongeag om die konsep en verwante verslae op te stel en om die amptelike gesousisteerde publieke deelname proses uit te voer. Die onsoekproses en gesousisterde publieke deelname proses is onveranderlik aangekondig in September 2013 en sedertdien gesubsidiseer.

Die konsep Motiveringverslae, insame met die relevante bylae, insluitende die Atmosferiese Impakverslag, die Konsep Kommentaar en Reaksieverslag vir Natref is opgestel en beskikbaar vir publieke kommentaar.

Die dokumentasie is beskikbaar in PDF formaat op die SRK website, <http://www.srk.co.za/en/page/natref-postponement-exemption>, en by die volgende publieke plekke vanaf Dinsdag 15 April 2014:

Publiek Plek	Locality	Telefoonnummers
Sasolburg Openbare Biblioteek	John Vorster Street, Sasolburg	016 973 6464
Metsemahlo Phasiatile Municipalië	Friedrich Street, Sasolburg	016 973 8300

Belanghebbende partye wat as Geïnteresseerde en Geoffekteerde Partye geregistreer het toe die kennisgewing onvoldinklik bekend gemaak is, sowel as enige ander belanghebbende partye wat nou wil registrer, kan ofskryf baken en kommentaar lever op die dokumentasie deur Ms Lynette Rothmann-Guest by SRK se kontoor vir Belanghebbende Betrokkeneheid te kontak.

Tel: +27(0)11 441 1111 Faks: +27(0)86 5061737, Epos: rothmann-guest@srk.co.za

a) Publieke vergadering sal gehou word waarby alle die konsep Motiveringverslae, die Atmosferiese Impakverslag en ander relevante inligting wat verband hou met die voorgestelde onsoek, van belanghebbendes onthul word. Deelnemers sal die geleenthed kry om die projeksoepel te onthou en om kommentaar te lever op die dokumentasie en gesousisterde onsoek. Besonderhede van die publieke vergadering in Sasolburg is as volgenda:

sasol
moving your business

AANSOEK VIR UITSTEL EN VRYSTELLING VIR SASOL SE BEDRYWIGHED IN SASOLBURG, VAN SEKERE VEREISTES VAN DIE LYS VAN AKTIWITEITE WAT ATMOSFERIESE EMISSIES TOT GEVOLG HET EN WAT 'N BEDUIDENDE UITWERKING OP DIE OMGEWING HET OF MAG HE. DIT SLUIT IN GESONDHEID, SOSIALE TOESTANDE, EKONOMIESE TOESTANDE, EKOLOGIESE TOESTANDE OF KULTURELE NALATENSKAP. (LISTING NOTICE GN 893 IN GG 37054 OF 22 NOVEMBER 2013) SOOS GEPUBLIEER IN TERME VAN DIE NASIONALE OMGEWINGSBESTUUR: WET OP LUGGEHALTE (NR 39 VAN 2004) ("NEMAQA")

BESKIKBAARHEID VAN KONSEPMOTIVERINGSVERSLAE VIR PUBLIEKE KOMMENAAAR

Sasol besit en bestuur faciliteite in Secunda in Mpumalanga, Soekberg in die Vryheid, en Ekandustria in Gauteng.

Van Sasol word verlede om ander anders te voldoen aan die voorstofs in die hogenodige kennisgewing, insluitende die noeming van spesifieke tydsomvawers in Dool 2 en die Minimum Emissie Standaarde (MES) in Dool 3. In terme van die kennisgewing, moet bestondende omstandighede voldoen aan die MES, soos van toepassing op bestondende omstandighede teen 1 April 2015 en sou van toepassing op nuwe omstandighede teen 1 April 2020.

Alhoewel meeste van Sasol se gedylekt ekonomiese en gesosialeerde emissiesprosesse sal voldoen aan die MES, is daar sekere uitdagings rondom ekonomiese tydsomvawers en ander emissiesprosesse wat waarskynlik nie om die MES sal voldoen nie. Sasol System (Proprietary) Limited, Sasol Oil (Pty) Ltd en Sasol Group Services (Pty) Ltd in Secunda, en die operasionele diensels van Sasol Chemical Industries (Pty) Limited (Sasol Solvents in Secunda, Sasol Infrastructure in Sasolburg en Sasol Nitro in Ekandustria), doen dus onseker om uitstel in terme van regulasie 11 en 12 van die kennisgewing, wanneer uitkoming van die MES met verlengde tydsomvawers bereik kan word. Sasol doen verder aanspraak vir vrystelling in terme van Artikel 59 van NEMAQA, want dit onseker is dat een die MES voldoen sal kan word, en in hierdie gevalle sal Sasol alternatiewe emissie limitee aan voldoendes voorwaardes voor.

