Disclaimer

The opinions expressed in this report have been based on the information supplied to SRK Consulting (South Africa) (Pty) Ltd (SRK) by Sasol South Africa Limited (Sasol). The opinions in this Report are provided in response to a specific request from Sasol to do so. SRK has exercised all due care in reviewing the supplied information. Whilst SRK has compared key supplied data with expected values, the accuracy of the results and conclusions from the review are entirely reliant on the accuracy and completeness of the supplied data. SRK does not accept responsibility for any errors or omissions in the supplied information and does not accept any consequential liability arising from commercial decisions or actions resulting from them. Opinions presented in this report apply to the site conditions and features as they existed at the time of SRK's investigations, and those reasonably foreseeable. These opinions do not necessarily apply to conditions and features that may arise after the date of this Report, about which SRK had no prior knowledge nor had the opportunity to evaluate.

Sasol	Sasol South Africa Ltd (Sasol)
SO	Sasolburg Operations

1 Introduction

Sasol South Africa Limited (Sasol) is an international integrated chemicals and energy company that leverages technologies and the expertise of 30 100 people working in 33 countries. Sasol develops and commercialises technologies and builds and operates world-scale facilities to produce a range of high-value product streams, including liquid fuels, chemicals and low-carbon electricity. Sasol is a significant business partner in the South African economy and has manufacturing operations located predominantly in Secunda, Mpumalanga and Sasolburg, Free State.

This document pertains to the Sasolburg Operation (SO) in the Free State Province.

SO has previously applied for, and been granted, postponement, by the National Air Quality Officer (NAQO), with the concurrence of its licensing officer, in terms of the 2015 compliance timeframes of the Minimum Emissions Standards (MES) which were published in Government Notice No. 893 in Government Gazette 37054 of 22 November 2013 (“GN 893”) and published in terms of the National Environmental Management: Air Quality Act (Act No. 39 of 2004) (NEM:AQA). However, Sasol will be unable, in certain instances, to timeously meet the more stringent 2020 MES compliance requirements as previously communicated in the postponement applications.

Thus, in the present application (the “2019 Postponement Application”), Sasol hereby makes application for postponement of the compliance timeframes relating to 2020 MES for atmospheric emission generating facilities and processes at their SO facility in the Free State Province.

This final public participation report is included as Annexure C of the report titled: “Sasolburg Operations - Motivation for the postponement of Compliance Timeframes in terms of Regulation 11 of the Section 21 NEM:AQA Minimum Emissions Standards”, by Sasol, dated March 2019.

The abovementioned motivation report includes the findings of an independently prepared atmospheric impact report (AIR), which determined Sasol’s impact on ambient air quality, along with further reasons that warrant consideration in a decision about postponements from the MES. Sasol has appointed Airshed Planning Professionals (Airshed) to prepare the AIR and SRK Consulting (South Africa) Ltd. (SRK) to manage the technical studies and the Public Participation Process (PPP).

This final public participation report, as compiled by SRK, documents the public participation activities undertaken during the announcement phase, and details the process whereby interested and affected parties (I&APs) were given the opportunity to comment on the Draft Motivation Report and AIR prepared as part of the application.

2 Approach to public participation

The PPP undertaken as part of Sasol's application for postponement of the compliance timeframes was structured to meet the requirements of Chapter 6 of the Environmental Impact Assessment (EIA) Regulations (Government Notice No. 982, 04 December 2014) (as amended in 2017), published under the National Environmental Management Act (Act 107 of 1998) (NEMA), as specified in the November 2013 MES Regulations.

The PPP is an important component of the application and is closely linked to the technical activities required for the preparation of the motivation report. **Figure 2-1** details the technical and PPP processes.

Figure 2-1: Technical and public participation process

3 I&AP identification

I&APs were identified as follows:

- Identified from previous environmental authorisation processes undertaken by SRK.
- Registered with the previous Sasol postponement applications in 2014, 2016 and 2017.
- Registered at any of the bi-annual SO Offset public feedback meetings
- Registered with the Sasol offset implementation plan PPP.

