## INVITATION TO REGISTER AND PARTICIPATE

### Applications for postponement of certain requirements of the National Environmental Management: Air Quality Act - Minimum Emission Standards, for Sasol South Africa (Pty) Ltd Operations in Secunda

Dear Stakeholder

- **Availability of a Background Information Document (BID) for comment**
- **Invitation to register as an I&AP**
- **Next steps in the application process**

Sasol South Africa (Pty) Ltd (Sasol) is an international integrated energy and chemical company which owns and operates facilities at Secunda in Mpumalanga. SSO is located in the Sasol Secunda complex south of central Secunda.

Between 2013 and 2014 Sasol undertook a process to apply for postponements from the 2015 compliance timeframes of the MES. Sasol was granted postponements from a number of its operations by the National Air Quality Officer (NAQO) with the concurrence of the licensing officer. In some instances and for some sources, postponements were granted for less than five years as initially requested. In these instances, Sasol will not be able to timeously comply and SSO therefore intends to apply for further postponements to the 2015 MES for their Incinerators and Phenosolvan Plant where postponements were only granted for three years.

This application is supported by Part 2 of the MES. In accordance with the requirements for postponements contained in the MES, Sasol will submit an Atmospheric Impact Report (AIR) together with detailed justification and reasons. Airshed Planning Professionals (Pty) Ltd (Airshed) has been appointed to prepare the AIR while SRK Consulting (South Africa) (Pty) Ltd (SRK) has been appointed to undertake the stakeholder engagement process to also assist Sasol in compiling the Motivation Report containing the justification and reasons.