In ooreenstemming met gespecifiseerde vereistes van die NEMAQA en die kennisgewing, sal Sasol so sonnemke spesifiek gedetailleerde konsep Motiveringverslae indien dat die regeringding en gesousisteerde voldoendes voorstelle met betrekking tot sodanige amptelike en verwel. SRK Consulting, 'n onafhanklike onafhanklike konsultant, bygestuur deur toespesiale en afsonderlike spesialiste, is ongeag om die konsep en verwante verslae op te stel en om die amptelike gesousisteerde publieke deelname proses uit te voer. Die onsoekproses en gesousisterde publieke deelname proses is onveranderlik aangekondig in September 2013 en sedertdien gesubsidiseer.

Die konsep Motiveringverslae, insame met die relevante bylae, insluitende die Atmosferiese Impakverslag, die Konsep Kommentaar en Reaksieverslag vir Sasol is opgestel en beskikbaar vir publieke kommentaar.

Die dokumentasie is beskikbaar in PDF formaat op die SRK website, <http://www.srk.co.za/en/page/sasol-postponement-example>, en by die volgende publieke plekke vanaf Dinsdag 15 April 2014:

Publiek Plek	Adres	Telefoonnummers
Secunda Openbare Biblioteek	John Vorster Street, Sasolburg	016 973 6464
Makusimahlo Phasiatile Municipalië	Friedrich Street, Sasolburg	016 973 8300

Belanghebbende partye wat as Geïnteresseerde en Geoffekteerde Partye geregistreer het toe die kennisgewing onvoldinklik bekend gemaak is, sowel as enige ander belanghebbende partye wat nou wil registrer, kan ofskryf baken en kommentaar lever op die dokumentasie deur Ms Lynette Rothmann-Guest by SRK se kontoor vir Belanghebbende Betrokkeneheid te kontak.

Tel: +27(0)11 441 1111 Faks: +27(0)86 5061737, Epos: rothmann-guest@srk.co.za

a) Publieke vergadering sal gehou word waarby alle die konsep Motiveringverslae, die Atmosferiese Impakverslag en ander relevante inligting wat verband hou met die voorgestelde onsoek, van belanghebbendes onthul word. Annexure 11: Way Forward: Letter

5 September 2014

Dear Sir / Madam

Way forward on final postponement applications and additional postponement applications in terms of certain requirements of GN893 – Minimum Emissions Standards (MES), for Sasol's operations in Secunda, Sasolburg and Ekandustria

Thank you to all stakeholders who participated in public meetings including focus group meetings, and who submitted comments during the second round of stakeholder engagement from April to June 2014 for Sasol's application process. This letter serves to inform stakeholders of the way forward regarding Sasol's applications.

Submission of final postponement applications

The final postponement applications for the applicable operations at Ekandustria, Sasolburg and Secunda, will be submitted to the National Air Quality Officer in September 2014. The finalised documents will be available on SRK's website and stakeholders will be informed of their availability, and the process for commenting in a further communication.

Additional postponement applications and public comment process

Since the conclusion of the public commenting process, the Minister of Environmental Affairs has formally notified Sasol that she will not consider its exemption applications, and has advised that postponement applications should be made instead. Sasol will now therefore submit its previous exemption applications as additional postponement applications. While the additional postponement applications contain materially the same content as the original exemption applications on which stakeholders previously commented, a further opportunity will be provided to stakeholders to comment on these as postponement applications. The comments received as part of the first and second rounds of stakeholder engagement have already been considered in these additional postponement applications.

The draft documents for the additional postponements applications will be made available on SRK's website. Stakeholders will be informed of their availability and arrangements regarding the public commenting process in a further communication.