The I&AP database for SO comprises approximately 1,127 I&APs, representing various sectors of society as listed below (Refer to **Appendix A** for the full database of I&APs):

- National government: Department of Environment Affairs, Department of Mineral Resources and the Department of Water and Sanitation.
- Provincial government: The Free State Department of Economic, Small Business Development, Tourism and Environmental Affairs Department of Health and Social Development, Department of Water and Sanitation, and the South African Local Government Association (SALGA).
- District and local government: Fezile Dabi District Municipality, Metsimaholo Local Municipality and their ward councillors.
- Non-governmental organisations (NGOs) and interest groups: including Save the Vaal Environment, the Vaal Environment Alliance (VEJA), Wildlife and Environment Society of South Africa (WESSA), Legal Resources Centre (LRC), Centre for Environmental Rights and GroundWork.
- Organised business and commerce: Business Unity South Africa (BUSA).
- Organised mining and industry: Chamber of Mines and Harmony Gold Mines.
- Community based organisations: Sasol Community Working Group
- Labour unions and associations: Transvaal Agricultural Union, National Education Health and Allied Workers' Union and The Chemical, Energy, Paper, Printing, Wood and Allied Workers' Union.
- Research and academia: Council for Scientific and Industrial Research, and Infotox.
- Media: Sedibeng Star and Vaal Weekblad.
- Parastatals: Eskom, Transnet, Telkom, South African Heritage Resource Agency, and the South African National Biodiversity Institute.
- Sasol employees (internal I&APs).
- Adjacent and surrounding landowners.

The database was reviewed and updated during the PPP.

4 Project announcement

The project announcement phase was conducted between 17 October 2018 and 09 November 2018. I&APs received notification of Sasol's intention to apply for postponement, a background information document (BID) and an invitation to register as an I&AP in the process. I&APs were invited to participate in the process as follows:

- Distribution by email, of invitation letters accompanied by a BID and a registration and comment form on 16 November 2016 (see **Appendix B and C** for copies of these documents).
- Advertisements were placed in three local newspapers (see **Appendix D** for proof of advertisement publication), as follows:
 - Sasolburg Ster (English) on Tuesday 16 October 2018.
 - Vaal Weekblad (Afrikaans) on Tuesday 16 October 2018.
 - Puisano News (Sesotho) on Friday 19 October 2018
- Site notices (A2 Size), in English, Afrikaans and Sotho together with copies of the BIDs and registration and comment forms were placed in publicly accessible venues close to the operations, namely the Sasolburg Public Library, Zamdela Library, Metsimaholo Local Municipality and at the

SO Site Reception on 17 October 2018 (see **Appendix E** for a copy of the site notice and photographs indicating notice placement).

- BIDs, invitation letters and registration and comment forms were placed on SRK's website at <https://www.srk.co.za/en/za-sasol-2019-mes-postponement-applications>. Where email addresses for I&APs were not available, facsimile and sms notifications were made to I&APs to inform them of the postponement application.
- Where email addresses were not available SMS's were sent to I&APs that registered or attended meetings for previous postponement applications.

During the announcement phase, SRK received requests for I&APs to be registered on the database, online registrations, as well as requests from some I&APs to be removed from the database. In addition, SRK received numerous Curriculum Vitae (CV's) and requests for employment. No comments specifically relating to the postponement application were received during the announcement period beyond requests to register and remain informed of the process.

5 Public comment on the Draft Motivation Report and AIR

While the official comment period on the draft motivation report and AIR commenced on **Monday 7 January 2019 and closed on Wednesday 6 February 2019**, the draft motivation report and AIR was made available from the 19 December 2018 to allow additional time for I&APs to review and comment. Notification of the availability of the documents and an invitation to attend the public open days to facilitate comment on the draft motivation report and AIR were made as follows:

- Distribution by email of notification letters on the 20/21 December 2018 and reminder emails on the 10 January 2019 (see **Appendix B** for copies of these documents).
- Advertisements in local newspapers (see **Appendix D** for proof of advertisement publication) as follows:
 - Sasolburg Ster (English) during the week of the 11 December 2018 and 15th January 2019.
 - Vaal Weekblad (Afrikaans) during the week of the 11 December 2018 and 15th January 2019.
 - Puisano (Sesotho) during the week of 14 December 2018 and 11th January 2019.
- Where email addresses for I&APs were not available, facsimile and sms notifications were used to distribute notifications.