Should you have any queries, please do not hesitate to contact Lysette Rothmann-Guest on Tel: +27(0)11 441 1111, Email: lrothmann-guest@srk.co.za. Thank you for your participation in this application process.

Yours faithfully,
SRK Consulting (South Africa) (Pty) Ltd

Annexure 12: Additional Postponement: Letter and Comment Sheet

7 October 2014

Dear Sir / Madam

Applications for postponement of compliance timeframes from certain requirements of GN893 – Minimum Emissions Standards (MES), for Sasol's operations in Secunda and Sasolburg

Thank you to all stakeholders who participated in the second round of stakeholder engagement for Sasol's application for exemption from certain requirements of the MES.

As communicated in a letter distributed by email on 8 September 2014, since the conclusion of the stakeholder engagement process in June 2014 on its exemption applications, Sasol has been guided to rather seek postponement from the compliance timeframes in the MES. Consequently, Sasol's previous exemption applications will therefore now be submitted to the National Air Quality Officer (NAQO) as additional postponement applications.

While the additional postponement applications contain materially the same content as the original exemptions applications on which stakeholders previously commented, a further opportunity is now provided to stakeholders to comment on these as postponement applications. These applications have already been revised in accordance with previous stakeholder comments received.

Availability of Motivation Reports for public comment

The Motivation Reports in support of the additional postponement applications for the above-mentioned Sasol operations are available for public comment for a period of forty (40) days from **Monday 13 October to Friday 21 November 2014**.

Electronic versions of the reports and comment sheets will be available on the SRK website: <http://www.srk.co.za/en/page/sasol-postponement>, and request from the Stakeholder Engagement Office at SRK Consulting (contact details on next page).

In addition, a printed copy of the reports and comment sheets will be available at the following publicly accessible venues for stakeholders to view and comment on:

You are welcome to comment on the reports by:

- Completing a comment sheet, writing a letter, or email to the Stakeholder Engagement Office, or contacting SRK telephonically; and
- Requesting a focus group meeting.

Next steps in the application process

Following closure of the comment period, the Motivation Reports will be updated and submitted as Final Motivation Reports to the NAQO.

Stakeholders will then have a further 21 days to comment on the Final Motivation Reports and can submit comments directly to the NAQO. Details will be made available to stakeholders once these reports become available.

Should you have any queries, please do not hesitate to contact Lysette Rothmann-Guest on:
Tel: +27(0)11 441 1111, Email: lrothmann-guest@srk.co.za.

This letter is also available in Afrikaans, Sotho and isiZulu upon request from the Stakeholder Engagement Office.

Thank you for your participation in this application process.

Yours faithfully,

See Albert Hammond live at Carnival

Albert Hammond, creator of all time hits such as *Peacemaker* and *The air that I breath* has been an internationally acclaimed chart-topping singer and songwriter for over 40 years and now he is performing live in South Africa.

He is one of very few songwriters of our time whose songs not only have the mass appeal to make them pop hits, but whose songs also have the timelessness and depth that over time turns them into classics. Few writers

could successfully walk this line and deliver hits for the 60s, 70s, 80s, 90s and today.

His music has universal appeal, with his songs repeatedly topping the international pop, R&B, country, adult contemporary and Latin charts, sometimes simultaneously. This include the hits *When I Need You*, *Nothing's Gonna Stop Us Now* (nominated for an Oscar, Golden Globe and Grammy), *One Moment In Time*, and *To All the Girls I've Loved Before*.

Among them like *One Moment in Time*, which was written as the theme song for the 1988 Olympic Games, won Hammond his first Emmy Award and is just one example of his ability to create lasting theme songs that live on in the world's collective consciousness. In 2012, Hammond released his latest album *Legend II* in which he also recorded some of his most recognised songs, and with which he is still touring.

Don't miss his performance at Carnival City on October 11 at 19:00. Tickets to this show are priced from R250 and are available at Computicket.

* Three lucky Vaalweekblad readers will win double tickets for his show on October 12! Just SMS the word HAMMOND, the date of the show and your own name and surname to 45534. SMSs cost R1.50 and should reach us not later than 12:00 on October 10.

Albert Hammond

Albert Hammond then (left) and now (above).

Aandmark ten bate van Purrpaws

SASOLBURG. - Die gewilde Pavillion-aandmark ten bate van *Purrpaws for Life* word op Vrydag 31 Oktober vanaf 17:00 tot 21:00 langs die DP de Villiers-stadion gehou. Kom endersteun asseblief hierdie mark wat gehou word ten bate van *Purrpaws*, wat na sowat 500 diere omsoek.

Daar sal heerlike etgoed en vers produkte wees, asook talenwolle uitstallers met pragtige kuns- en dekor-artikels. Dit beloof om 'n gesellige Vrydag-aand-kuiet te wees vir die hele gesin. Onthou om die geliefde viervoets-kinders saam te bring.

Vir meer uitleg besoek www.facebook.com/pavillionmarket of skakel Amelia by 082 858 9112.

AANSOEK OM UITSTELLING VIR NATREF SE BEDRYWIGHED IN SASOLBURG VAN SEKERE VEREISTES VAN DIE LYS VAN AKTIWITEITE WAT LEI TOT ATMOSFERIESE EMISSIES WAT 'N BEDUIDENDE UITWERKING OP DIE OMGEWING HET OF KAN HÉ, INSLUITEND GESONDHEID, SOSIALE TOESTANDE, EKONOMIESE TOESTANDE OF EKOLOGIESE TOESTANDE OF KULTURELE ERFENIS (LYSKENNISGEWING GN 893 IN SK 37054 VAN 22 NOVEMBER 2013) GEПUBLISIER INGEVOLGE DIE WET OP NASIONALE OMGEWINGSBESTUUR: LUGGEHALTE NR. 39 VAN 2004 ("NEMOA")

BESKIKBAARHEID VAN MOTIVERINGSVERSLAG VIR OPENBARE KOMMENTAAR

Nasionale Petroleum raffinaderies van Sasol Afrika (Edms.) Bpk. ("Sasol") word gevraag vir die Sasol en Total kant.

Daar sal van die Natref-affiliaaries verwag word om onder andere te voldoen aan die vereistes in hervormde lykenningswet, insluitend gespesifieerde hydronswerke vir ontkomming in Deel 2 en die Minimum Emisstoestande (MES) in Deel 3. Ingevolge die lykenningswet word daar van bestaande ondernemings verwag om teen 1 April 2015 aan die MES vir bestaande ondernemings en teen 1 April 2020 aan die MES vir nuwe ondernemings te voldoen.

Natref het in Junie 2014 'n openbare deelnameproses oor vervalske om vrystelling van die MES afgehandel. Sedert die afhandeling van die proses vir openbare kommentaar, is Natref aangeset om eerder uitstalling van die hydronswerke vir ontkomming in die MES te kry om die uitdagings te behandel. Die onsukses om vrystelling sal gevylek as 'n onsukses om uitstelling ingedien word, besoekers die bestaande ondernemings om uitstelling wat reeds van die Nasionale Luggehaltekommissie voorgelië is.

Tervyf die bykomende onsukses om uitstelling in wese dieselfde inhoud het as die oorspronklike onsukses om vrystelling want belanghebbendes voorheen nie geleentheid gehad nie om konsumente te lewer, word 'n verdere geleentheid nie om belanghebbendes gehad om op hierdie onsukses as 'n onsukses om uitstelling konsumente te lewer. Die onsukses is reeds herhaal in aansluiting met belanghebbendes te konsumente wat voorheen ontveng is. Die bykomende onsukses om uitstelling sluit spesifiek 'n volledige Motiveringsverslag in volgens die toepasslike beperkings van die NEMOA en die lykenningswet.

SRK Consulting, 'n onafhanklike ontpartiges, roodgekorste firma, besiggestaan deur toegeskoude en onafhanklike spesialiste, is daar Natref aangeset om die onsukses om veral die versie op te staan en om 'n gesporende, onafhanklike proses van belanghebbendebekritiekbaarheid uit te voer. Die onsuksesproses en gesporende openbare deelnameproses is in September 2013 aangewend en daarna begin.

Sasol in die geval van die onsukses om vrystelling, sluit die bykomende onsukses om uitstelling 'n Motiveringsverslag en tersklike onthenging in, insluitend die Almaloketiese inspeksieverlag en 'n Konsumentar- en Reeksverslag wat ondag skenk aan konsumente wat tot dover ontveng is. Hierdie dokumente is nou beschikbaar vir openbare kommentaar.