Electronic versions of the reports and comment forms were made available on the SRK website, <https://www.srk.co.za/en/za-sasol-2019-mes-postponement-applications> from close of business in December 2018 to allow additional time for I&APs to review and comment. Electronic copies were available on request from the public participation office at SRK.

In addition, printed copies of the report and registration and comment forms were made available at the publicly accessible venues as listed in Table 4-1, for I&APs to view and comment on.

Table 5-1: Venues where hard copies of the draft motivation report and AIR could be accessed

Venue	Address	Contact details
Sasolburg Public Library	John Vorster Road, Sasolburg	016 973 8463
Zamdela Library	Next to Zamdela Hall on the Main Road, Zamdela	016 974 2163
Metsimaholo Local Municipality	Fichardt Street, Sasolburg	016 973 8316
Sasolburg Operations Main Reception	1 Klasie Havenga Road, Sasolburg	016 960 2014 / 2976

Comments and suggestions on any aspect of the Draft Motivation Report or AIR were then collated and responded to, where appropriate. These comments and suggestions form part of the documentation used to inform the authorities' decision. I&APs were able to comment by:

- Completing the online registration and comment form at the following link: <https://arcg.is/H05W9>
- Completing the enclosed registration and comment form and submitting it to SRK;
- Writing a letter or additional written submission by mail, email or fax; or
- Calling SRK.

5.1 Public open days

Public open days to facilitate comment on the Draft Motivation Report and AIR were held as listed in Table 4-2.

Table 5-2: Public open day venues

Date	Time	Venue
Monday 21 January 2019	12h00 – 18h00	Boiketlong Community Hall
Wednesday 23 January 2019	12h00 – 18h00	Multi-purpose Centre, Harry Gwala

The primary objectives of the public open days were to:

- Foster robust engagements and build relationships with Sasol’s host communities.
- Share information on Sasol, their activities and air quality impacts relating to the postponement application.
- Provide an opportunity for the community to raise any issues regarding the postponement application process.
- Facilitate comments on the motivation report and AIR.

Participants at the open days were asked to complete comment forms, where necessary SRK was available to transcribe. The comments were captured in the Comment and Response Report (CRR) that also includes copies of the comment forms.

5.2 Comments received

All comments received on the Draft Motivation Report or AIR either at public meetings or via post, email or fax, including responses thereto as appropriate, were included in a CRR (Annexure D of the Motivation Report). The CRR will be submitted with the Motivation Report and AIR to the NAQO for consideration.

Comments received at the open day, via post, email, fax or the online comment form are attached as Appendix 1 of the Comments and Response Report, attached at Annexure D of the Motivation Report.

6 Availability of the Final Motivation Reports for public comment

The final documents relating to the postponement application will be submitted to the NAQO for consideration by 31 March 2019. These documents will be available after the submission, for review, and can be accessed as follows:

- Electronic versions of the reports are available on SRK’s website at <http://www.srk.co.za/en/za-sasol2017postponement>.
- Electronic copies are also available on request from the Public Participation Office at SRK.

Any comments on the Final Motivation Report and annexures thereto, should be submitted directly to the NAQO and I&AP’s will be notified of the submission and where to submit any further comments.

7 Next Steps in the application process

The NAQO is required to consider the final application, together with any additional comments submitted by stakeholders, and thereafter to issue a decision in concurrence with the licensing authority. Registered I&APs will be informed of the decision once issued. They will also be advised of the way forward following the decision based on specific requirements imposed by the NAQO.

8 Conclusion

Contributions to SO's application process by a wide range of I&APs have ensured that the relevant aspects and issues raised and reflected in the CRR are considered as part of the authority decision-making process.