Die dokumente is in PDF-formaat op die SRK se website <http://www.srk.co.za/en/za/natref-postprocessment> en vanaf 13 Oktober 2014 by die volgende openbare plekke beskikbaar:

Openbare plek	Uitgiving	Telefoon
Sasolburg Openbare Bibliotheek	John Vorster-weg, Sasolburg	016 973 8464
Motsephantsi Plaaslike Municipaal	Ferdinandstraat, Sasolburg	016 973 8300

Belanghebbendes wat na die onafhanklike konsulentering of belanghebbende en Geoffekteerde Partye geregtigheid het, moet selfs onder belanghebbendes wat sou wil registrasie, kan ook elektroniese afskrifte van die verslag beklemtoon, konsumente lewer of 'n fiksusprijsvergadering versoek daar in verbanding te tree met Mr Lynette Rothmann-Guest by die SRK-kantoor vir openbare deelname Tel +27(0)11 441 1111 Fax: +27(0)11 506 1737 e-pos: rothmann.guest@srk.co.za

SPERDATUM VIR KOMMENTAAR: 21 November 2014

AANSOEK OM UITSTELLING VIR SASOL SE BEDRYWIGHED IN SASOLBURG VAN SEKERE VEREISTES VAN DIE LYS VAN AKTIWITEITE WAT LEI TOT ATMOSFERIESE EMISSIES WAT 'N BEDUIDENDE UITWERKING OP DIE OMGEWING HET OF KAN HÉ, INSLUITEND GESONDHEID, SOSIALE TOESTANDE, EKONOMIESE TOESTANDE OF EKOLOGIESE TOESTANDE OF KULTURELE ERFENIS (LYSKENNISGEWING GN 893 IN SK 37054 VAN 22 NOVEMBER 2013) GEПUBLISIER INGEVOLGE DIE WET OP NASIONALE OMGEWINGSBESTUUR: LUGGEHALTE NR. 39 VAN 2004 ("NEMOA")

BESKIKBAARHEID VAN MOTIVERINGSVERSLAG VIR OPENBARE KOMMENTAAR

Sasol besit en bedryf faciliteite te Secunda in Mpumalanga, Sasolburg in die Vryheid en Ekonomiese in Germiston.

Daar sal van Sasol verwag word om onder andere te voldoen aan die vereistes in hervormde lykenningswet, insluitend gespesifieerde hydronswerke vir ontkomming in Deel 2 en die Minimum Emisstoestande (MES) in Deel 3. Ingevolge die lykenningswet word daar van bestaande ondernemings verwag om teen 1 April 2015 aan die MES vir bestaande ondernemings en teen 1 April 2020 aan die MES vir nuwe ondernemings te voldoen.

In Junie 2014 het Sasol Chemiese Industrie (Edms.) Bpk. deur hul Sasolburg-bedrywighede (voorbly Sasol Infrastruktuur, 'n eenheid van Sasol Chemiese Industrie (Edms.) Bpk.) 'n opdragde deelnameproses oor sekere onsukses om vrystelling van die MES afgehandel. Sedert die afhandeling van die proses vir openbare kommentaar, is Sasol aangeset om eerder uitstalling van die hydronswerke vir ontkomming in die MES te kry om die uitdagings te behandel. Die onsukses om vrystelling sal gevylek as 'n onsukses om uitstelling ingedien word, benewens die beoogde onsukses om uitstelling wat reeds van die Nasionale Luggehaltekommissie voorgelië is.

Tervyf die bykomende onsukses om uitstelling in wese dieselfde inhoud het as die oorspronklike onsukses om vrystelling want belanghebbendes voorheen nie geleentheid gehad nie om konsumente te lewer, word 'n verdere geleentheid nie om belanghebbendes gehad om op hierdie onsukses as 'n onsukses om uitstelling konsumente te lewer. Die onsukses is reeds herhaal in aansluiting met belanghebbendes te konsumente wat voorheen ontveng is. Die bykomende onsukses om uitstelling sluit spesifiek 'n volledige Motiveringsverslag in volgens die toepasslike beperkings van die NEMOA en die lykenningswet.

SRK Consulting, 'n onafhanklike ontpartiges, roodgekorste firma, besiggestaan deur toegeskoude, onafhanklike spesialiste, is daar Sasol aangeset om die onsukses om veral die versie op te staan en om 'n gesporende, onafhanklike proses van belanghebbendebekritiekbaarheid uit te voer. Die onsuksesproses en gesporende openbare deelnameproses is in September 2013 aangewend en daarna begin.

Sasol in die geval van die onsukses om vrystelling, sluit die bykomende onsukses om uitstelling 'n Motiveringsverslag en tersklike onthenging in, insluitend die Almaloketiese inspeksieverlag en 'n Konsumentar- en Reeksverslag wat ondag skenk aan konsumente wat tot dover ontveng is. Hierdie dokumente is nou beschikbaar vir openbare kommentaar.

Die dokumente is in PDF-formaat op die SRK se website <http://www.srk.co.za/en/za/sasol-postprocessment> en vanaf 13 Oktober 2014 by die volgende openbare plekke beskikbaar:

Vaalpark Prim  re hou opedag

Vaalpark Prim  re Skool het op 23 September hul jaarlike opedag gehou. Deel van die waardegedrawe uitstalling was 7 Mini Coopers. Hierdie Mini's het elke pappa en kleuter na hul asem laat snak. Die skool bedank graag vir Mini Bruma Auto vir die gebruik van hul sewe Mini Coopers by die opedag. Van links is Terence Herbert (Mini verkoopsbesteller), Charmaine Kriek (VPP bemarkter) en Innes van Niekerk (verkoper).

SPCA under control of NSPCA

The Vanderbijlpark/Sasolburg SPCA is currently under the control of the NSPCA after the entire committee resigned in August. This will be until further notice.

The SPCA is functioning as normal. Any animal welfare complaints be either addressed directly to the society on (016) 987 1800 or brought to the attention of the Society Liaison Officer Maggie Mudd on (011) 907 3591 or liaison4@nspca.co.za

Articon hou toneelaand

SASOLBURG. - Vaalpark Articon bied op 16 Oktober 'n toneelaand by die skool aan in samewerking met Die Akademie vir Dramakuns. Die tema is *Kapteing/captured*.

Die Akademie vir Dramakuns en dramalearinge van Vaalpark Articon gaan drie eenbedryf produksies en vier tema programme op die plankie bring. Die toneelaand begin om 17:30 vir 18:00. Die koste is R40 per persoon. Die toneelaand word in die skooldaal gehou.

Vir navors kontak die skool by (016) 971 2025 of stuur 'n e-pos aan matting@valparkhigh.co.za.

SASOL
reaching new frontiers

APPLICATION FOR POSTPONEMENT FOR SASOL'S OPERATIONS IN SASOLBURG FROM CERTAIN REQUIREMENTS OF THE LIST OF ACTIVITIES WHICH RESULT IN ATMOSPHERIC EMISSIONS WHICH HAVE OR MAY HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT, INCLUDING HEALTH, SOCIAL CONDITIONS, ECONOMIC CONDITIONS, ECOLOGICAL CONDITIONS OR CULTURAL HERITAGE (LISTING NOTICE GN 393 IN GG 37054 OF 22 NOVEMBER 2013) PUBLISHED IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT NO. 39 OF 2004 ("NEMAQA")

AVAILABILITY OF MOTIVATION REPORT FOR PUBLIC COMMENT

Sasol owns and operates facilities of Sasol in Mpumalanga, Sasolburg in the Free State, and Sasolindustria in Grootfontein. Sasol will be required to comply with, amongst other things, requirements in the aforementioned listing notice, including specified compliance time frames in Part 2 and the Maximum Emissions Standards (MES) in Part 3. In terms of the listing notice, existing plants are required to comply by 1 April 2015 with MES for existing plants, and by 1 April 2020 with MES for new plants.

In June 2014, Sasol Chemical Industries (Proprietary) Limited, operating through its Sasolburg Operations (formerly Sasol Indraction, a division of Sasol Chemical Industries (Pty) Limited), concluded a public participation process on certain applications for exemptions from the MES. Since the conclusion of the public commenting process, Sasol has been directed to rather seek postponement from the compliance timeframes in the MES to address its challenges. Consequently the exemption application will be submitted as a postponement application, in addition to its existing postponement applications which have already been submitted to the National Air Quality Officer.