Appendix B: Notification Letters

17 October 2018
526577

INVITATION TO REGISTER AND PARTICIPATE

Applications for postponement of certain requirements of the National Environmental Management: Air Quality Act - Minimum Emission Standards, for Sasol South Africa Limited operations in Sasolburg

Dear Stakeholder

- **Availability of a Background Information Document for comment**
- **Invitation to register as an I&AP**
- **Next steps in the application process**

Sasol South Africa Limited (Sasol) is an international integrated energy and chemical company which owns and operates facilities at Sasolburg in the Free State. Sasol is required to comply with Minimum Emission Standards (MES), published in terms of the National Environmental Management: Air Quality Act (Act No 39 of 2004). Sasol has previously applied and been granted postponement. However, new, more stringent standards will come into effect in April 2020 and Sasol will be challenged to meet the 2020 new plant standards in certain instances.

Sasol therefore intends to apply for postponements for the Steam Stations (in terms of Sub-category 1.1 of the MES) and Incinerators (in Terms of Subcategory 8.1 of the MES) at their Sasolburg Operations.

This application is supported by Part 2 of the MES. In accordance with the requirements for postponements contained in the MES, Sasol will submit an atmospheric impact report (AIR) together with a motivation report containing detailed justification and reasons. Airshed Planning Professionals (Pty) Ltd (Airshed) has been appointed to prepare the AIR while SRK Consulting (South Africa) (Pty) Ltd (SRK) has been appointed to undertake the stakeholder engagement process to also assist Sasol in compiling the Motivation Report.

Availability of a Background Information Document (BID) for comment

The enclosed BID provides more information about Sasol's intended postponement applications. It provides Interested and Affected Parties (I&APs) with an initial opportunity to comment on the application process and to register and receive further information during the process.

Partners R Armstrong, AH Bracken, N Brien, JM Brown, CD Dalglish, BM Engelsman, R Gardiner, M Hinsch, W Jordaan, WC Joughin, DA Kilian, S Kisten, JA Lake, V Maharaj, DJ Mahlangu, I Mahomed, HAC Meintjes, MJ Morris, GP Nel, VS Reddy, PJ Shepherd, MJ Sim, VM Simposya, HFJ Theart, KM Uderstadt, AT van Zyl, MD Wanless, ML Wertz, A Wood

Sasolburg Operations Main Reception	1 Klasie Havenga Road, Sasolburg	Reception	016 960 2014 / 2976

You are invited to comment on the BID by:

- Completing the online registration and comment form at the following link: <https://arcg.is/H05W9>
- Completing the enclosed registration and comment form and submitting it to SRK (details below);
- Writing a letter or additional written submission by mail, email or fax; or
- Calling SRK.

Invitation to register as an I&AP

This notification is being sent to you as you have previously registered as an I&AP in a public participation process relating to a postponement or offset application filed by Sasol. Should you prefer not to be contacted in this regard please indicate as much via the comment link above or contact SRK at the details below.

You are welcome to forward this notice to others who may be interested in registering as an I&AP in this process. They are similarly invited to register as an I&AP and to comment on Sasol's application. Please submit your registration online by using the link provided above or complete the enclosed Registration and Comment Form and submit to SRK by **9 November 2018**.

Please note that by registering as an I&AP you consent to:

- receiving communications relating to the process;
- having your personal information stored on an I&AP database;
- the I&AP database and the personal information contained therein being submitted to a third party if an appeal is lodged; and
- having your personal information utilised for notifications related to Public Participation processes associated with the application and any appeals should they be lodged.

Next steps in the Application Process

The Draft Motivation Report and AIR will be made available for public comment early in 2019. Registered I&APs will be informed in advance of the availability of the report. Then, all comments received on the BID, the Draft Motivation Report and AIR will be compiled in the Comments and Response Report that will be submitted together with the Motivation Report and AIR to the National Air Quality Officer for consideration in concurrence with the Gert Sibande District Municipality.

To obtain more information, or to submit your comments, please contact SRK at the contact details below:

Philippa Burmeister or **Romi Bellusci** at SRK, **Tel:** +27(0)31 279 1200 **Fax:** +27(0)31 279 1204, **e-mail:** pburmeister@srk.co.za / rbellusci@srk.co.za

Yours faithfully,

SRK Consulting (South Africa) (Pty) Ltd

Availability of the Draft Motivation Report and AIR for Comment

While the official comment period on the Draft Motivation Report and AIR will commence on **Monday 7 January 2019 and close on Wednesday 6 February 2019**, documents will be made available from the close of business in December to allow additional time for I&APs to review and comment.

Electronic versions of the reports will be available on SRK's website at <https://www.srk.co.za/en/za-sasol-2019-mes-postponement-applications> and electronic copies can be made available on request from the Stakeholder Engagement Office at SRK.

In addition, printed copies of the reports and comment sheets will be available at the following publicly accessible venues for stakeholders to view and comment on:

Sasolburg			
Public Place	Address	Contact	Telephone
Public Library	John Vorster Road, Sasolburg	Yvette Herbst Griesel	016 973 8463
Zamdela Library	Next to Zamdela Hall on the Main Road, Zamdela	Reception	016 974 2163
Metsimaholo Local Municipality	Fichardt Street, Sasolburg	M Molala	016 973 8316
Sasolburg Operations Main Reception	1 Klasie Havenga Road, Sasolburg	Reception	016 960 2014 / 2976

Your comments and suggestions on any aspect of the Draft Motivation Report and AIR will be considered and included in a comments and response report appended to the application. You are welcome to comment on the Draft Motivation Report and AIR by:

- Completing the online registration and comment form at the following link: <https://arcg.is/H05W9>
- Completing the enclosed registration and comment form and submitting it to SRK (details below);
- Writing a letter or additional written submission by mail, email or fax; or
- Calling SRK.

DUE DATE FOR COMMENTS: WEDNESDAY 6 FEBRUARY 2019.

Public Open days

To facilitate comment on the Draft Motivation Report and AIR, two public open days will be held where the application will be explained. Participants will have the opportunity at these open days to meet the project team and to provide comments. Details of the public open days are as follows:

Date	Time	Venue
21 January 2019	12:00-18:00	Boiketlong Community Hall
23 January 2019	12:00-18:00	Multi-Purpose Centre, Harry Gwala

To confirm your attendance, submit comments or to obtain more information; please contact SRK at the contact details below:

Philippa Burmeister or **Romi Bellusci** at SRK, **Tel:** +27(0)31 279 1200 **Fax:** +27(0)31 279 1204, **e-mail:** pburmeister@srk.co.za / rbellusci@srk.co.za

Next steps in the Application Process

The Public Participation Report and Comment and Response Report will be updated once all comments are received. These documents will be included as part of the Final postponement application submitted for approval by the relevant authorities. Registered I&APs will be notified of the submission and copies of the submission will be made available on SRK's website. Registered I&APs will also be notified once a decision, regarding the postponement application has been made by the authorities.

Yours faithfully,

SRK Consulting (South Africa) (Pty) Ltd

Subject: Reminder: Sasol 2019 Postponement Application: Availability of the Draft Motivation Report & AIR for comment & details of the public open day

Body:

Dear Stakeholder

A reminder that comments on the Draft Motivation Report and Atmospheric Impact Report opened on the 7 January 2019 and will close on the 6 February 2019.

Please find enclosed details of how to access and comment on the Draft Motivation Report and Atmospheric Impact Report for Sasol's operations in Secunda and Sasolburg.

To access the documents on SRK's website follow the following link:

<https://www.srk.co.za/en/za-sasol-2019-mes-postponement-applications>

To submit comments online use the following link:

<https://arccg.is/H05W9>

Finally, included in the notices please also find details of the public open days.

Should you have any queries please do not hesitate to contact SRK at the details provided in the notification.

Kind regards,
Tamaryn Hale

Appendix C: Background Information Document

BACKGROUND INFORMATION DOCUMENT AND OPPORTUNITY TO COMMENT

OCTOBER 2018

APPLICATIONS FOR POSTPONEMENT OF CERTAIN REQUIREMENTS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT - MINIMUM EMISSION STANDARDS, FOR SASOL'S OPERATIONS IN SECUNDA AND SASOLBURG

INTRODUCTION

The purpose of this document is to provide stakeholders with the following:

- Information on the background to Sasol's applications for postponements from certain requirements of the Minimum Emission Standards (MES) (published in Government Notice No. 893 of 22 November 2013) published in terms of section 21 of the National Environmental Management: Air Quality Act 39 of 2004 (NEMAQA) for certain of Sasol's operations in Secunda and Sasolburg.
- An outline of the legal framework governing air quality management in South Africa and specifically the MES, pertinent to this background information document (BID) and related applications.
- Information on the stakeholder engagement and application process that will be followed.
- Information regarding opportunities to provide comments relating to the applications.

BACKGROUND

Sasol is an international integrated chemicals and energy company that leverages technologies and the expertise of 30 100 people working in 33 countries. Sasol develops and commercialises technologies, and builds and operates world-scale facilities to produce a range of high-value product streams, including liquid fuels, chemicals and low-carbon electricity. Sasol is a significant business partner in the South African economy and has manufacturing operations located predominantly in Secunda, Mpumalanga and Sasolburg, Free State.¹

Sasol is committed to growing its business in the long term in a safe, ethical, compliant and environmentally responsible way, consistent with its safety, health and environment policy and Sasol values. It is continuously implementing new actions and processes to align with its commitments. Sasol reports on its environmental improvement objectives as part of its integrated reporting, available at: <http://www.sasol.com/about-sasol/company-profile/overview>.

¹ The information provided herein with regards to the company description and Sasol's environmental commitments must be read in conjunction with Sasol's Integrated Report for 2017 as available from the Sasol website.

AIR QUALITY MANAGEMENT

The term “ambient air quality” refers to the state of the air in our surrounding environment. Good air quality is important not only for humans, but for other organisms and the environment in general. Poor air quality is a result of many factors, including emissions from various sources, both natural (such as veld fires) and human-induced (industrial and domestic emissions).

The role of the regulatory authorities is to ensure that ambient air quality meets standards set to protect human health and the environment. To achieve this, the Department of Environmental Affairs has promulgated two related but distinct standards. The first are referred to as point source emission standards (also called Minimum Emission Standards (MES)), which place limits on the concentration of emissions from certain industrial activities. The second are ambient air quality standards which seek to set total emissions from all contributors (i.e. industry, citizens and natural causes) to a level that protects human health and the environment.

Sasol’s approach to air quality management is well aligned with the risk-based philosophy adopted by the ambient air quality standards.

Sasol monitors the total quality of ambient air near its facilities through a network of accredited monitoring stations. It also prepares dispersion model scenarios to understand its impacts on ambient air quality in the regions in which it operates, and its capacity to improve these outcomes with point source emission reduction technologies e.g. electrostatic precipitators for particulate matter. This is contextualised against the backdrop of other sources of ambient air pollution, to identify the most effective actions to achieve ambient air quality improvements. This approach helps to inform Sasol’s air quality management priorities, by identifying the key actions to effectively improve ambient air quality.

LEGAL REQUIREMENTS

The NEM:AQA provides for various specific air quality management measures. These include the declaration of priority areas (such as the Vaal Triangle Priority Area and the Highveld Priority Area), ambient air quality standards and point source emission standards as regulated in the MES. The MES prescribes the limits for point source emissions from existing plants which became effective from 1 April 2015 (the so-called ‘existing plant standards’) and which Sasol has previously made an application for postponement as mentioned below, as well as more stringent limits that must be met by 1 April 2020 (the so-called ‘new plant standards’) (termed “compliance timeframes”). Part 2 of the MES allows for applications for postponements of the prescribed compliance timeframes. Postponement applications must be made to the National Air Quality Officer (NAQO) at the Department of Environmental Affairs.

As part of its application, Sasol is required to submit an atmospheric impact report (AIR) supported by detailed justification and reasons. The MES also require that Sasol make these documents available for public comment as prescribed in Chapter 6 of the Environmental Impact Assessment (EIA) Regulations GN R326 (2017) promulgated under the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA).

Sasol has previously applied and been granted postponement in terms of the 2015 MES by the NAQO, with the concurrence of its licensing officer. However, Sasol will be unable, in certain instances, to timeously meet the more stringent 2020 MES compliance requirements. These further postponement applications are mainly requested for purposes of safe and proper completion of the associated projects in the interest of sustained compliance with the new plant standards.

Sasol has spent approximately R2 billion per year over the past decade on environmental improvement projects, most of which has been focused on air quality improvement.

For the next decade, Sasol has outlined a committed roadmap which informs progressive improvements to its existing facilities which will enable a sustainable transition toward meeting the stringent standards set for new plants, under the MES.

SASOL'S APPLICATIONS

SECUNDA SYNFUELS OPERATIONS

Secunda Synfuels Operations (SSO) is located in the Sasol Secunda complex in the Govan Mbeki Local Municipality, which forms part of the Gert Sibande District Municipality in the Mpumalanga Province. The Sasol Secunda site incorporates a number of business activities, including SSO, which operates the world's only commercial coal-gasification based synthetic fuels manufacturing plant.

Postponement applications will be submitted for the following processes that will be unable to meet the compliance timeframes stipulated in the atmospheric emission license (AEL):

- Sub-category 1.1: Steam plant boilers - particulate matter (PM), and oxides of nitrogen (NO_x)
- Sub-category 2.2: Synfuels catalytic cracker – PM
- Sub-category 2.4: Storage tanks - total volatile organic compounds (TVOCs)
- Sub-category 8.1: High organic waste and biosludge incinerators – PM, carbon monoxide, SO₂, NO_x, hydrogen chloride, hydrogen fluoride, sum of lead, arsenic, antimony, chromium, cobalt, copper, manganese, nickel, vanadium, mercury, cadmium and thallium, VOCs, ammonia

SASOL CHEMICALS OPERATIONS

Sasol Chemicals Operations (SCO) is also located in the Sasol Secunda complex. SCO produces a diverse range of products that include industrial explosives, fertilisers, polymers and solvents.

Postponement applications will be submitted for the following processes that will be unable to meet the compliance timeframes stipulated in the AEL:

- Subcategory 7.3: Ammonium nitrate – PM, ammonia
- Sub-category 2.4: Storage tanks and fuel loading – TVOCs

SASOLBURG OPERATIONS

The Sasolburg Operations facility is located in Sasolburg in the Metsimaholo local municipality which is part of the Fezile Dabi District Municipality in the Free State Province. Sasolburg Operations provides a services platform for reforming natural gas into synthesis gas, produces a variety of chemicals, and provides various utility services to other Sasol entities as well as third party customers, such as process steam and industrial and municipal waste water treatment.

Postponement applications will be submitted for:

- Sub-category 1.1: Steam Station 1 – PM, NO_x
- Sub-category 1.1: Steam Station 2 – PM, NO_x
- Sub-category 8.1: Thermal Oxidation Plant (Incinerators) - SO₂, NO_x, Sum of Lead, arsenic, antimony, chromium, cobalt, copper, manganese, nickel, vanadium, TOCs, CO, HF and PM

APPLICATION PROCESS

Sasol has appointed a team of independent specialists to assist with the applications. SRK Consulting (Pty) Ltd has been appointed to undertake the stakeholder engagement process and assist with the compilation of the Motivation Report. Airshed Planning Professionals (Pty) Ltd has been appointed to prepare the atmospheric impact reports (AIRs). Sasol has also appointed an independent party, Exponent, to peer review the air dispersion modelling approach.

The AIRs will detail Sasol’s impact on ambient air quality in the areas affected by its facilities. The motivation report will be informed by the AIR as required in terms of Part 2 of the MES. It will detail the reasons and justification for the postponement application and outline the steps to be taken by Sasol to achieve compliance.

Sasol is committed to affording interested and affected parties (I&APs) the opportunity to provide comments during the public participation process. The approach to the public participation process has been guided by the requirements for consultation in terms of the 2017 EIA Regulations. Responses to comments received during the stakeholder engagement process will be submitted together with the motivation report to the authority for consideration during decision making.

The proposed technical and public participation activities, as well as the broad timeframes for roll out of these processes, are shown below.

INVITATION TO COMMENT

Should you wish to register as an interested and affected party for this process please do so online at the following link: <https://arcg.is/H05W9>

Alternatively, please complete the enclosed registration and comment form and submit it to SRK, at the adjacent contact details, by the **09 November 2018**.