While the additional postponement applications contain essentially the same content as the original exemption applications on which stakeholders were previously offered an opportunity to comment, a further opportunity is now provided to stakeholders to comment on this application as a postponement application. The application has already been revised in accordance with stakeholder comments previously received. The additional postponement application specifically includes a detailed Motivation Report in accordance with the applicable provisions of the NEMAQA and the listing notice.

SRK Consulting, an independent environmental consulting firm, assisted by appropriate independent specialists, has been appointed by Sasol to compile the application and related reports, and to conduct an associated independent stakeholder engagement process. The application process and associated stakeholder engagement process was commenced in September 2013 and subsequently refined.

As was the case for the exemption application, the additional postponement application includes a Motivation Report, together with relevant annexures including the Atmospheric Impact Report and a Comment and Response Report addressing comments received thus far. These documents are now available for public comment.

The documentation is available in PDF format on the SRK website, <http://www.srk.co.za/en/10-notice-of-postponement> and at the following public places from 13 October 2014:

Public Place	Locality	Telephone
Sasolburg Public Library	John Vorster Road, Sasolburg	016 973 8454
Mafikeng Local Municipality	Fritchard Street, Sasolburg	016 973 8300

Stakeholders who registered as Interested and Affected Parties when notification was first given, as well as any other stakeholders who now wish to register, may also obtain electronic copies of the report, submit comments, or request a focus group meeting by contacting Ms Lynette Bothman-Guest or the SRK Stakeholder Engagement Office.

Tel: +27(0)11 441 1111 Fax: +27(0)86 5061737, e-mail: bothman-guest@srk.co.za

APPLICATION FOR POSTPONEMENT FOR NATREF'S OPERATIONS IN SASOLBURG FROM CERTAIN REQUIREMENTS OF THE LIST OF ACTIVITIES WHICH RESULT IN ATMOSPHERIC EMISSIONS WHICH HAVE OR MAY HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT, INCLUDING HEALTH, SOCIAL CONDITIONS, ECONOMIC CONDITIONS, ECOLOGICAL CONDITIONS OR CULTURAL HERITAGE (LISTING NOTICE GN 893 IN GG 37054 OF 22 NOVEMBER 2013) PUBLISHED IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT NO. 39 OF 2004 ("NEMAQA")

AVAILABILITY OF MOTIVATION REPORT FOR PUBLIC COMMENT

National Petroleum Refinery of South Africa (Proprietary) Limited ("Natrif") is jointly owned by Sasol and Total.

The Natrif refinery will be required to comply with, amongst other things, requirements in the above-mentioned listing notice, including specified compliance time frames in Part 2 and the Minimum Emission Standards (MES) in Part 3. In terms of the listing notice, existing plants are required to comply by 1 April 2015 with MES for existing plants, and by 1 April 2020 with MES for new plants.

In June 2014, Natrif concluded a public participation process on certain applications for exemptions from the MES. Since the conclusion of the public commenting process, Natrif has been directed to rather seek postponement from the compliance timeframes in the MES to address its challenges. Consequently the exemption application will be submitted as a postponement application, in addition to its existing postponement applications which have already been submitted to the National Air Quality Officer.

While the additional postponement applications contain essentially the same content as the original exemption applications on which stakeholders were previously offered an opportunity to comment, a further opportunity is now provided to stakeholders to comment on this application as a postponement application. The application has already been revised in accordance with stakeholder comments previously received. The additional postponement application specifically includes a detailed Motivation Report in accordance with the applicable provisions of the NEMAQA and the listing notice.

SRK Consulting, an independent environmental consulting firm, assisted by appropriate independent specialists, has been appointed by Natrif to compile the application and related reports, and to conduct an associated independent stakeholder engagement process. The application process and associated stakeholder engagement process was commenced in September 2013 and subsequently refined.

As was the case for the exemption application, the additional postponement application includes a Motivation Report, together with relevant annexures including the Atmospheric Impact Report and a Comment and Response Report addressing comments received thus far. These documents are now available for public comment.

The documentation is available in PDF format on the SRK website, <http://www.srk.co.za/en/10-notice-of-postponement> and at the following public places from 13 October 2014:
