SKOENMAKERS RIVER REHABILITATION ASSESSMENT
 ZONE 1

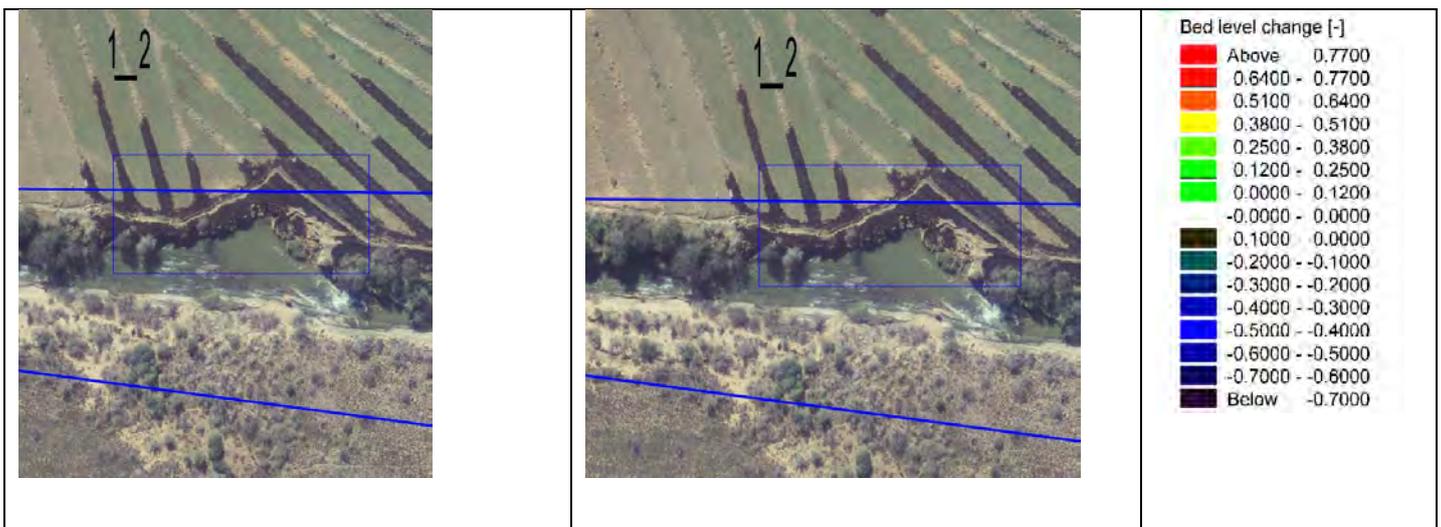

Date:	Compiled by:
08/02/2016	PAUJ
Project No:	Scale
472748	1:7,369

Path: J:\472748_Skoenmakers Rehab\GIS\GISPRO\JM\XDMaps for BAR and WUL\472748_20160208_River_Rehab_Section_Layout_A3.mxd

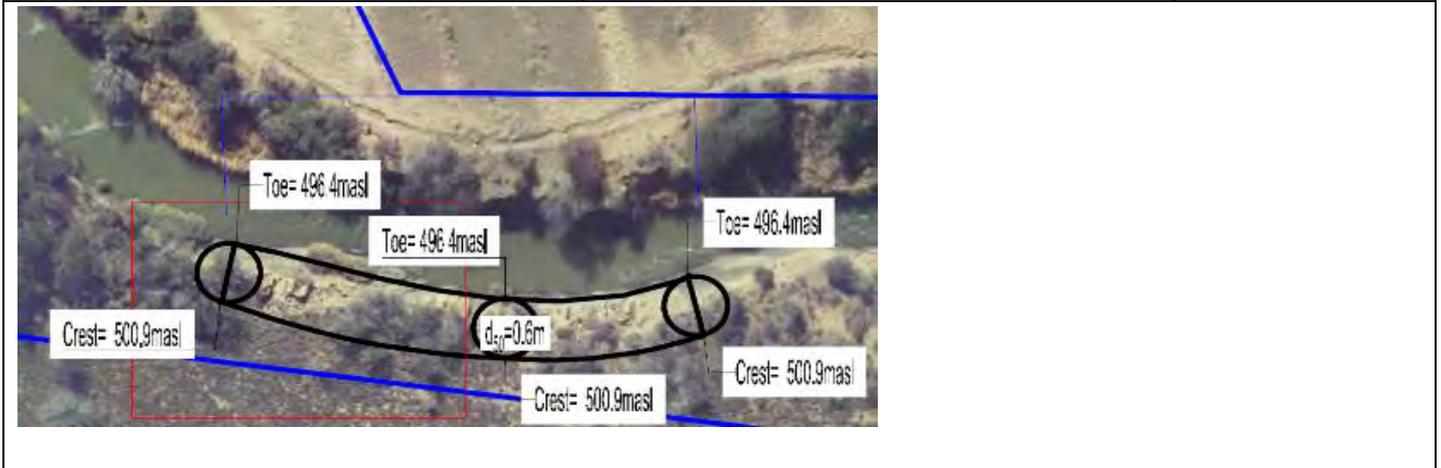

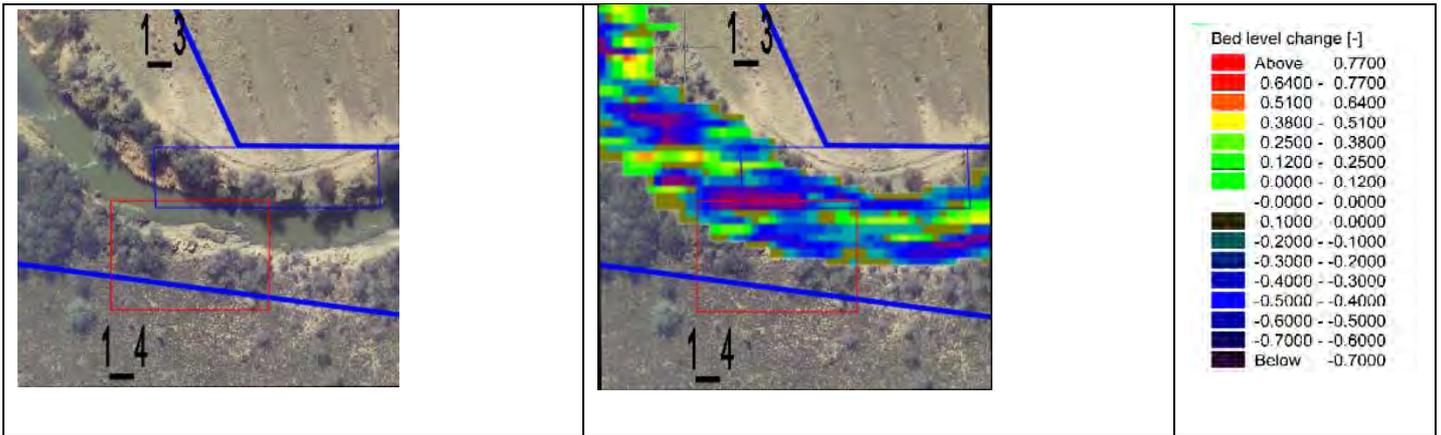

Zone 1_1 This area is within the servitude and has unstable banks encroaching farmland.

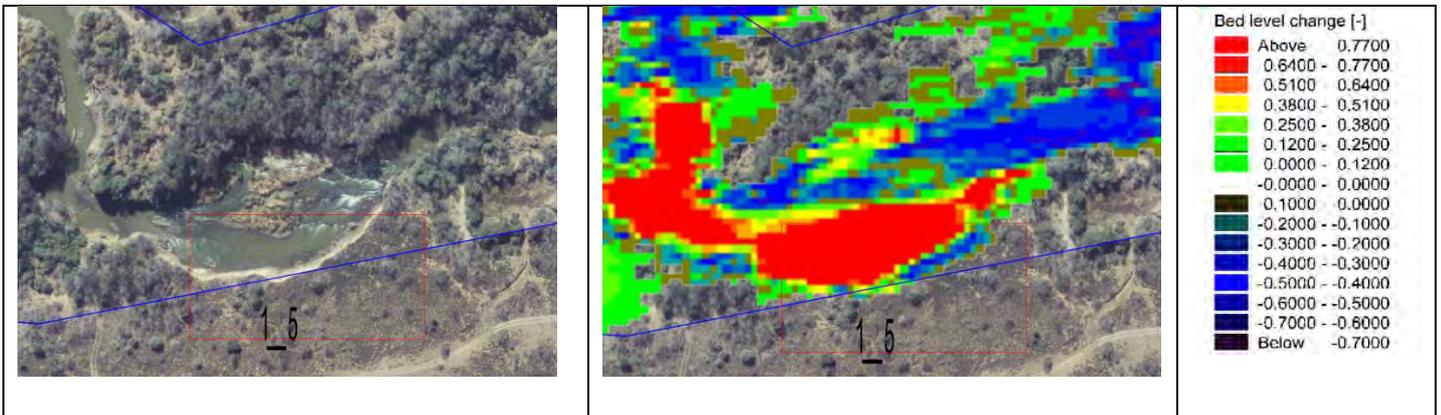

Zone 1_2 This area is within the servitude and has unstable banks. Due to the bedrock at the location, the banks do not need protection and the servitude seems incorrect.

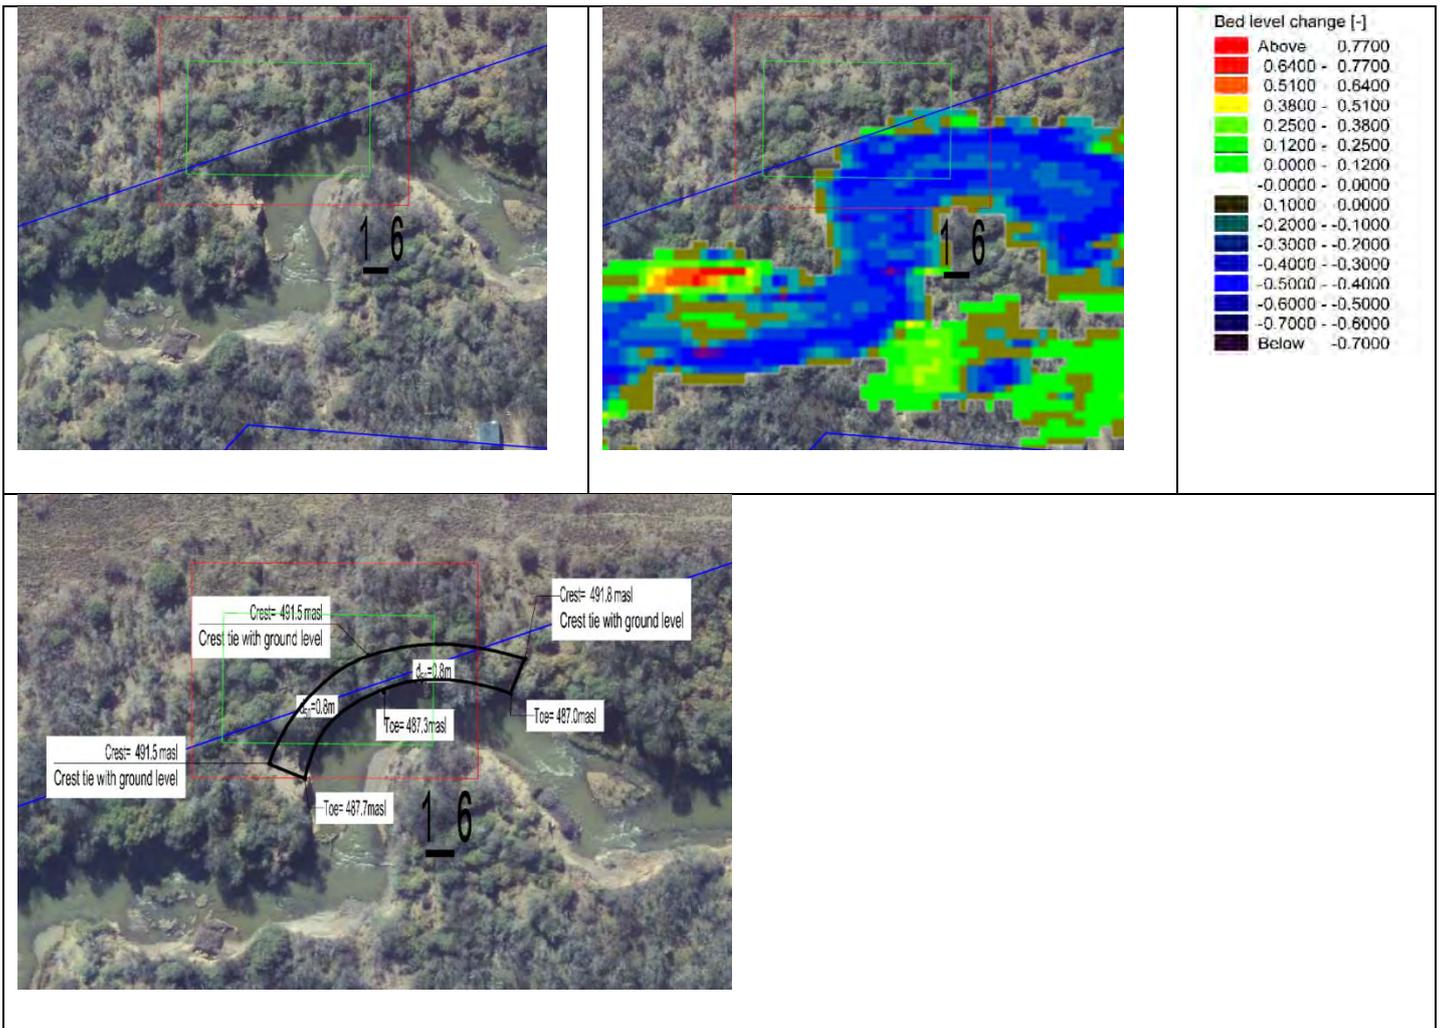

Zone 1_3 and 1_4 This area is within the servitude and protection does not seem necessary.

Zone 1_5 This area is within the servitude and has unstable banks encroaching a road.

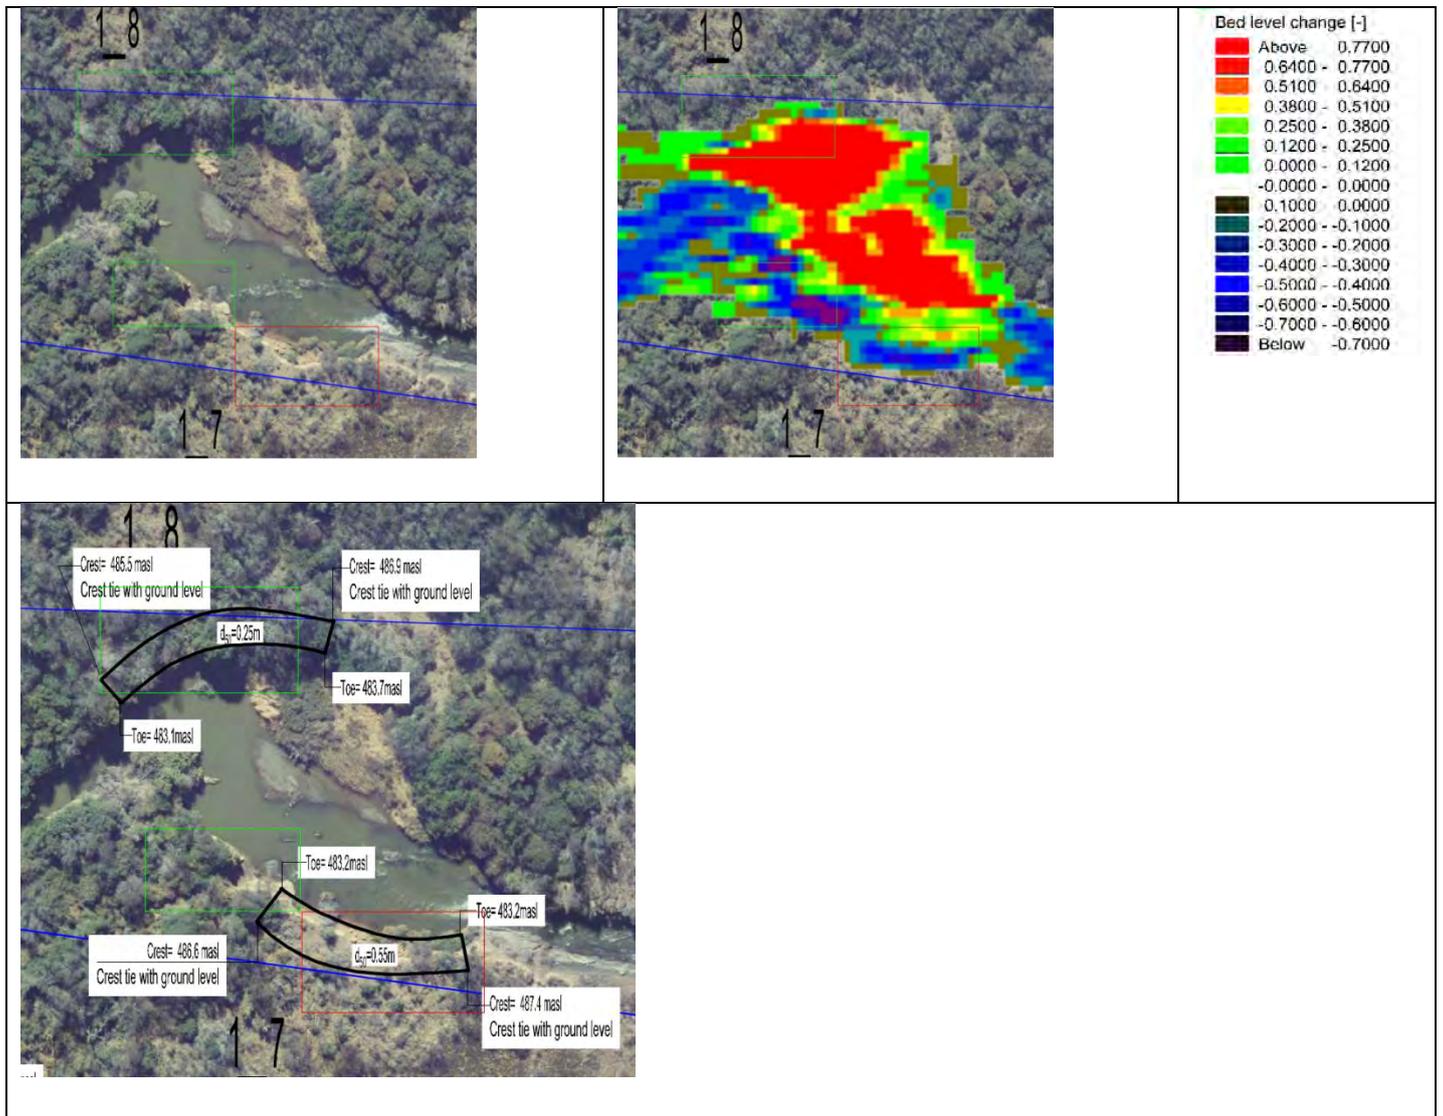

Zone 1_6 This area has unstable banks crossing the servitude.

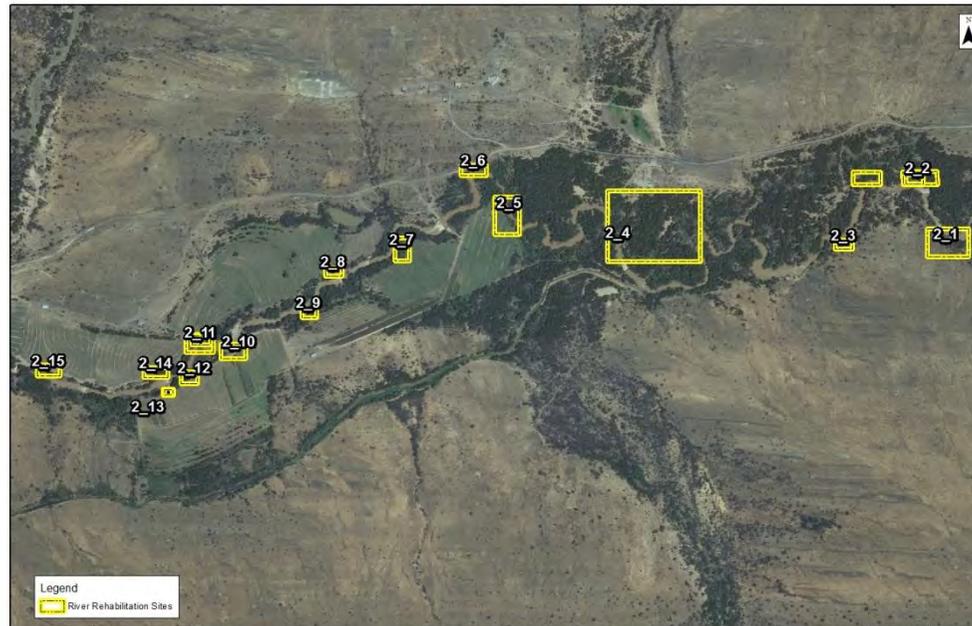

Zone 1_7 This area is within the servitude but encroaching the servitude.

Zone 1_8 This area has banks partially crossing the servitude.

Zone 2

Legend

SKOENMAKERS RIVER REHABILITATION ASSESSMENT
 ZONE 2

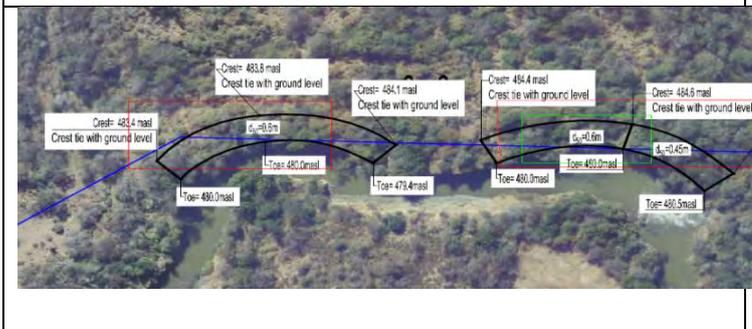

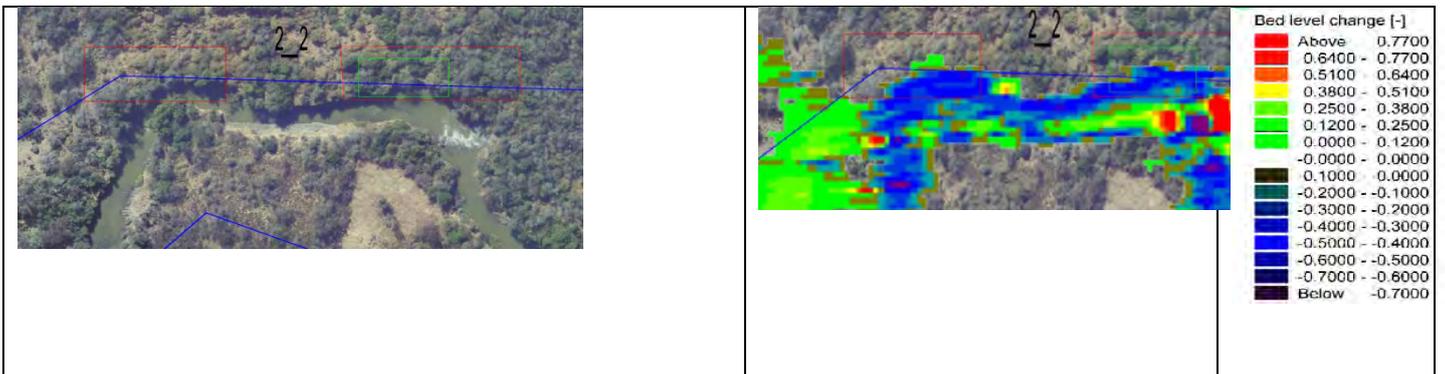

Date:	08/02/2016	Compiled by:	PAUJ
Project No.:	472748	Scale:	1:7,500

Path: J:\472748_Skoenmakers Rehab\0 GIS\GISPRO\JMXDIMaps for BAR and WULA\472748_20150208_River_Rehab_Section_Layout_A3.mxd

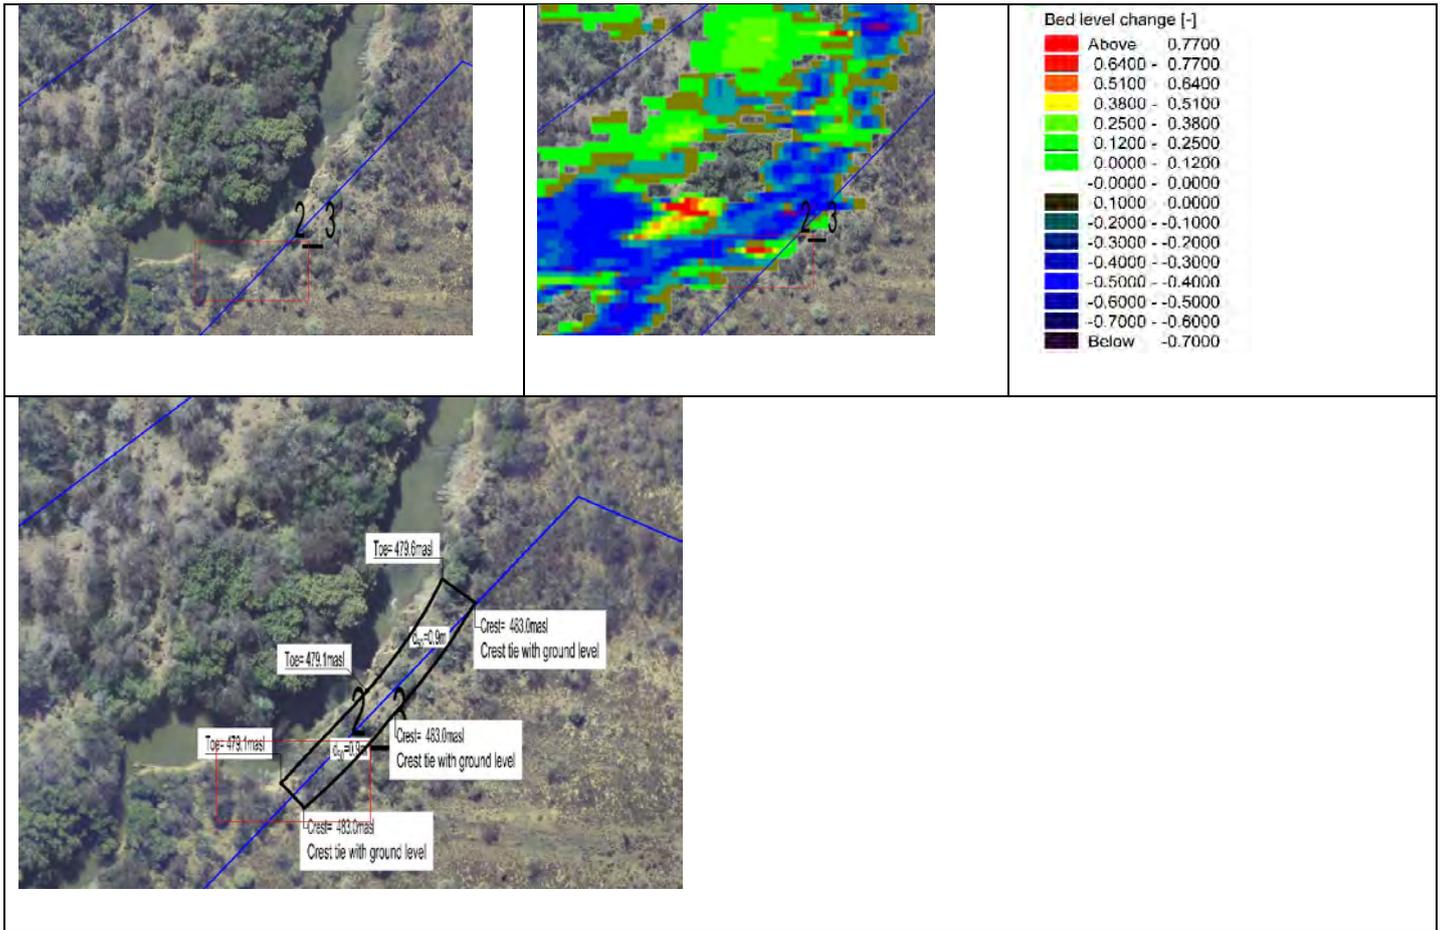

Zone 2_1 The banks are encroaching the servitude but protection does not seem necessary.

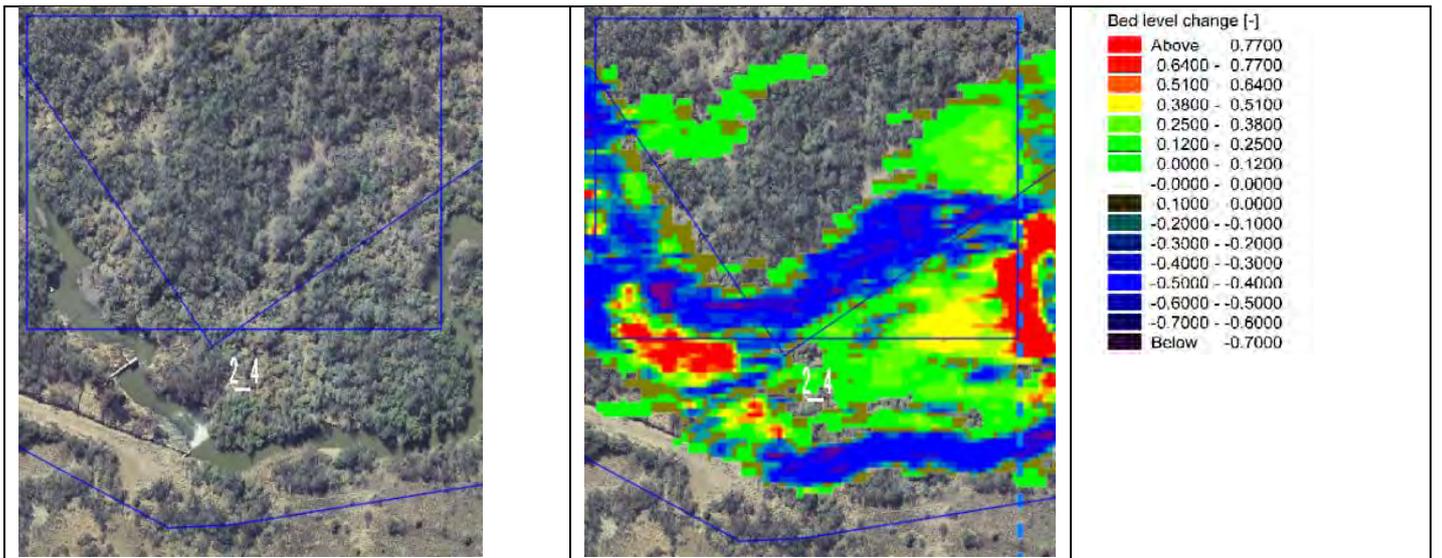

Zone 2_2 This area has unstable banks crossing the servitude.

Zone 2_3 This area has unstable banks are encroaching on the servitude.

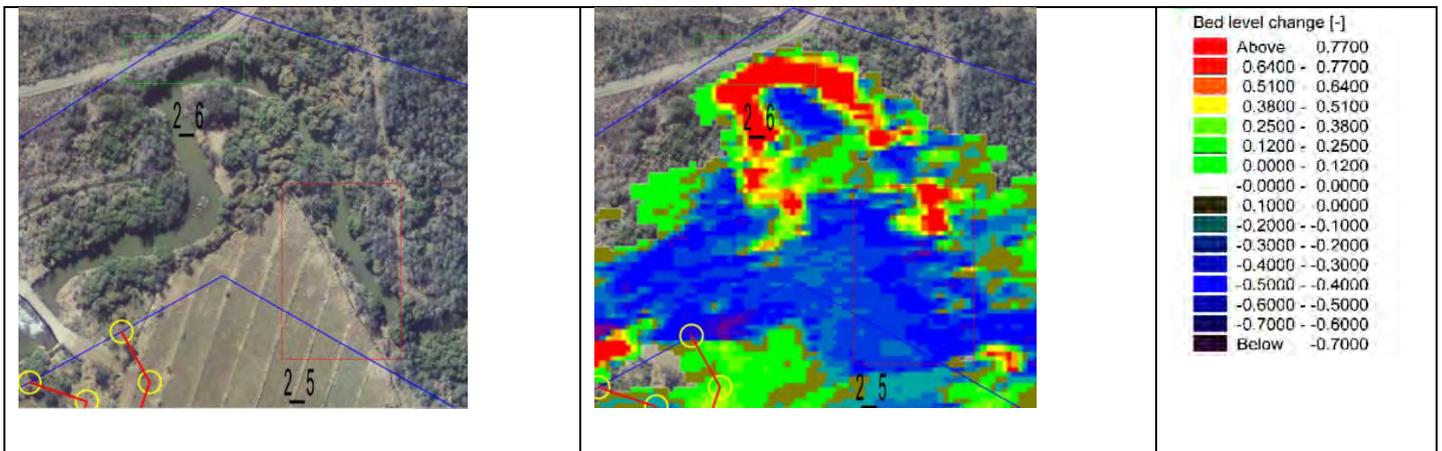

Zone 2_4 This area crosses the servitude but due the wide flood plain flow, protection is not viable

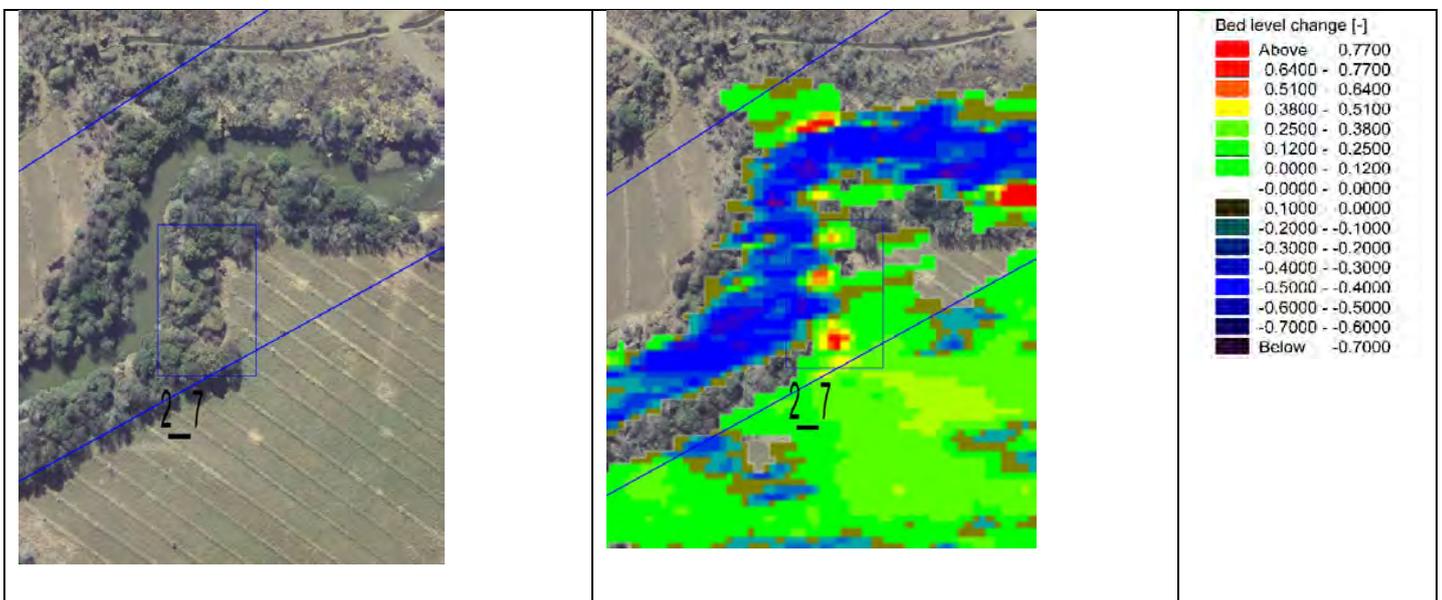

Zone 2_5 This area is within the servitude but encroaches farmland that is within the servitude.

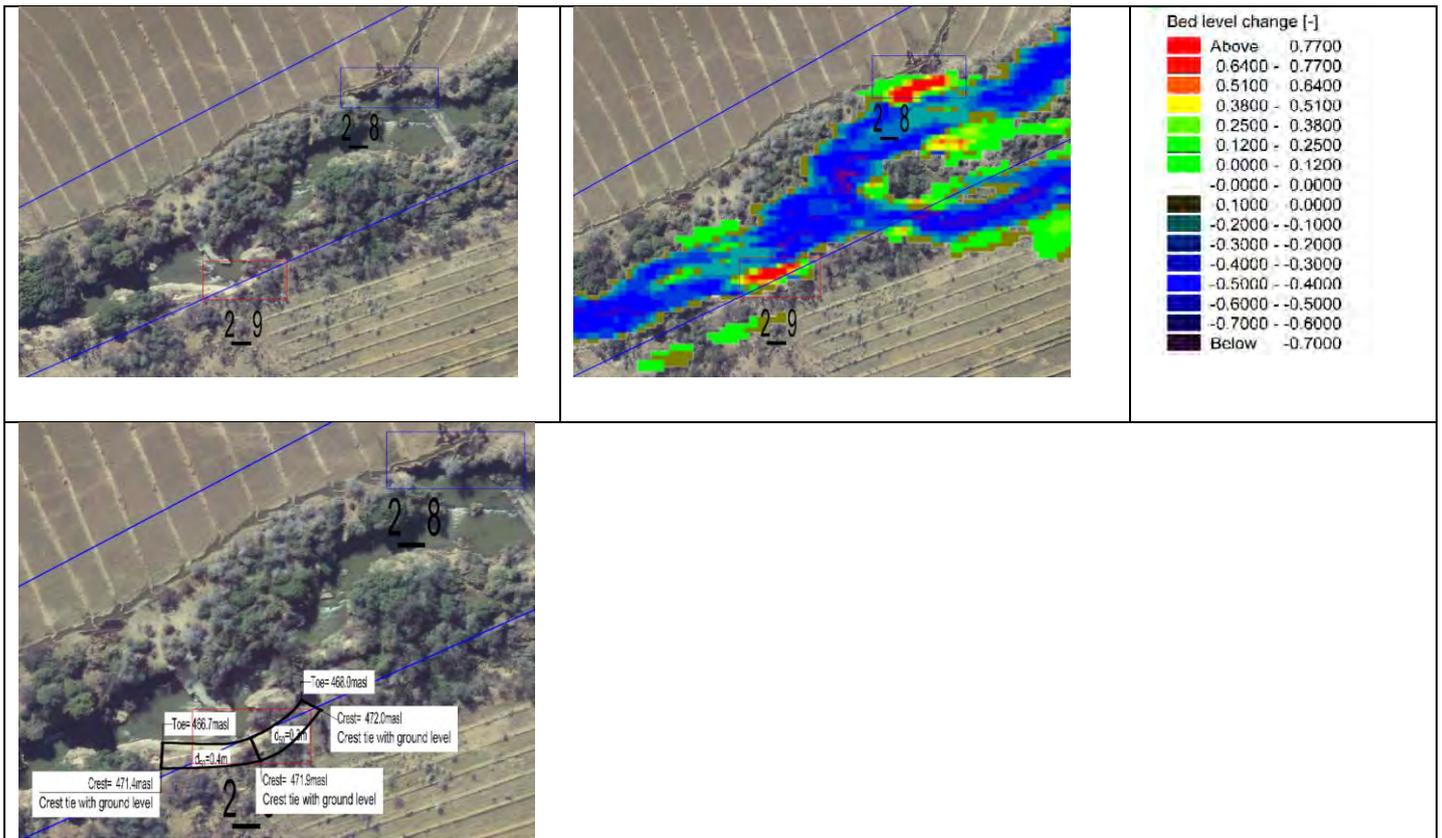

Zone 2_6 This area is within the servitude but has unstable banks that encroach a road.

Zone 2_7 This area is within the servitude but encroaches farmland that is within the servitude. Protection does not seem necessary.

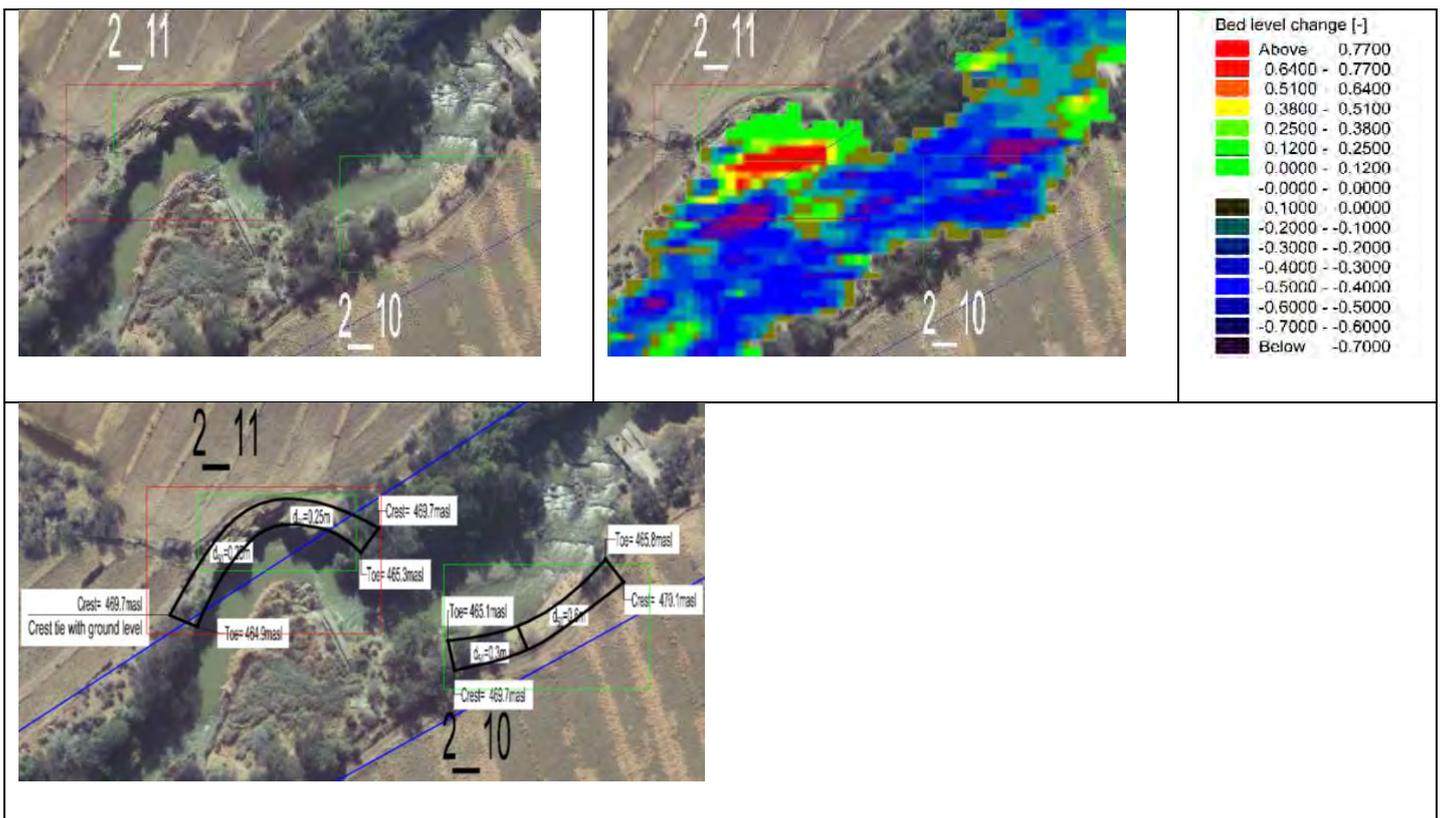

Zone 2_8 and 2_9 The banks are encroaching the servitude and farmland

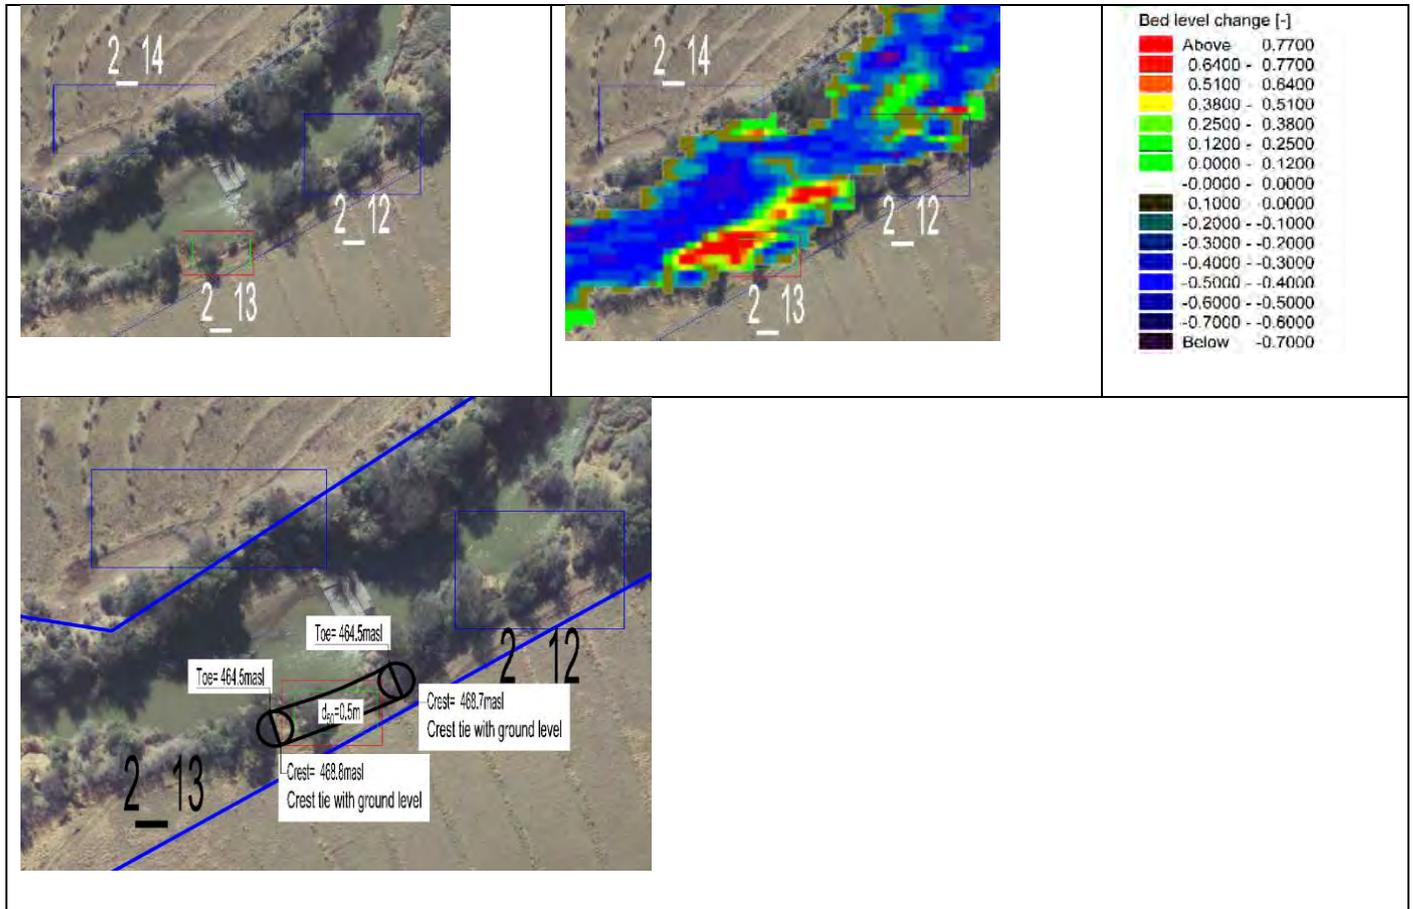

Zone 2_10 The banks are encroaching the road but within the servitude.

Zone 2_11 The unstable banks are crossing the servitude and encroaching onto farmland.

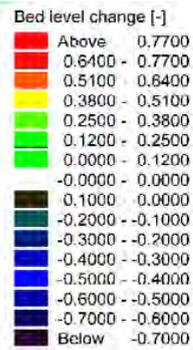

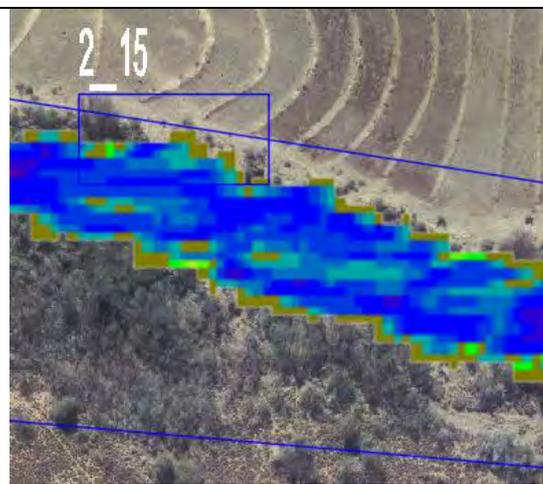

Zone 2_12 and 2_14 This area is within the servitude but encroaches farmland. An old weir diverts water inducing erosion. Protection does not seem necessary.

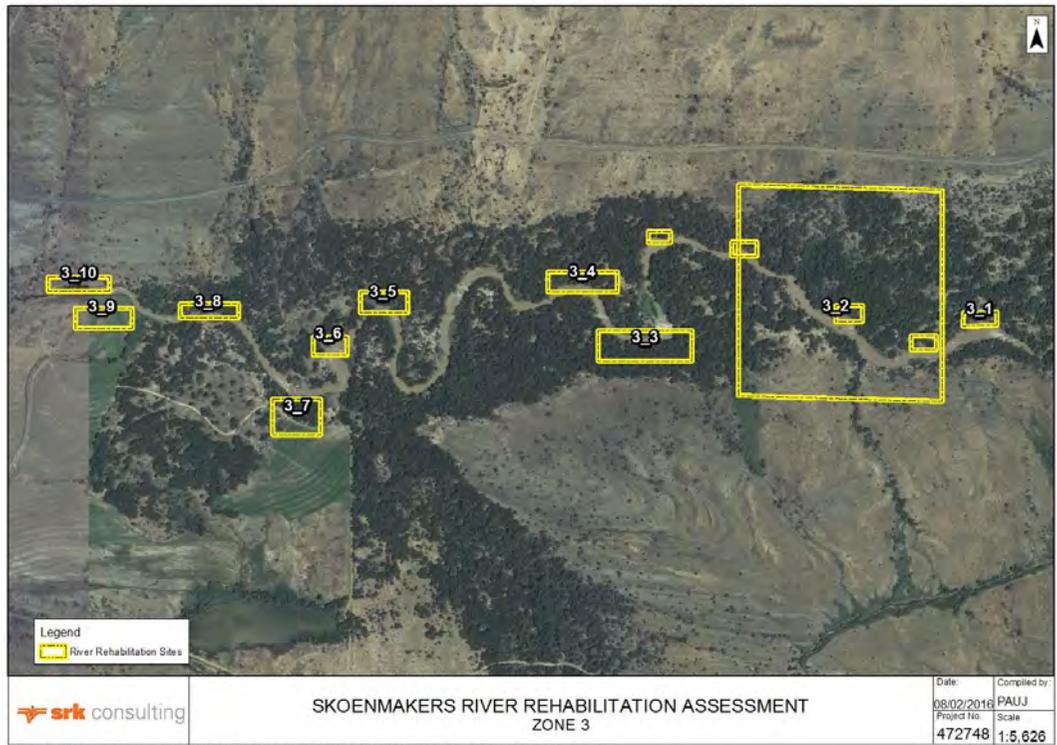

Zone 2_13 The unstable banks are encroaching the servitude and farmland.

Zone 2_15 The unstable banks are encroaching the servitude and farmland. Protection was deemed not necessary

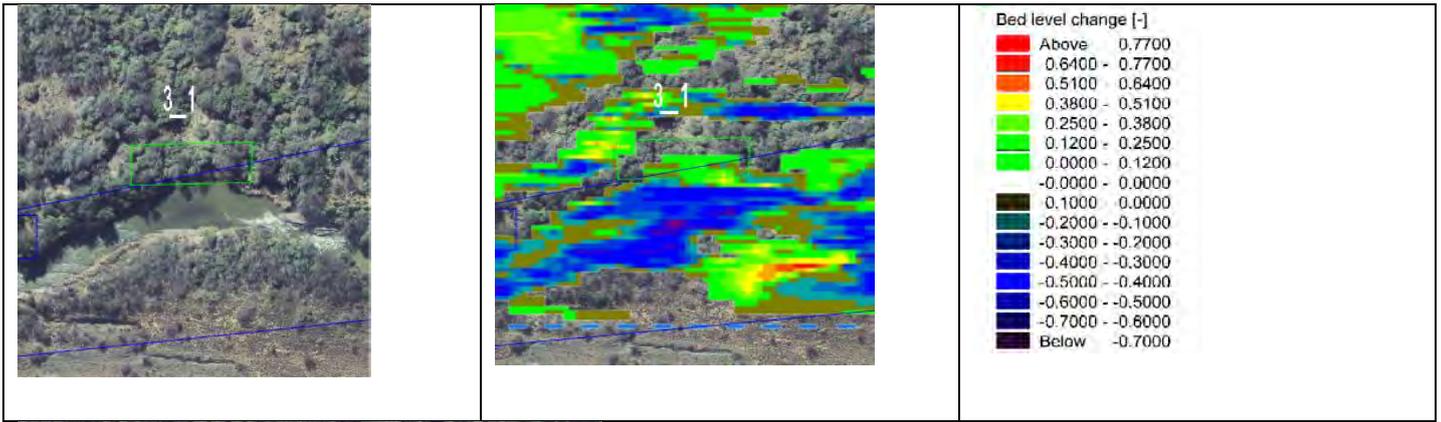

Zone 3

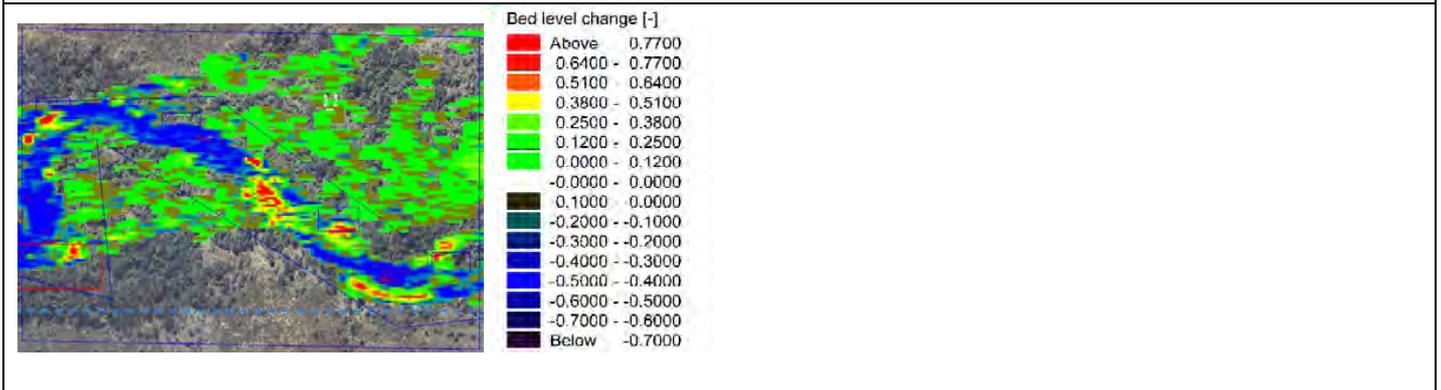

Path: J:\472748_Skoenmakers Rehab\9 GIS\GISPROJ\JM XDM\Mapstor BAR and WUL\1472748_20160208_River_Rehab_Section_Layout_A3.mxd

Zone 3_1 The zone has unstable banks crossing the servitude.

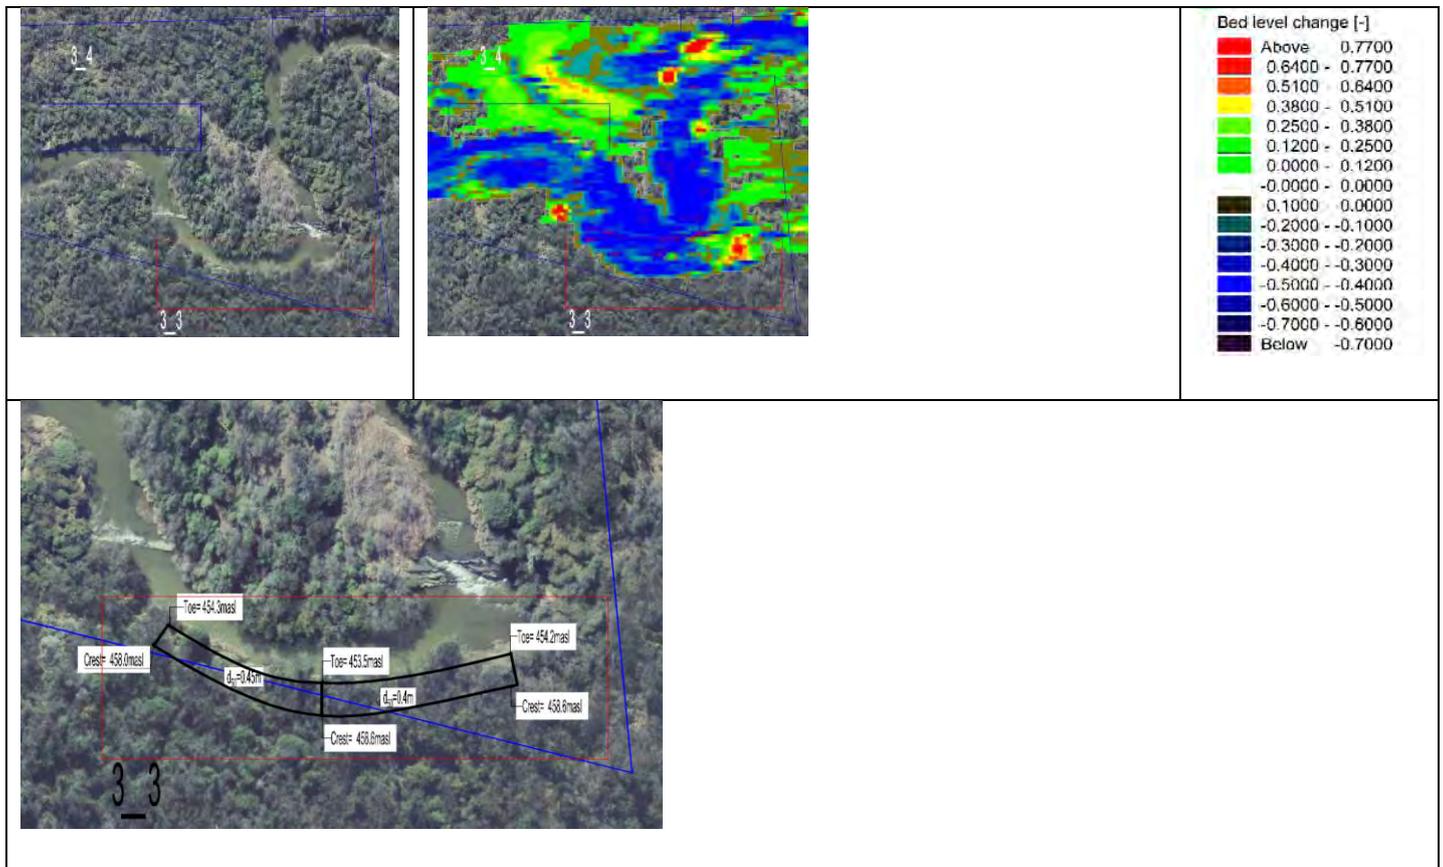

Zone 3_2 Flow in this area is in a wide floodplain crossing the servitude and protection is not viable.

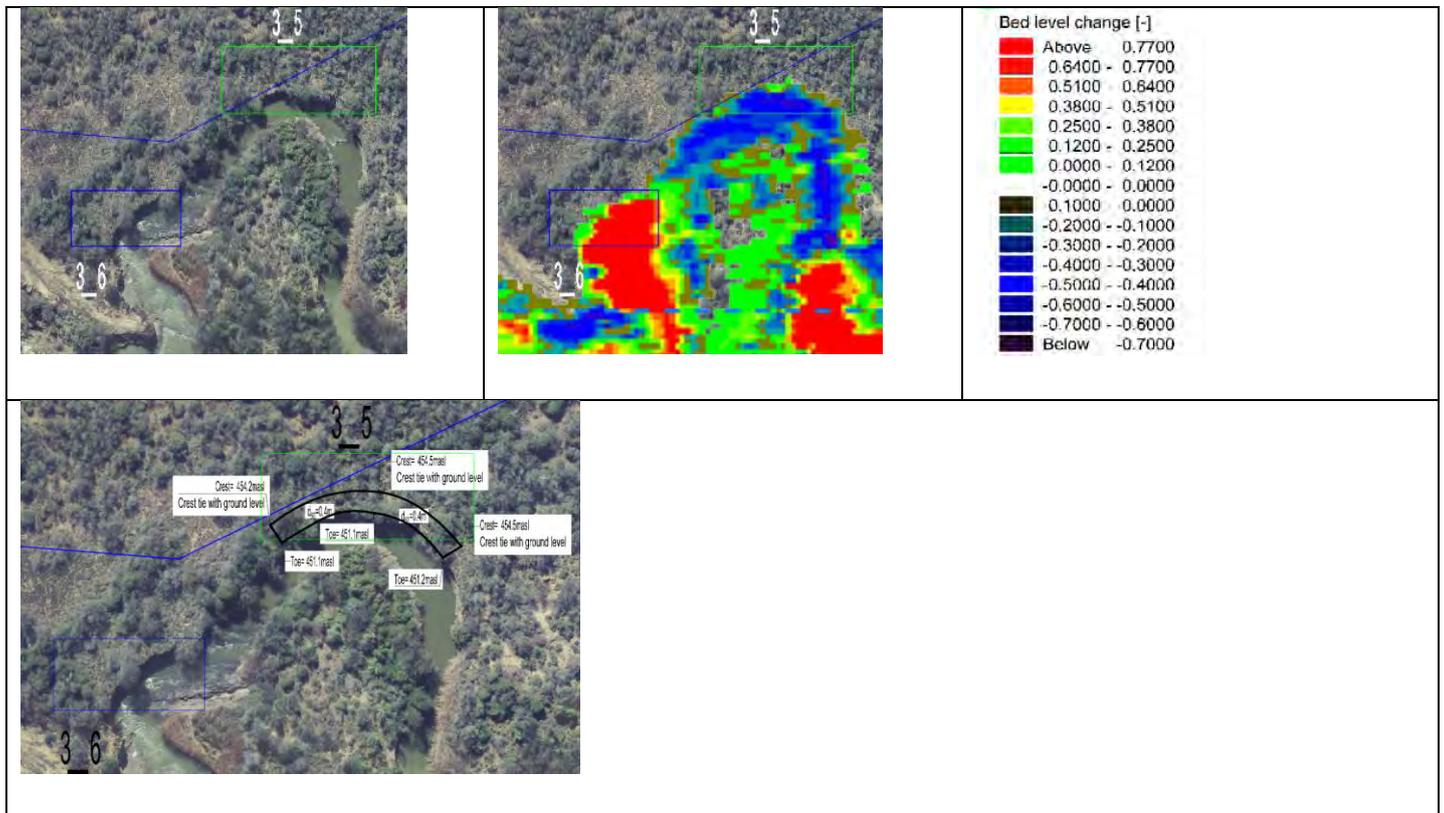

Zone 3_3 The zone has unstable banks crossing the servitude

Zone 3_4 Flow in this area is in a wide floodplain and protection is not necessary.

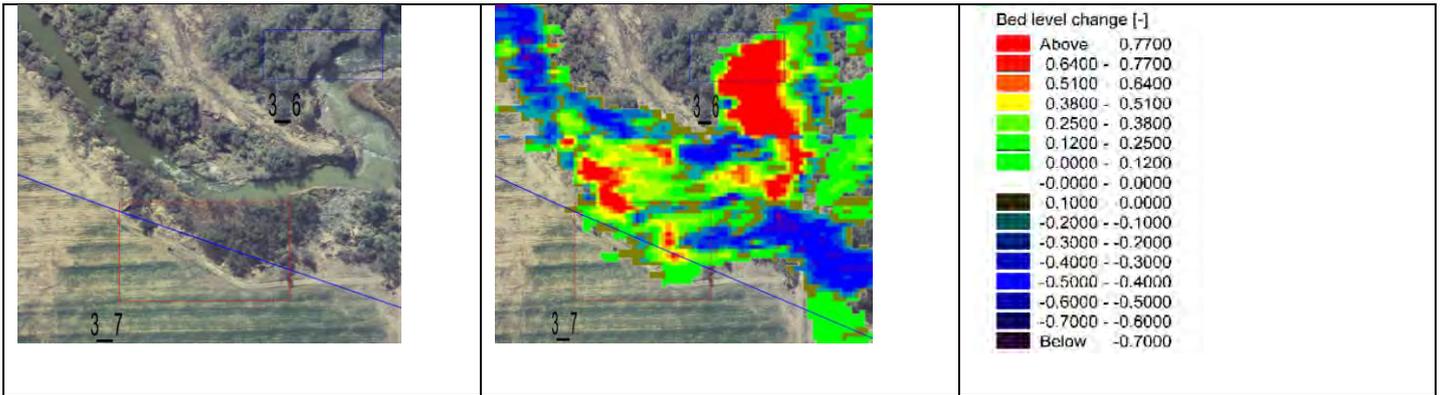

Zone 3_5 The zone has unstable banks crossing the servitude.

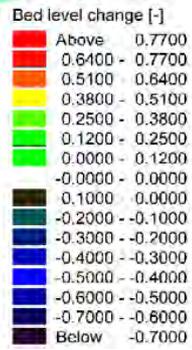

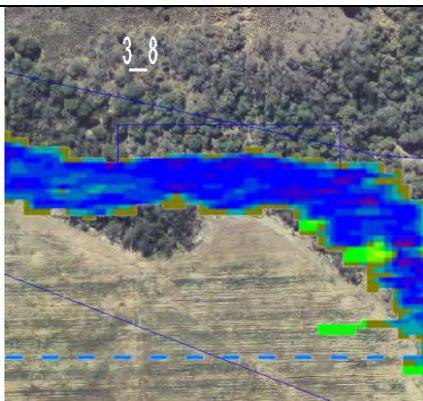

Zone 3_6 The zone has unstable banks but within the servitude. Protection was found not necessary.

Zone 3_7 The zone has unstable banks encroaching the servitude and road.

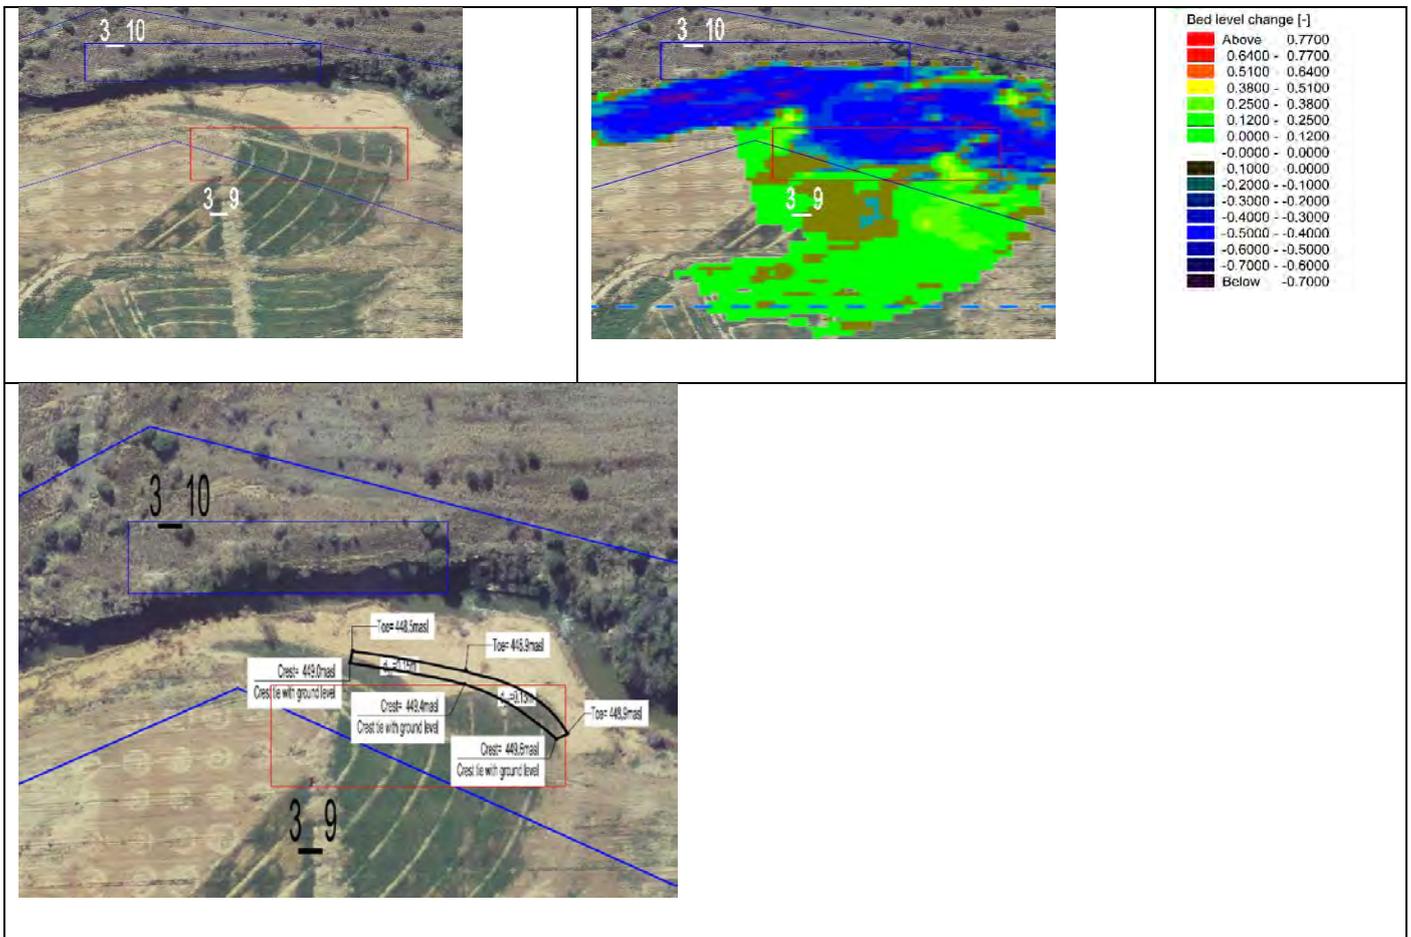

Zone 3_8 The zone has unstable banks within the servitude. Protection was found not necessary.

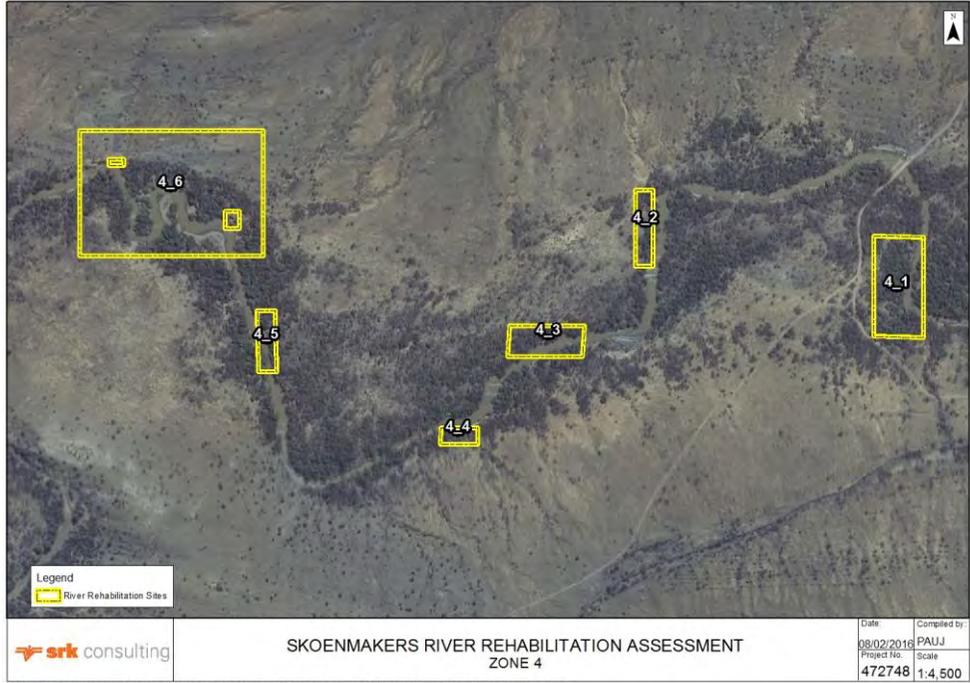

Zone 3_9 The zone has unstable banks encroaching the servitude and farmland.

Zone 3_10 The zone has unstable banks within the servitude. Protection was found not necessary.

Zone 4

SKOENMAKERS RIVER REHABILITATION ASSESSMENT
 ZONE 4

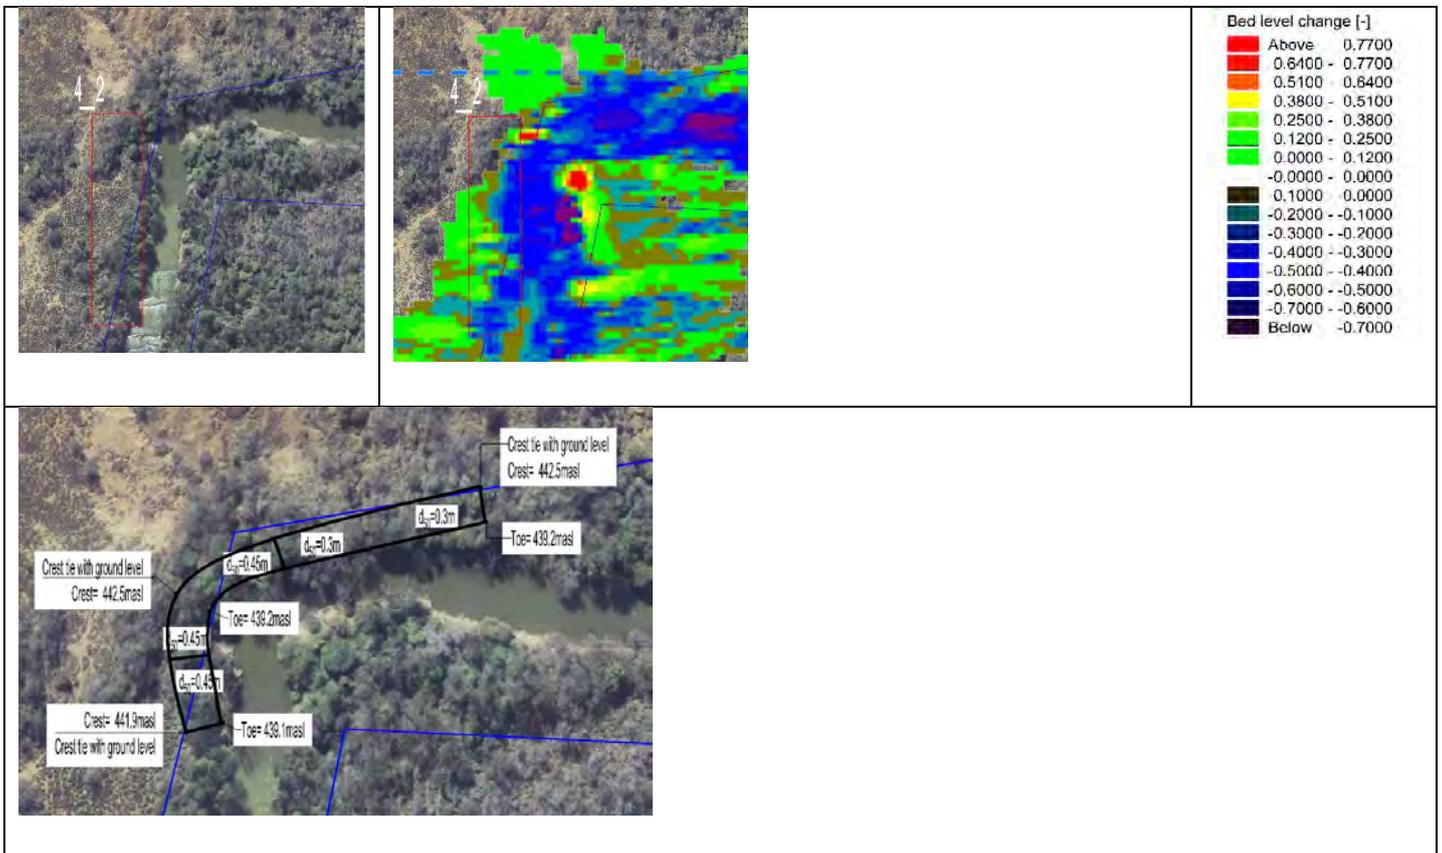

Date:	Compiled by:
08/02/2018	PAUJ
Project No:	Scale
472748	1:4 500

Path: J:\472748_Skoenmakers Rehab\9 GIS\GISPROJ\XID\Maps for BAR and WULA\472748_20160206_River_Rehab_Section_Layout_A3.mxd

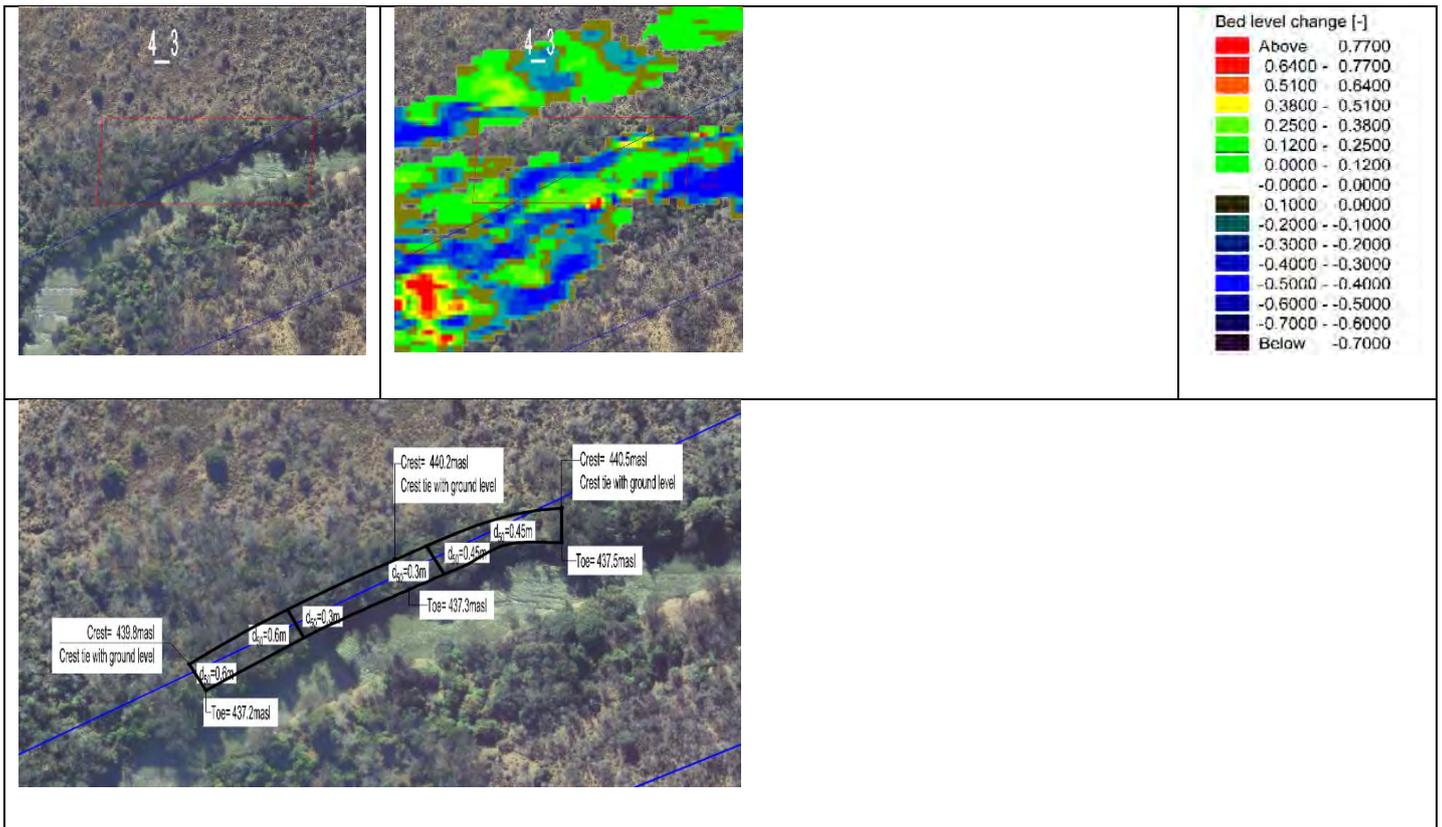

Zone 4_1 The zone has unstable banks crossing the servitude and encroaching the road.

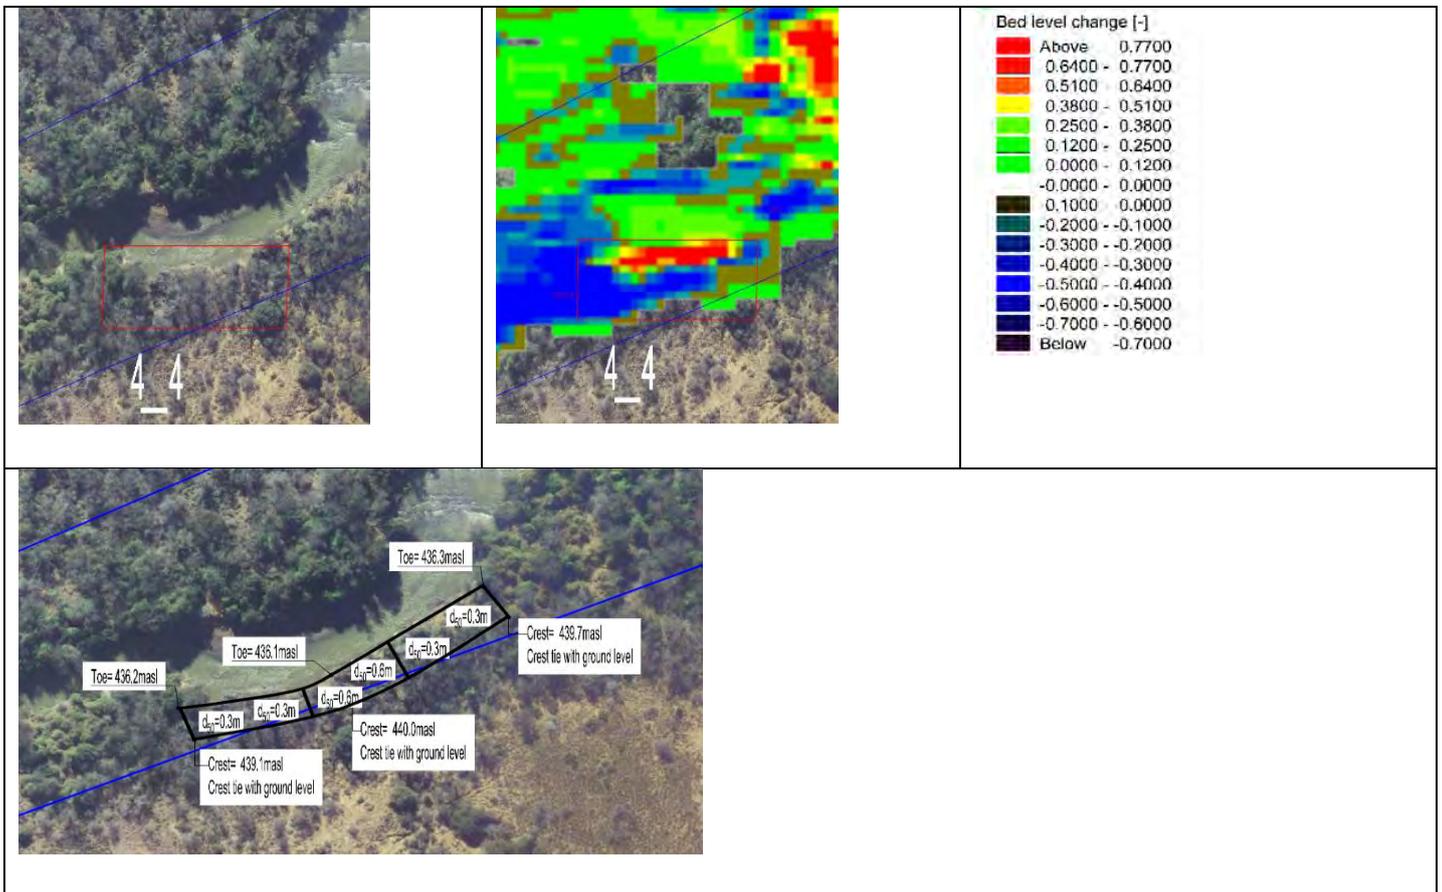

Zone 4_2 The zone has unstable banks crossing the servitude and encroaching the road.

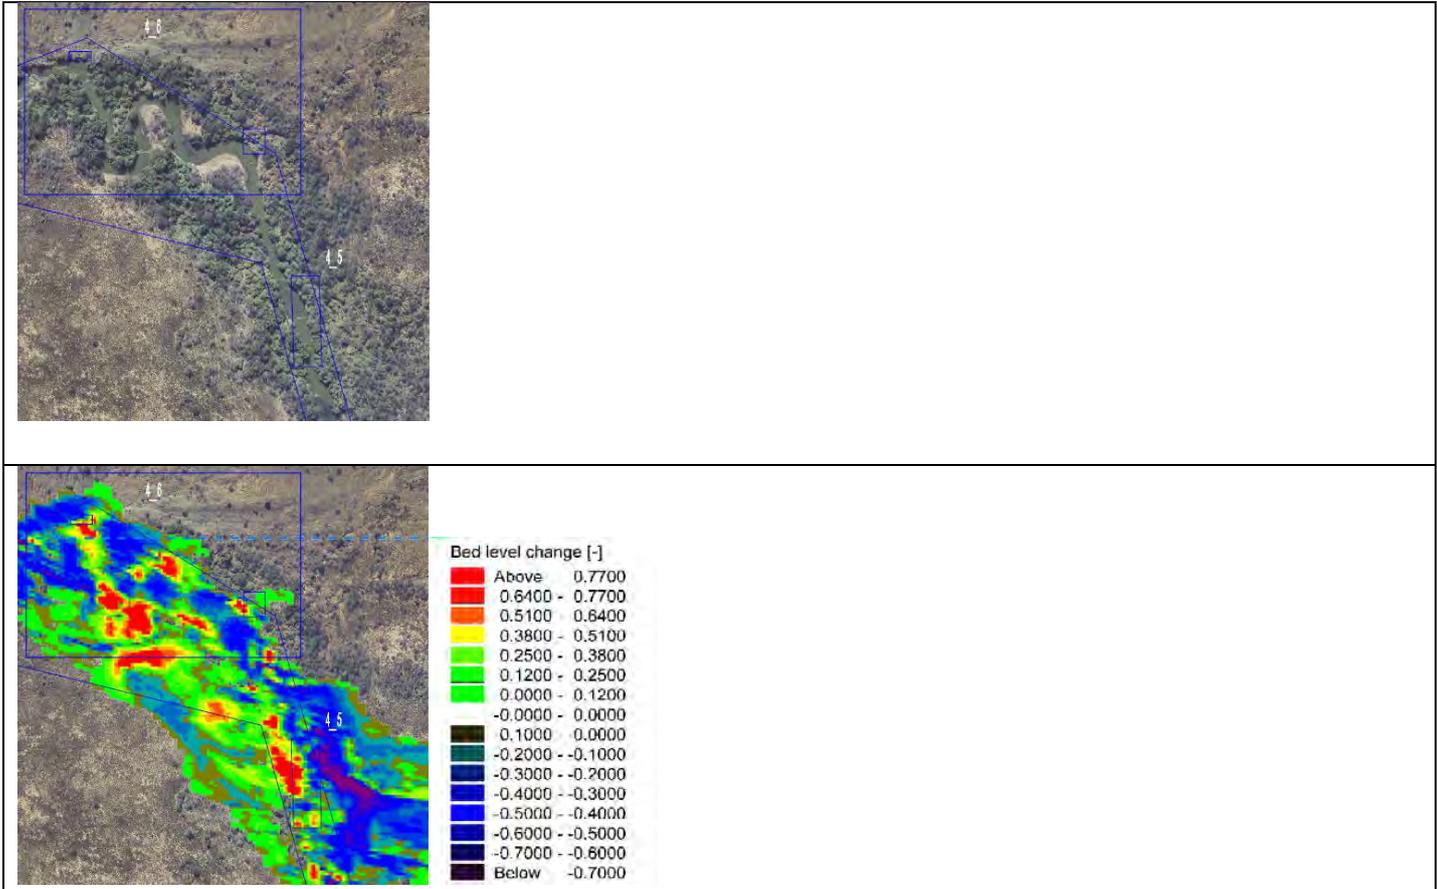

Zone 4_3 The zone has unstable banks crossing the servitude.

Zone 4_4 The zone has unstable banks crossing the servitude and encroaching the road.

Zone 4_5 and 4_6 Flow in this area is on a wide floodplain and erosion induced by a tributary thus protection is deemed not necessary.

Zone 5

Legend
 River Rehabilitation Sites

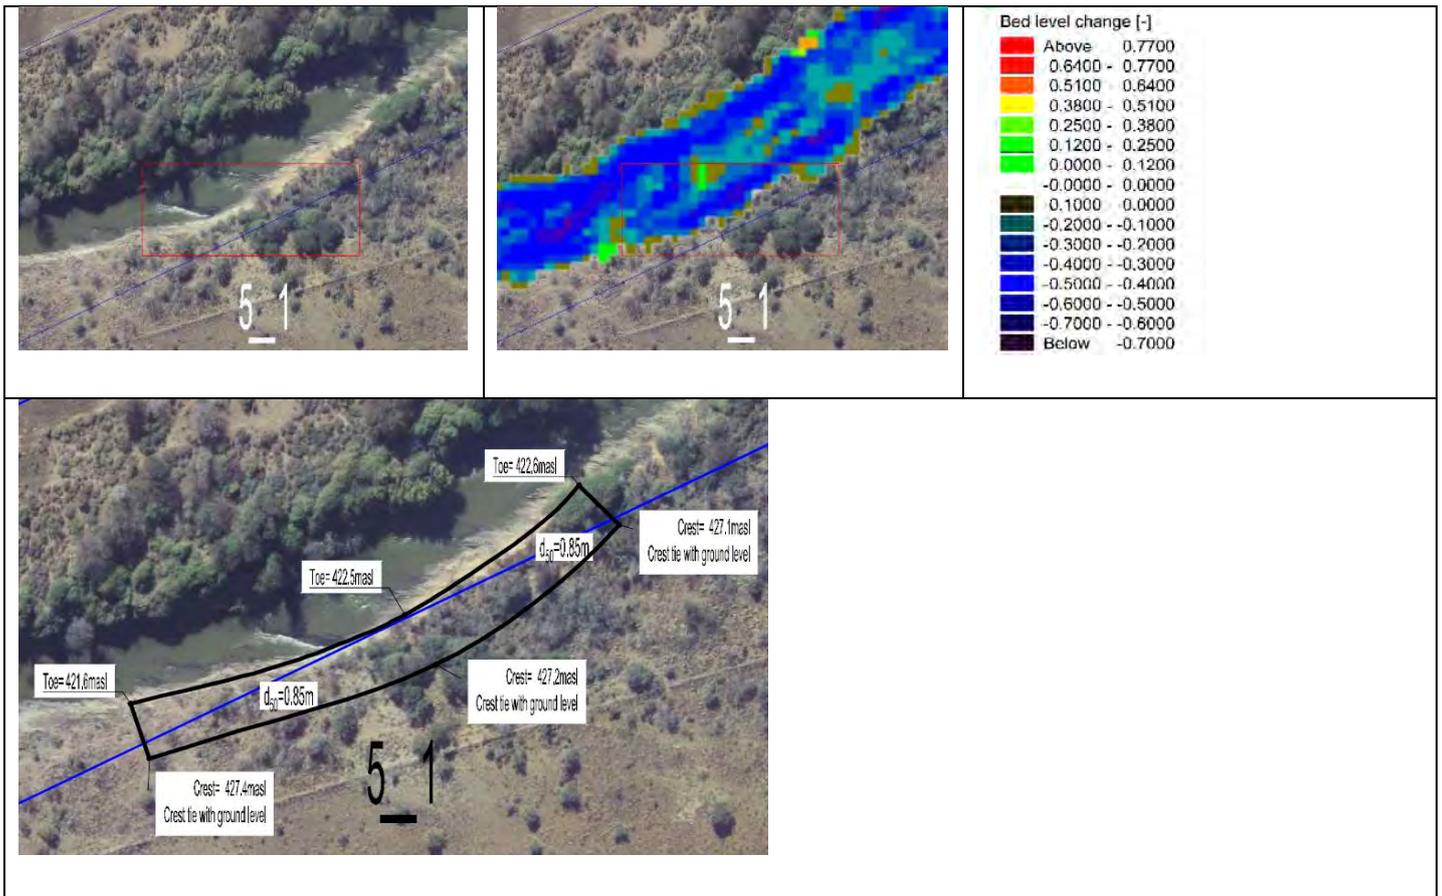

SKOENMAKERS RIVER REHABILITATION ASSESSMENT
 ZONE 5

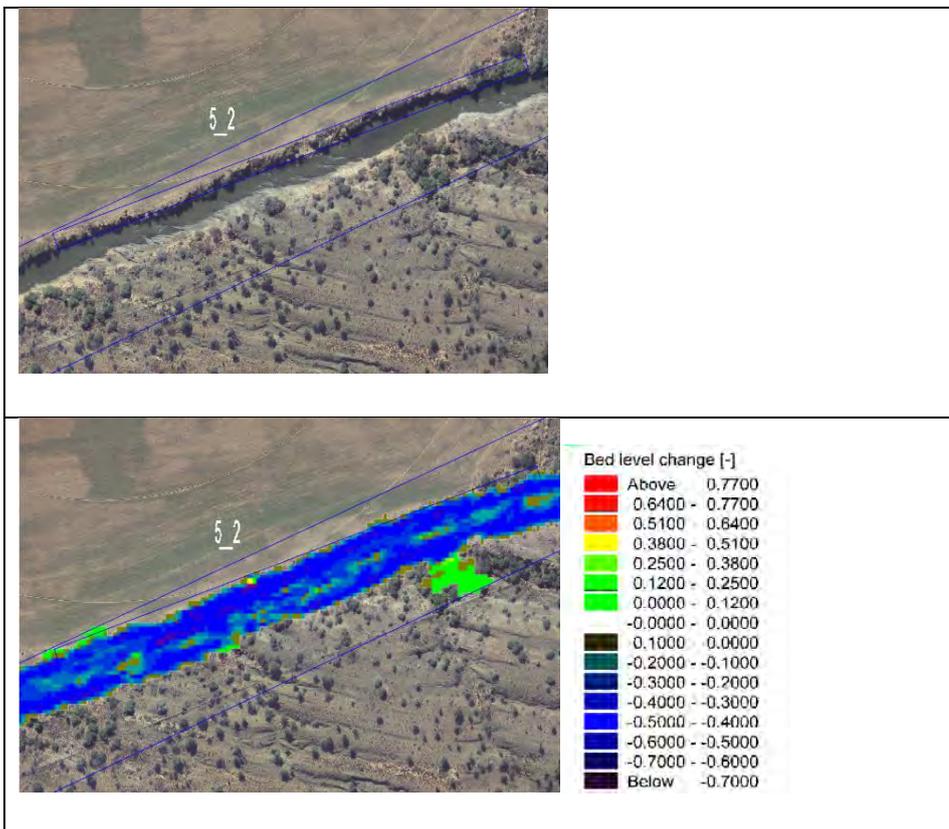

Date:	08/02/2016	Compiled by:	PAUJ
Project No:	472748	Scale:	1:7,345

Path: J:\472748_Skoenmakers Rehab\GIS\GISPROJ\Map\Mapfor BAR and WULA\472748_20160208_River_Rehab_Section_Layout_A3.mxd

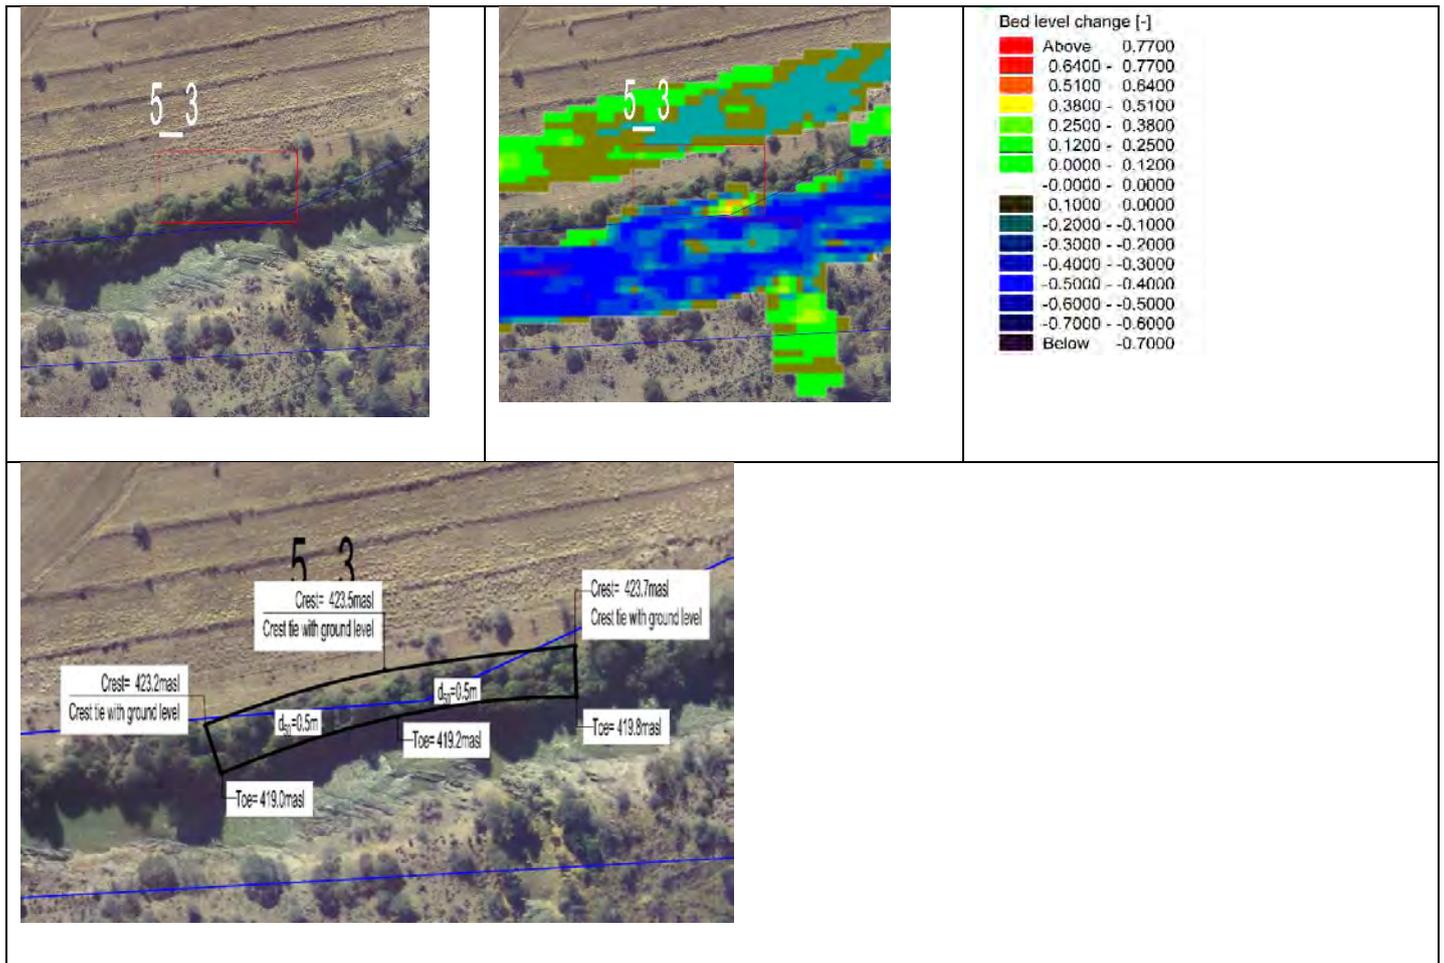

Zone 5_1 The zone has banks encroaching the servitude.

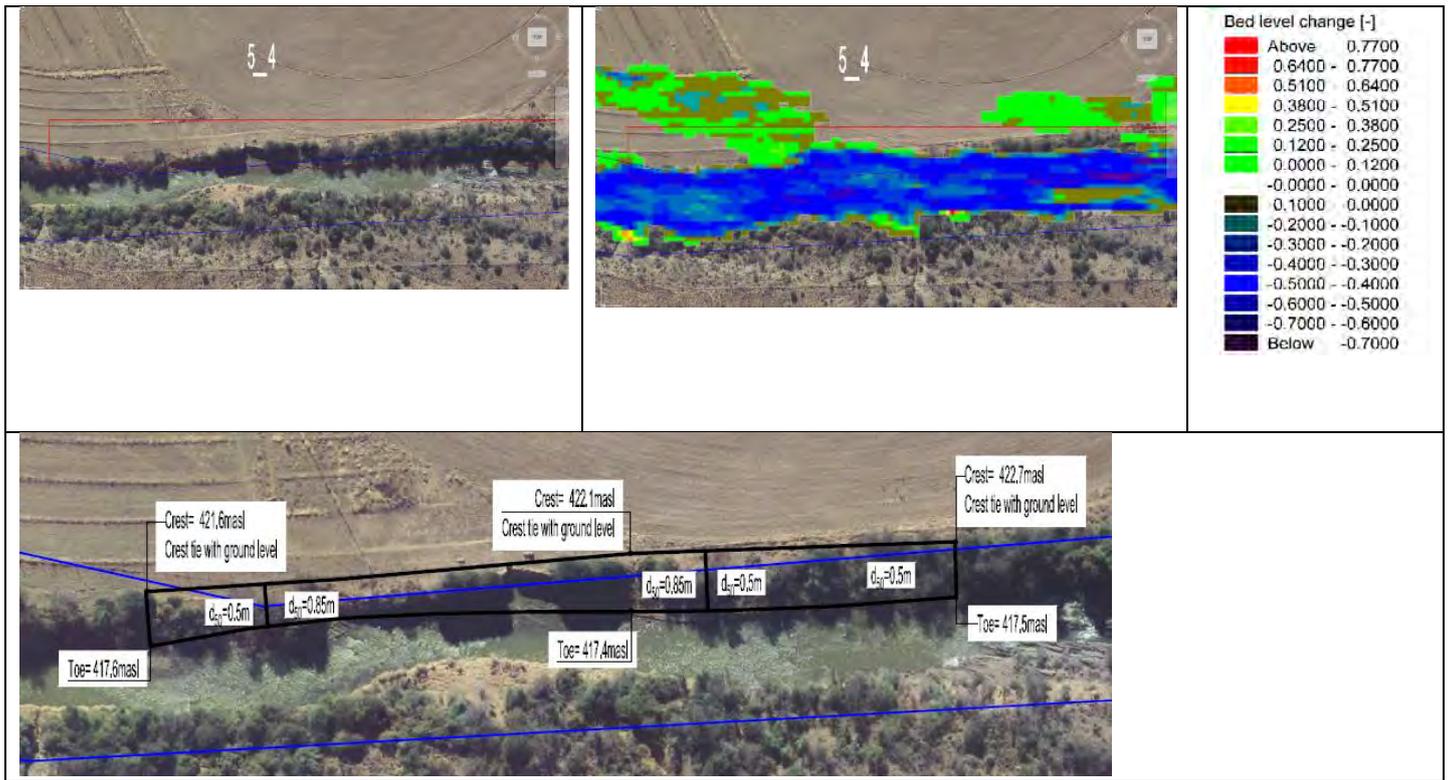

Zone 5_2 The zone has unstable banks encroaching servitude and farmland. Protection in this zone does not seem necessary.

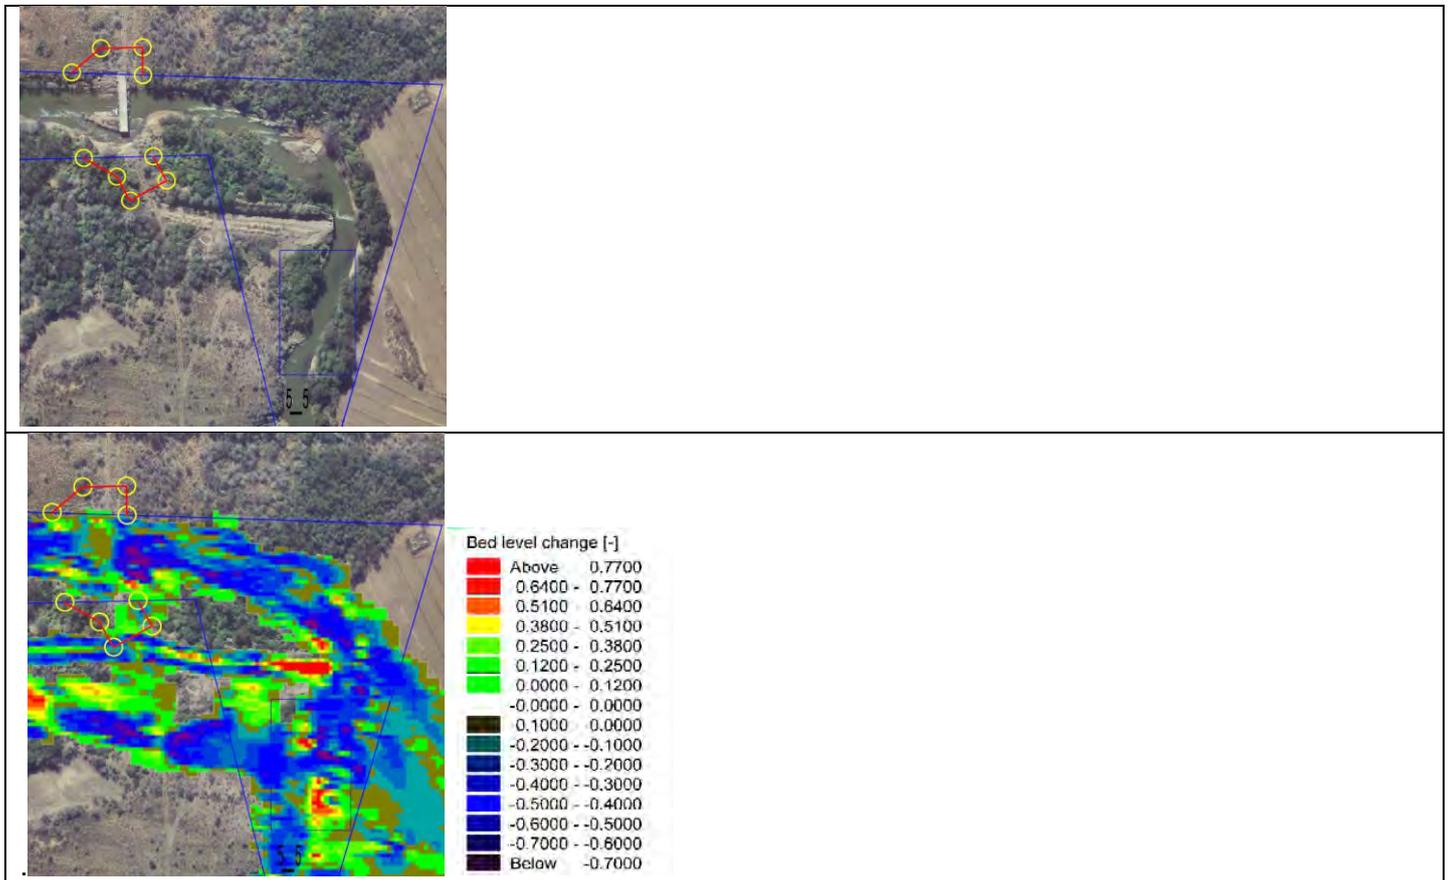

Zone 5_3 The zone has banks crossing the servitude and encroaching farmland.

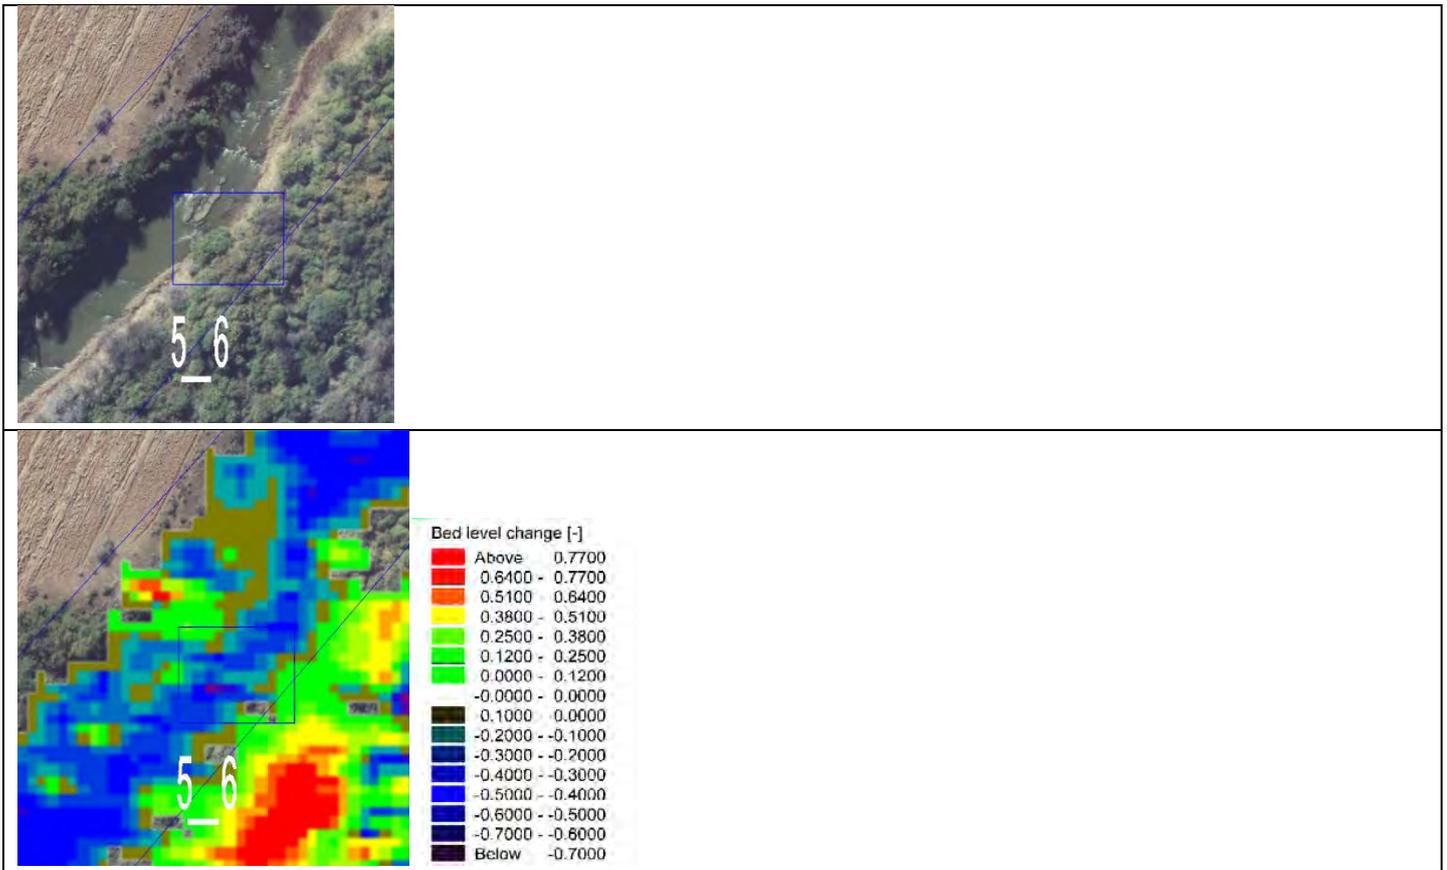

Zone 5_4 The zone has banks crossing the servitude.

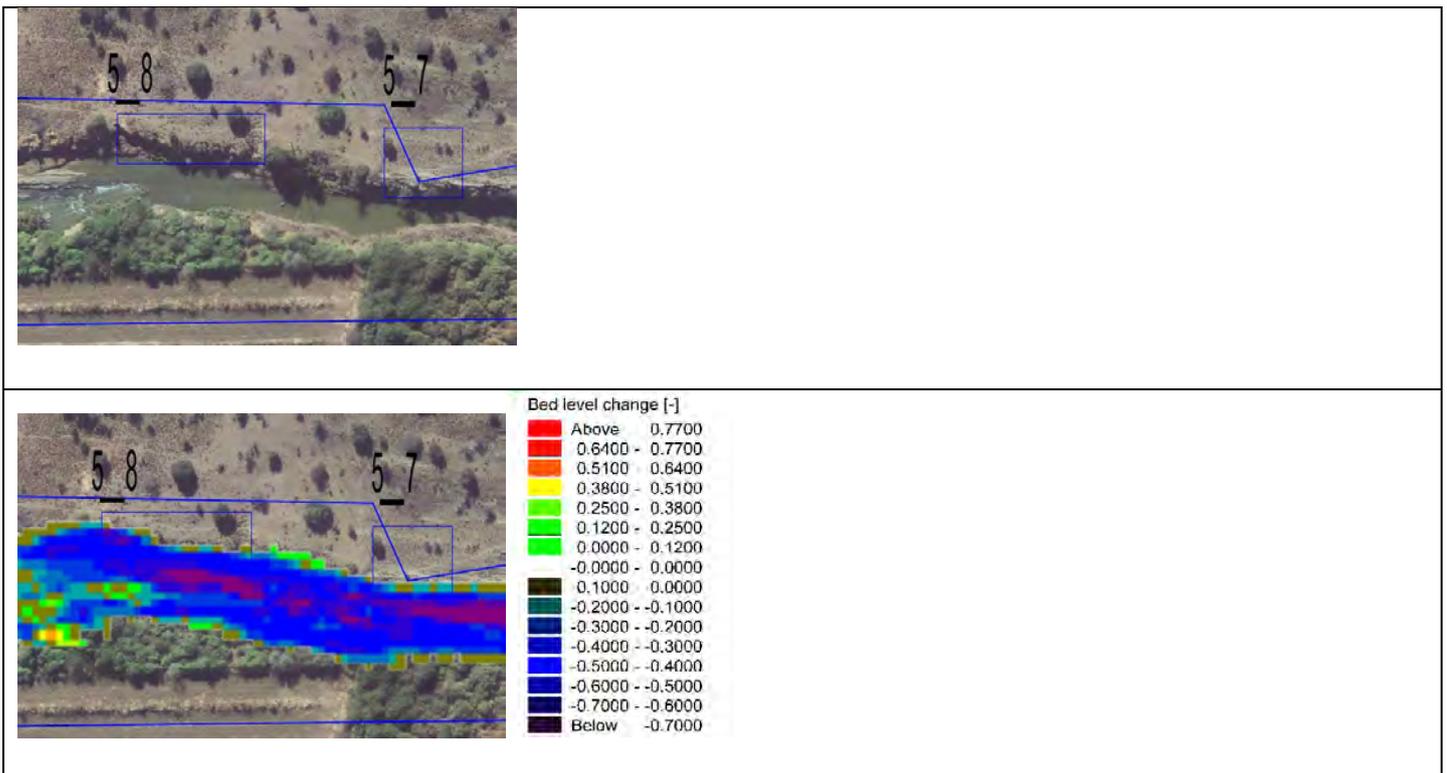

Zone 5_5 The zone has banks within the servitude. Flows are wide in the floodplain and protection not necessary.

Zone 5_6 The zone has banks within the servitude. Flows are wide on the floodplain and protection not necessary.

Zone 5_7 and 5_8 Unstable banks within the servitude. The servitude seems to be incorrect and protection is deemed not necessary.

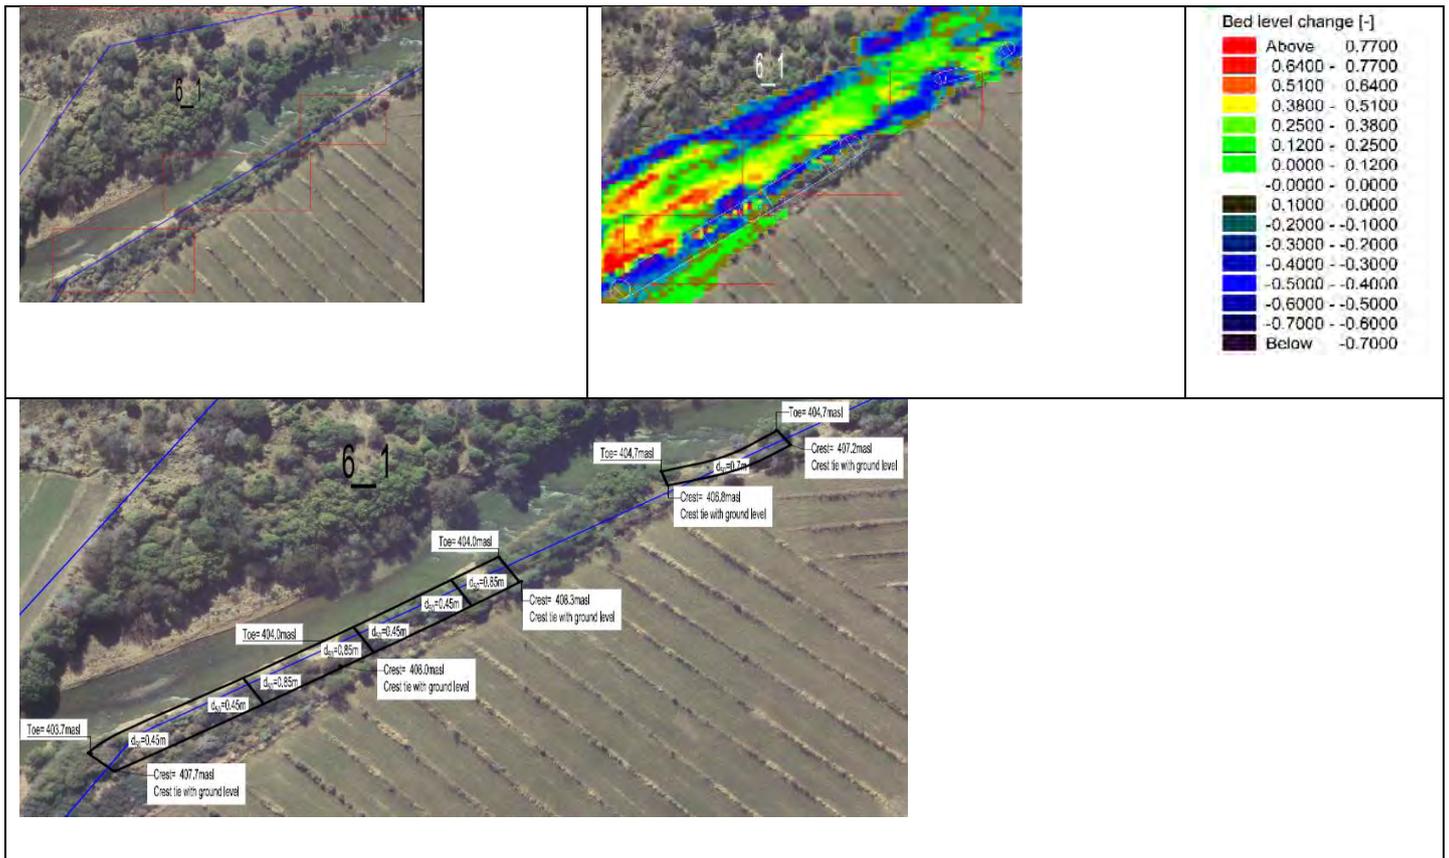

Zone 6

	SKOENMAKERS RIVER REHABILITATION ASSESSMENT ZONE 6		Date	Compiled by
			08/02/2016	PALU
		Project No.	472748	Scale
				1:8,383

Path: J:\472748_Skoenmakers Rehab\9 GIS\GISPROJ\XDM\Maps for BAR and WULA\472748_20160208_River_Rehab_Section_Layout_A.3.mxd

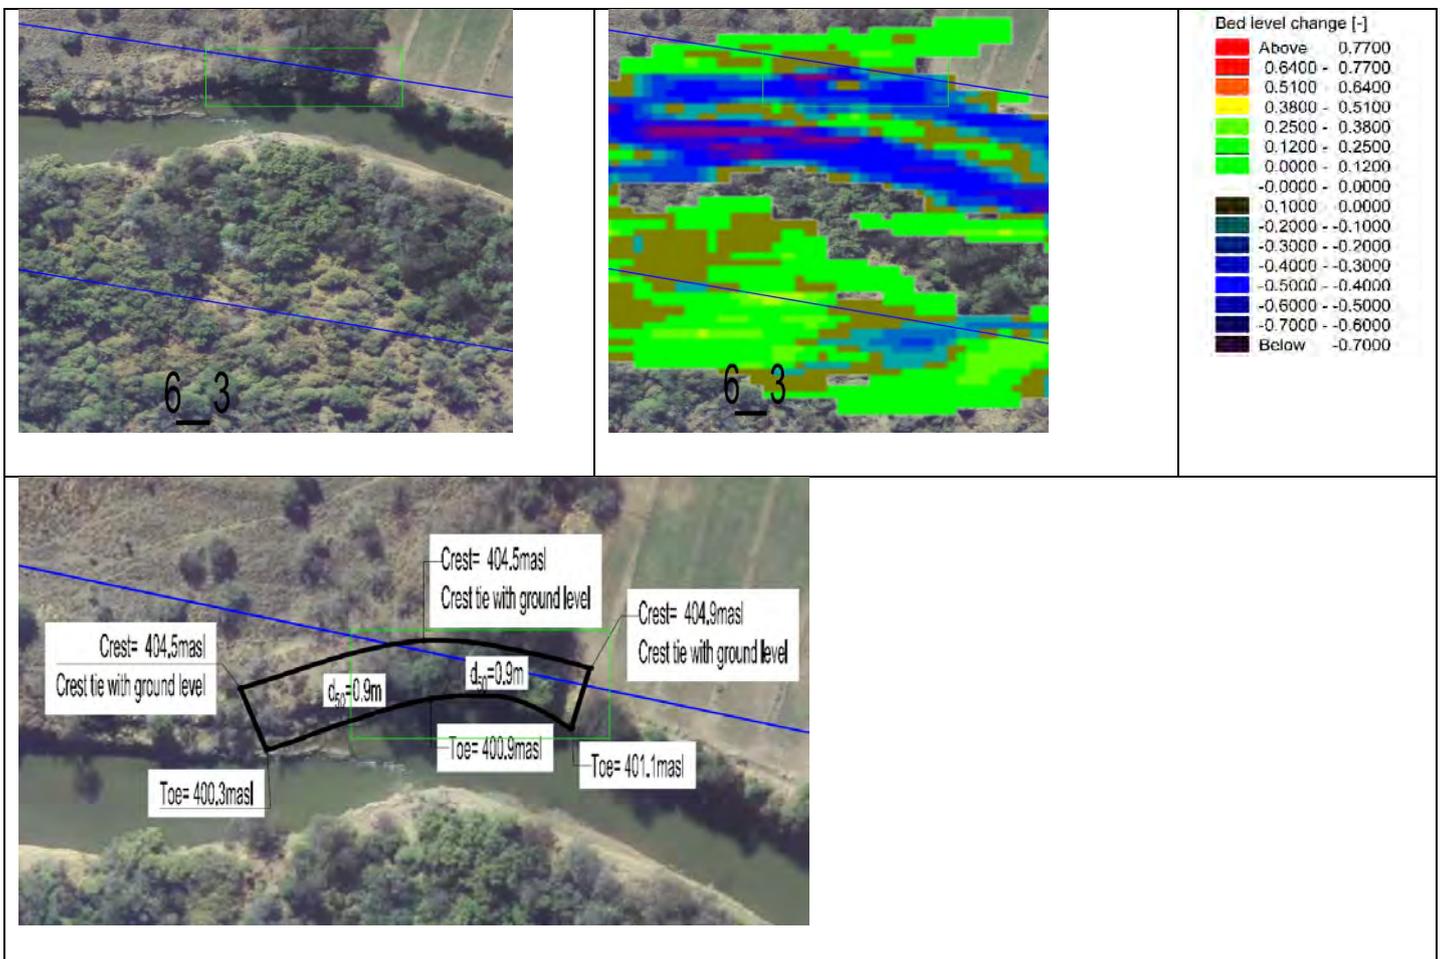

Zone 6_1 The zone has banks crossing the servitude and encroaching farmland.

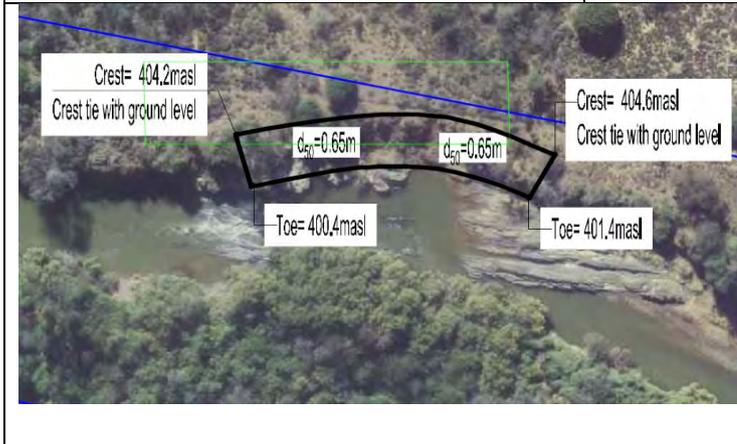

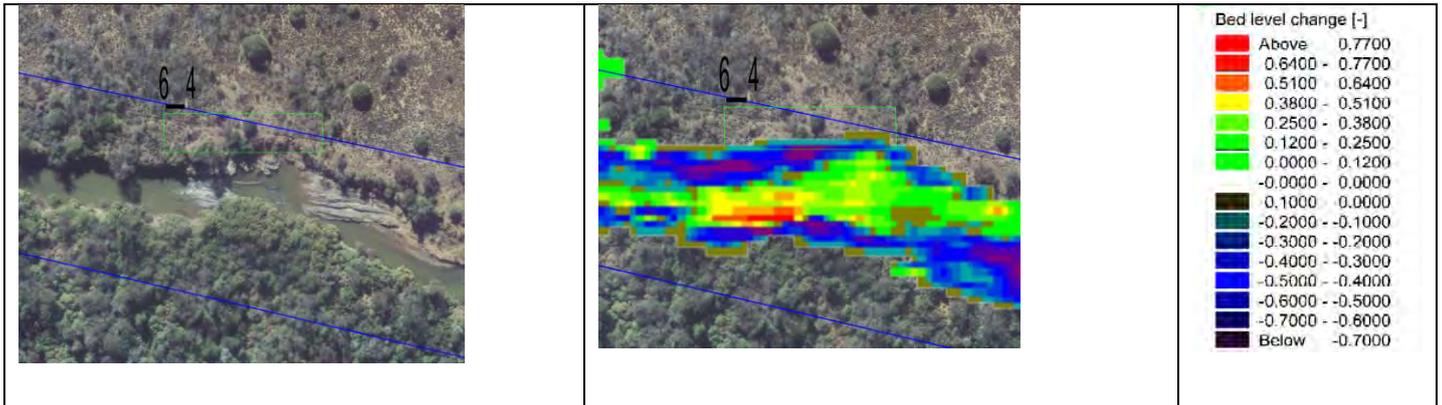

Zone 6_2 The zone has banks within the servitude. Upstream tributary flow induces the erosion and protection will constrict the flow thus not necessary.

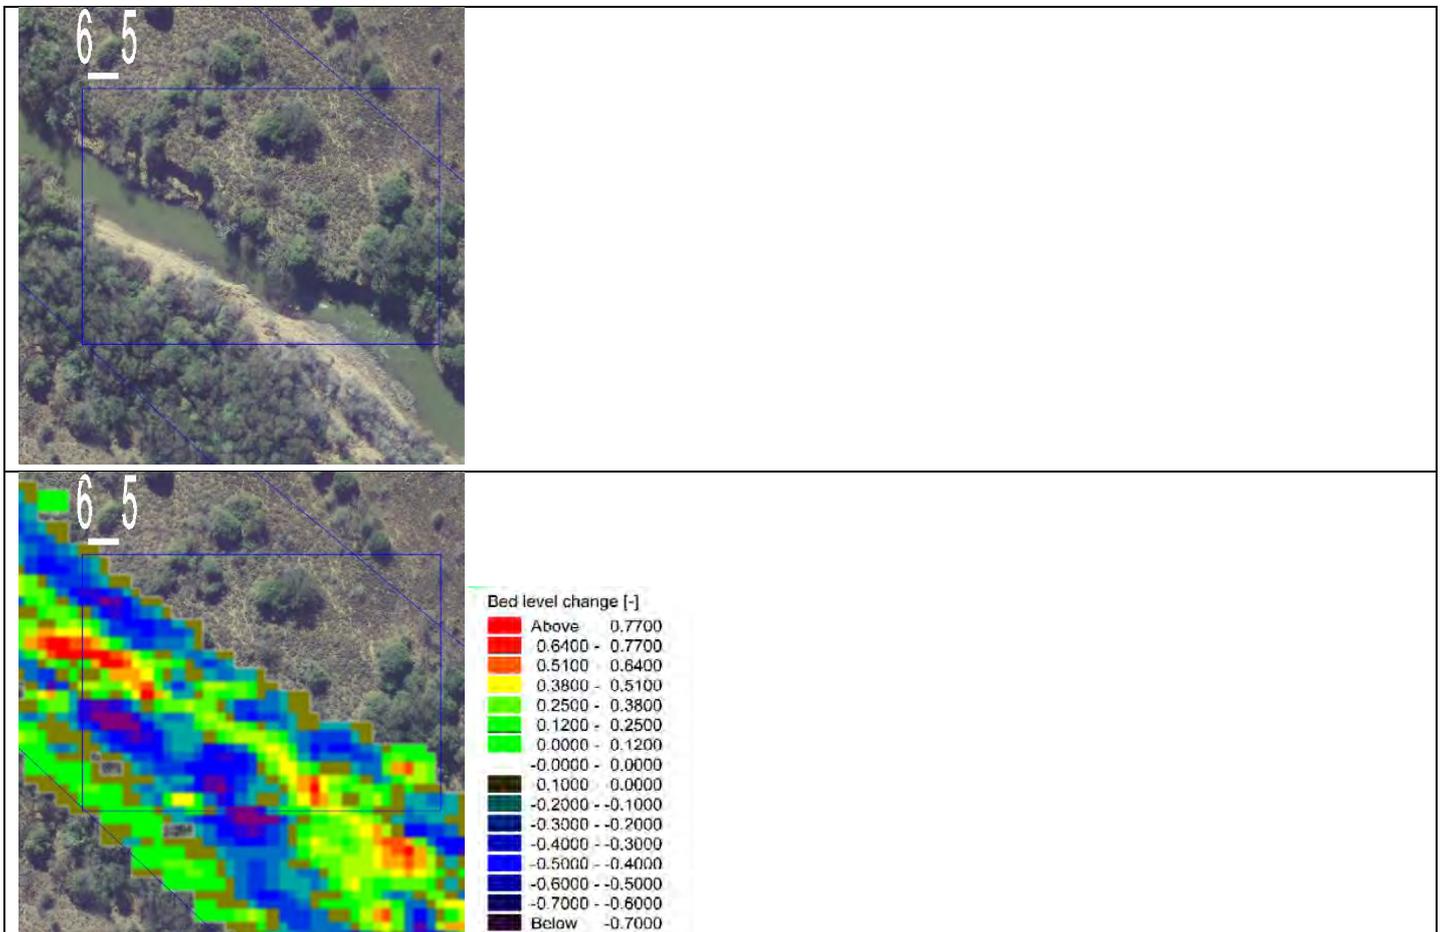

Zone 6_3 The zone has banks crossing the servitude and encroaching farmland.

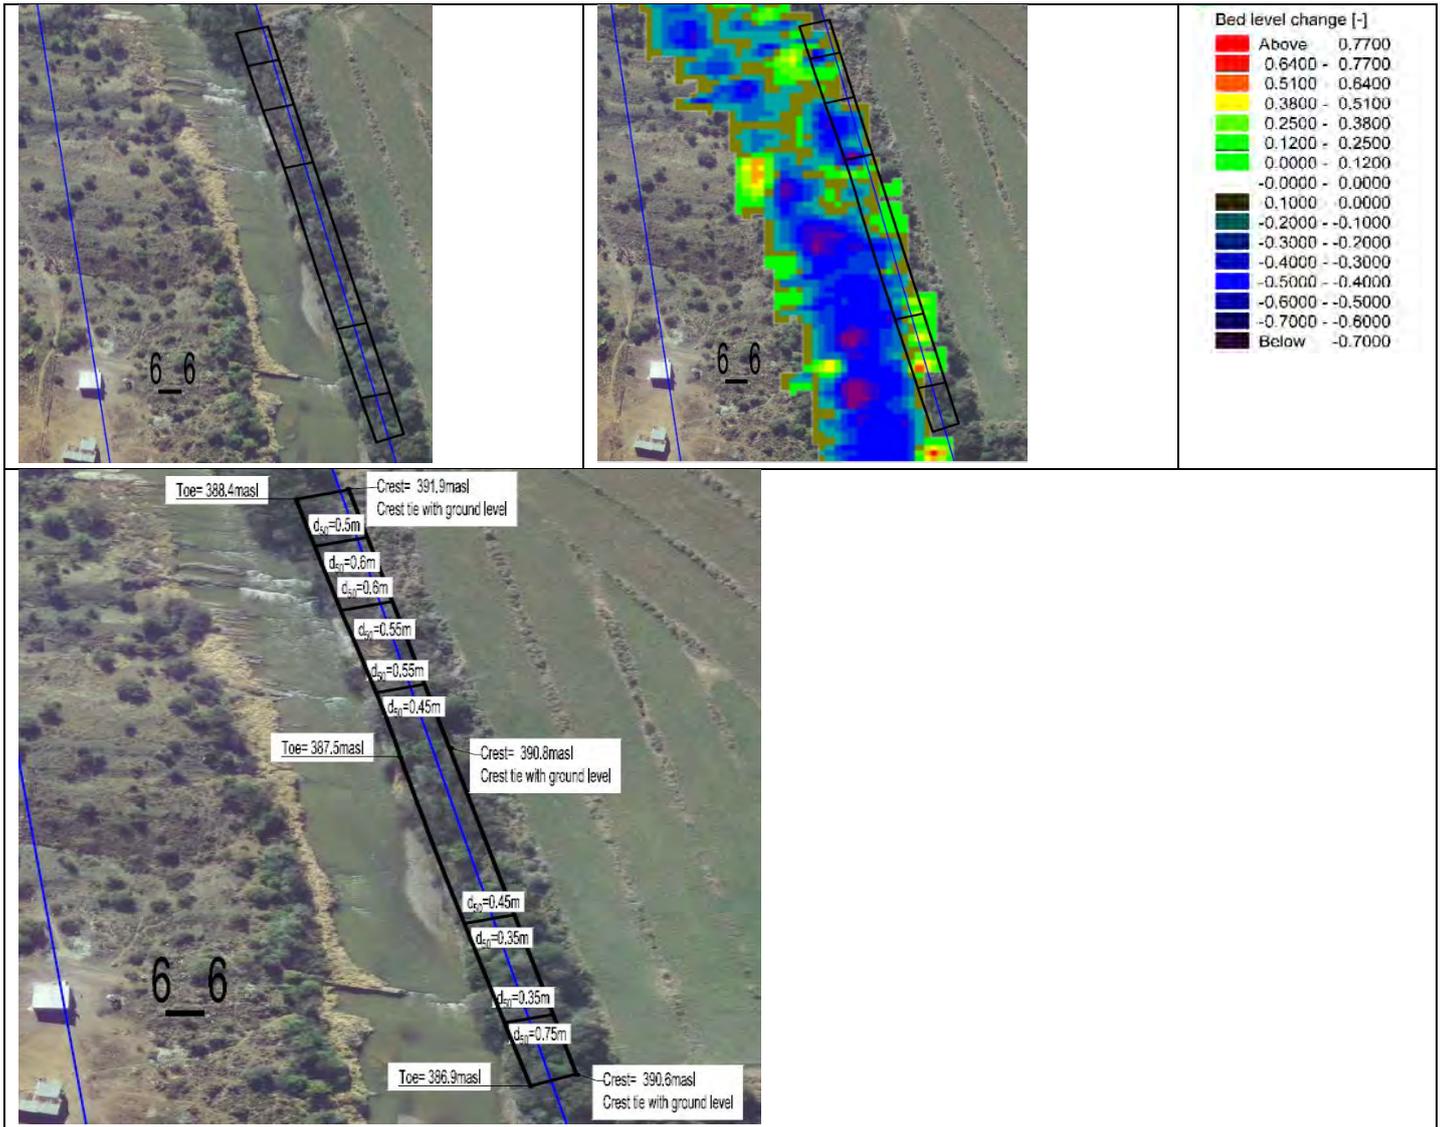

Zone 6_4 The zone has banks crossing the servitude but with bedrock outcropping.

Zone 6_5 The zone has unstable banks within the servitude and protection is not necessary.

Zone 6_6 The zone has banks crossing the servitude and encroaching farmland

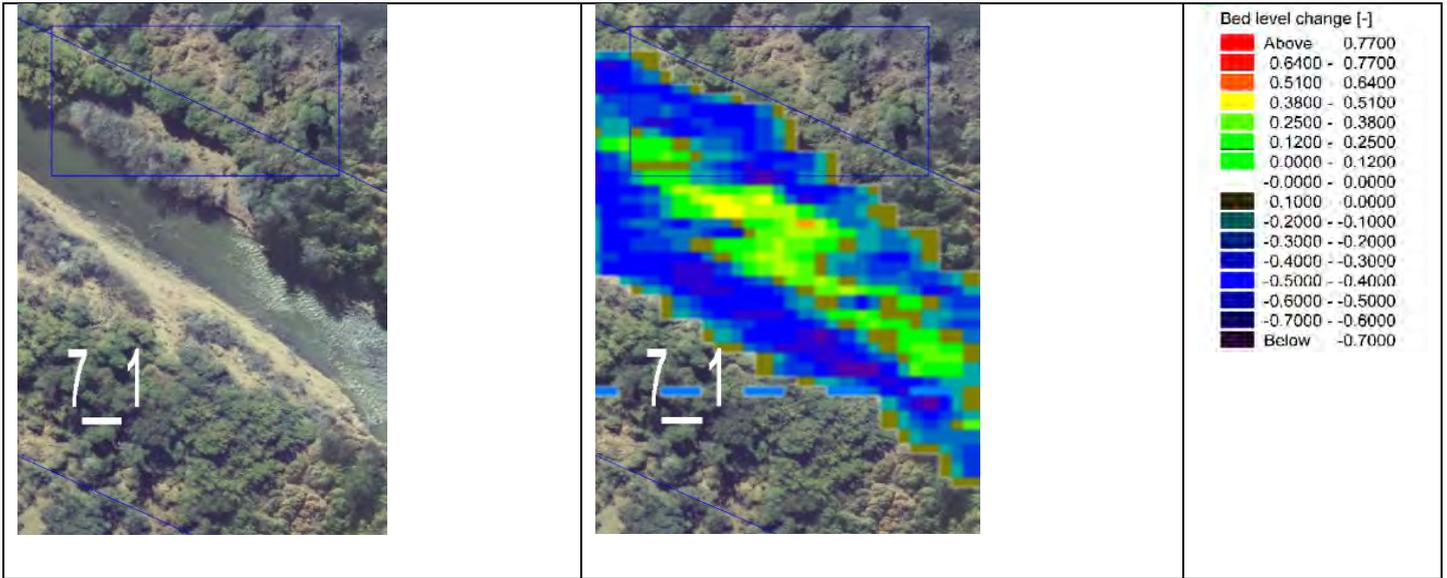

Zone 7

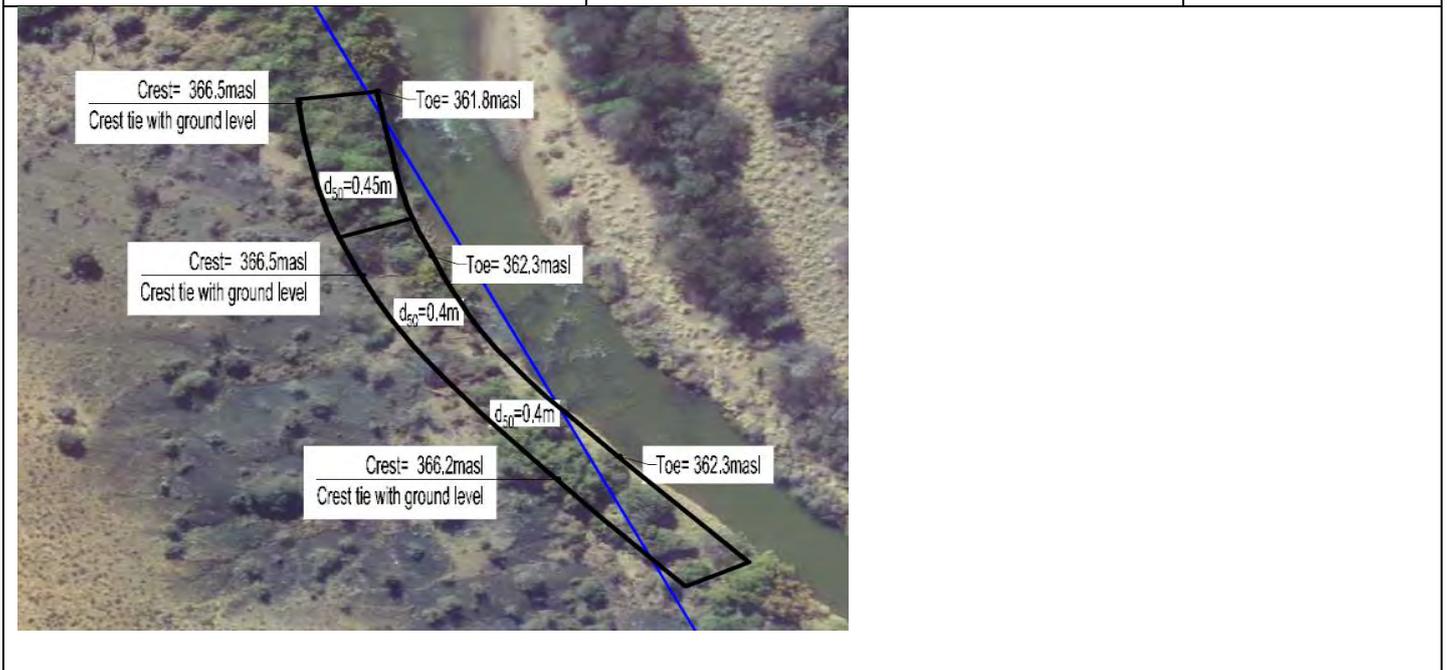

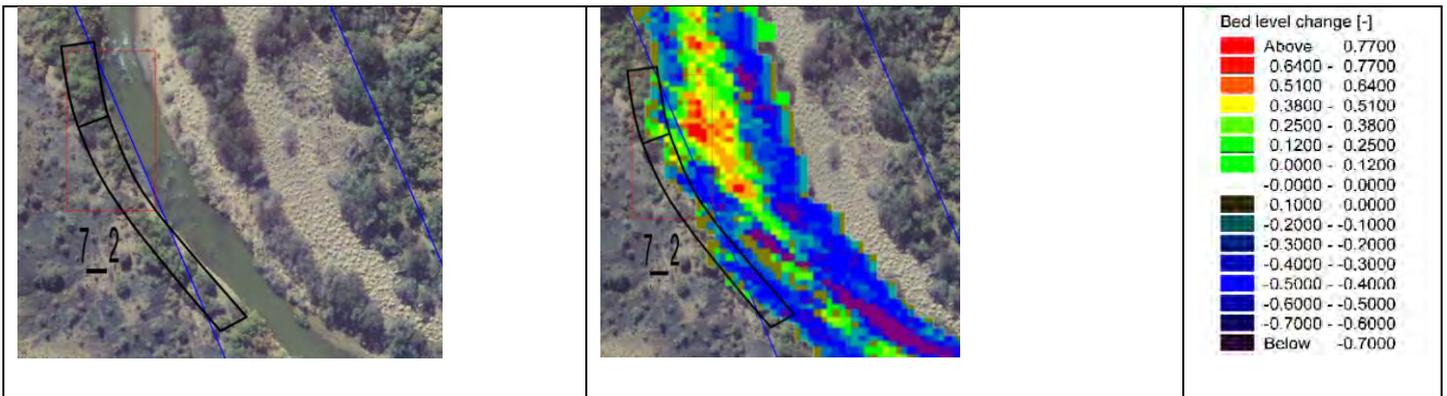

Path: J:\472748_Skoenmakers Rehab\9 GIS\GISPROJ\Map for BAR and WUL\472748_20160208_River_Rehab_Section_Layout_A3.mxd

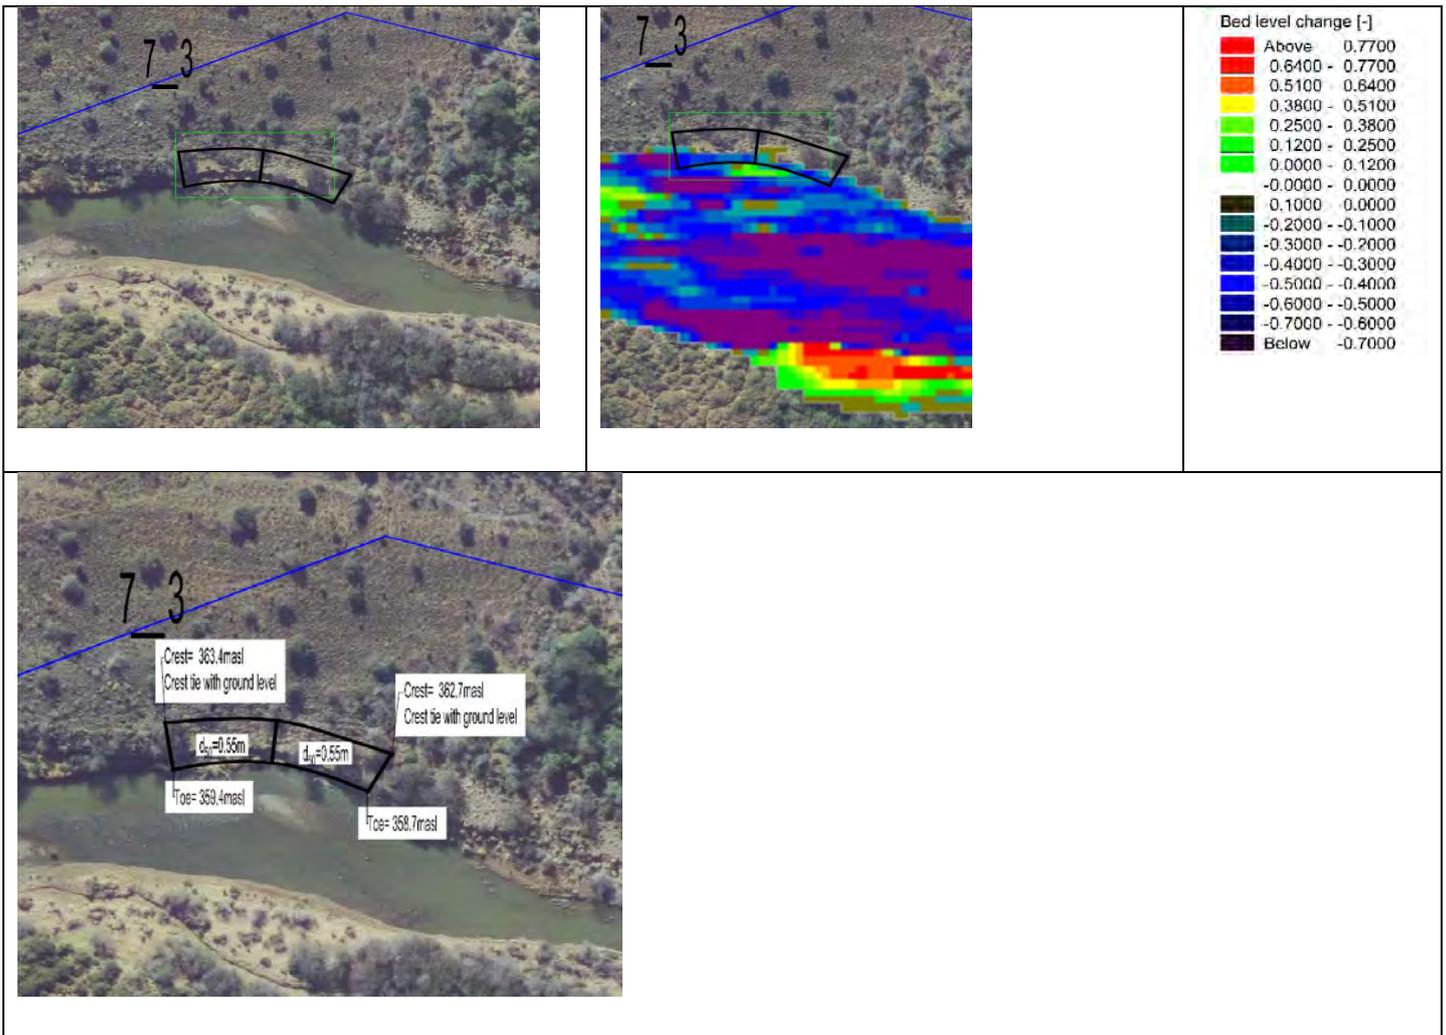

Zone 7_1 The zone has unstable banks within the servitude and protection is not necessary

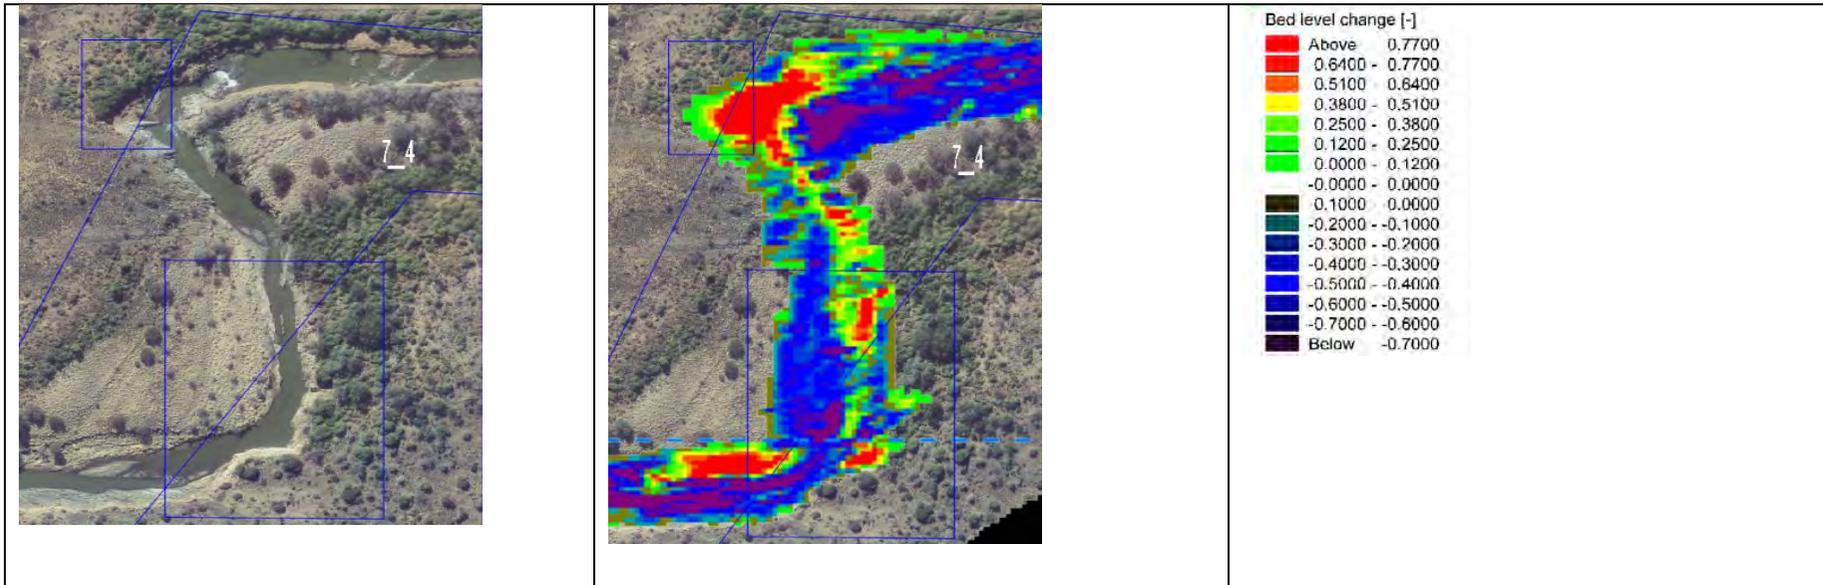

Zone 7_2 The zone has banks crossing the servitude

Zone 7_3 The zone has unstable banks within the servitude.

Zone 7_4 This area's river servitude seems inaccurate.

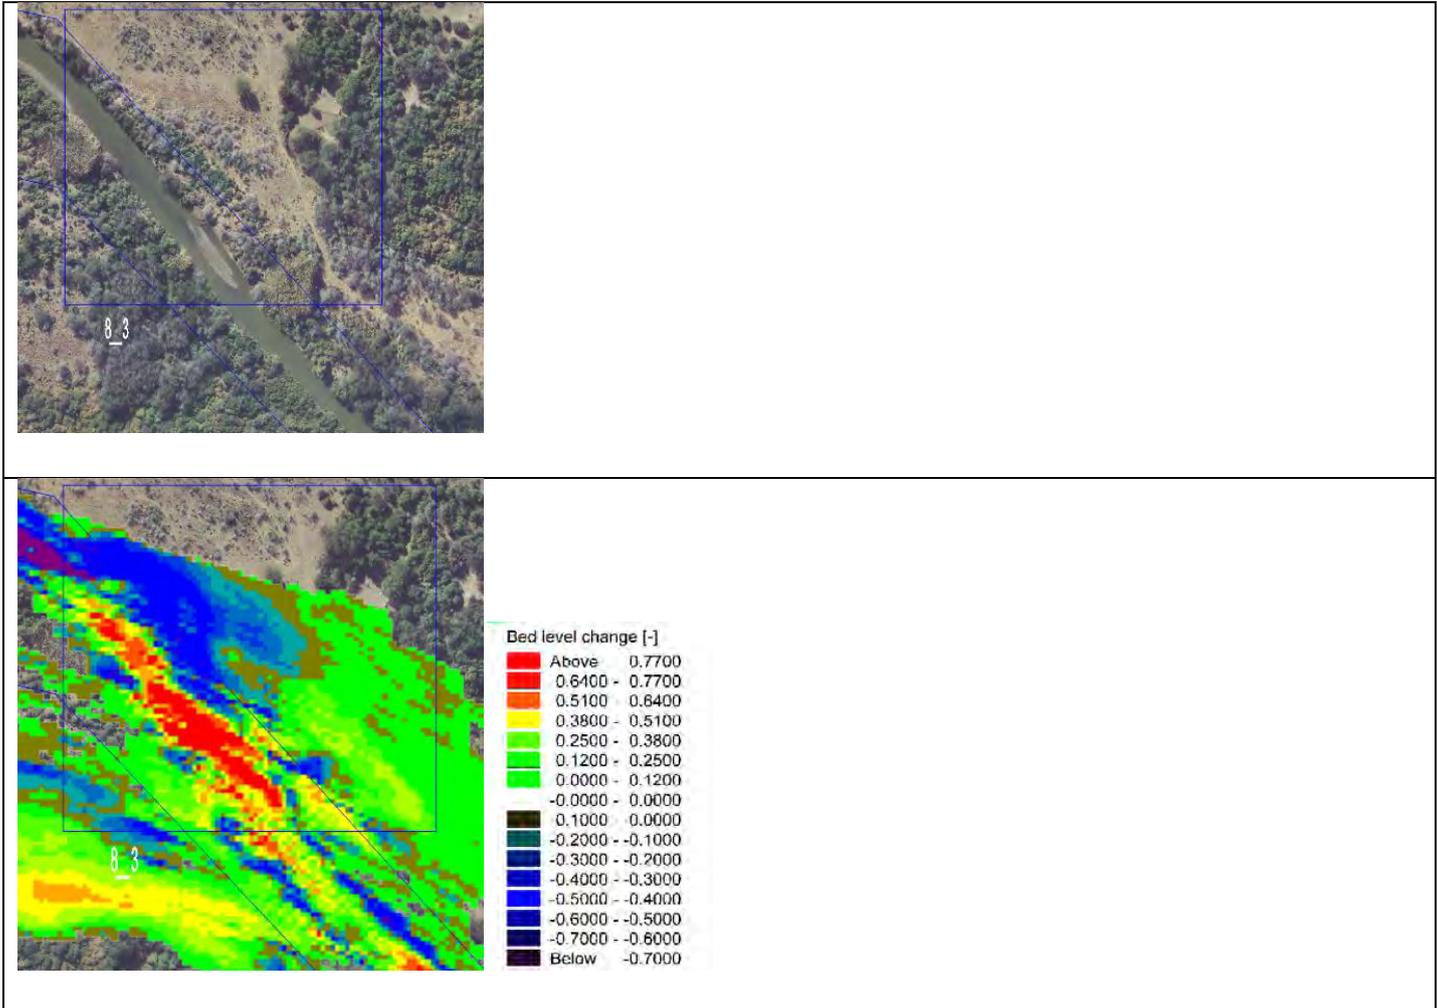

Zone 8

Path: J:\472748_Skoemakers Rehab\GIS\GISPROJ\Map\Maps for BAR and WULA\472748_20160208_River_Rehab_Section_Layout_A.3.mxd

Zone 8_3 Flow in this region is on a wide floodplain and protection will constrict the flow further, thus not necessary.

Zone 9

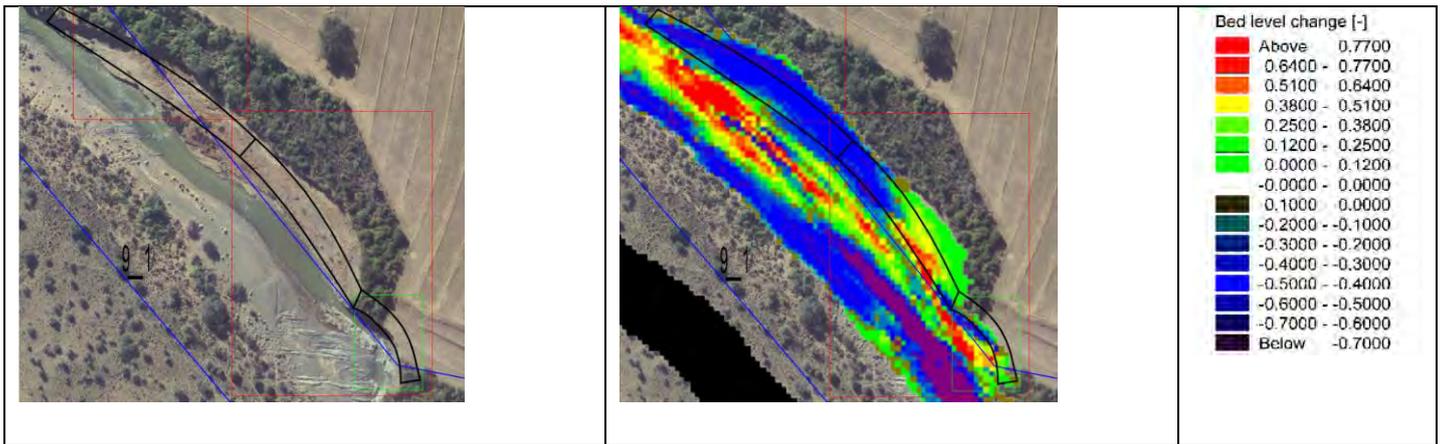

Legend
 River Rehabilitation Sites

	SKOENMAKERS RIVER REHABILITATION ASSESSMENT ZONE 9	Date	Completed by:
		08/02/2016	PAUJ
		Project No.	Scale
		472748	1:8,000

Path: J:\472748_Skoenmakers Rehab\9 GIS\GISPROJ\2M XDI\Maps for BAR and WULA\472748_20160208_River_Rehab_Section_Layout_A3.mxd

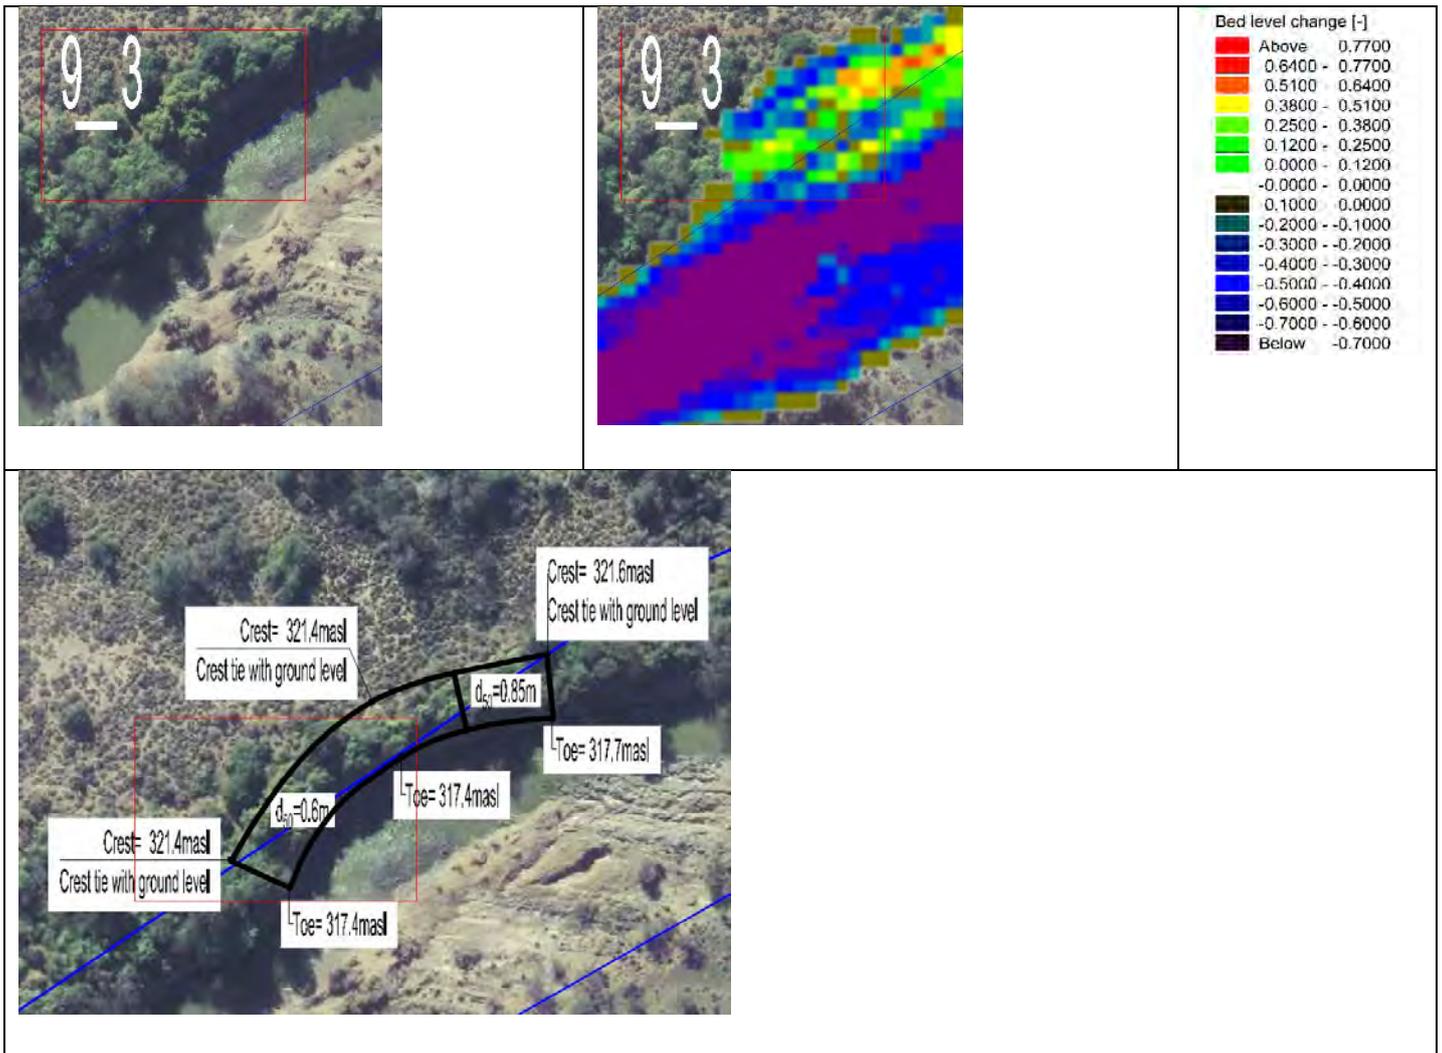

Zone 9_1 The zone has unstable banks crossing the servitude and encroaching onto farm land.

Zone 9_2 The zone has unstable banks within the servitude thus protection is not necessary.

Zone 9_3 The zone has unstable banks crossing the servitude which seemed to be inaccurate

Zone 10

Legend

SKOENMAKERS RIVER REHABILITATION ASSESSMENT
 ZONE 10

Date	Completed by
08/02/2018	PAUJ
Project No.	Scale
472748	1:8.000

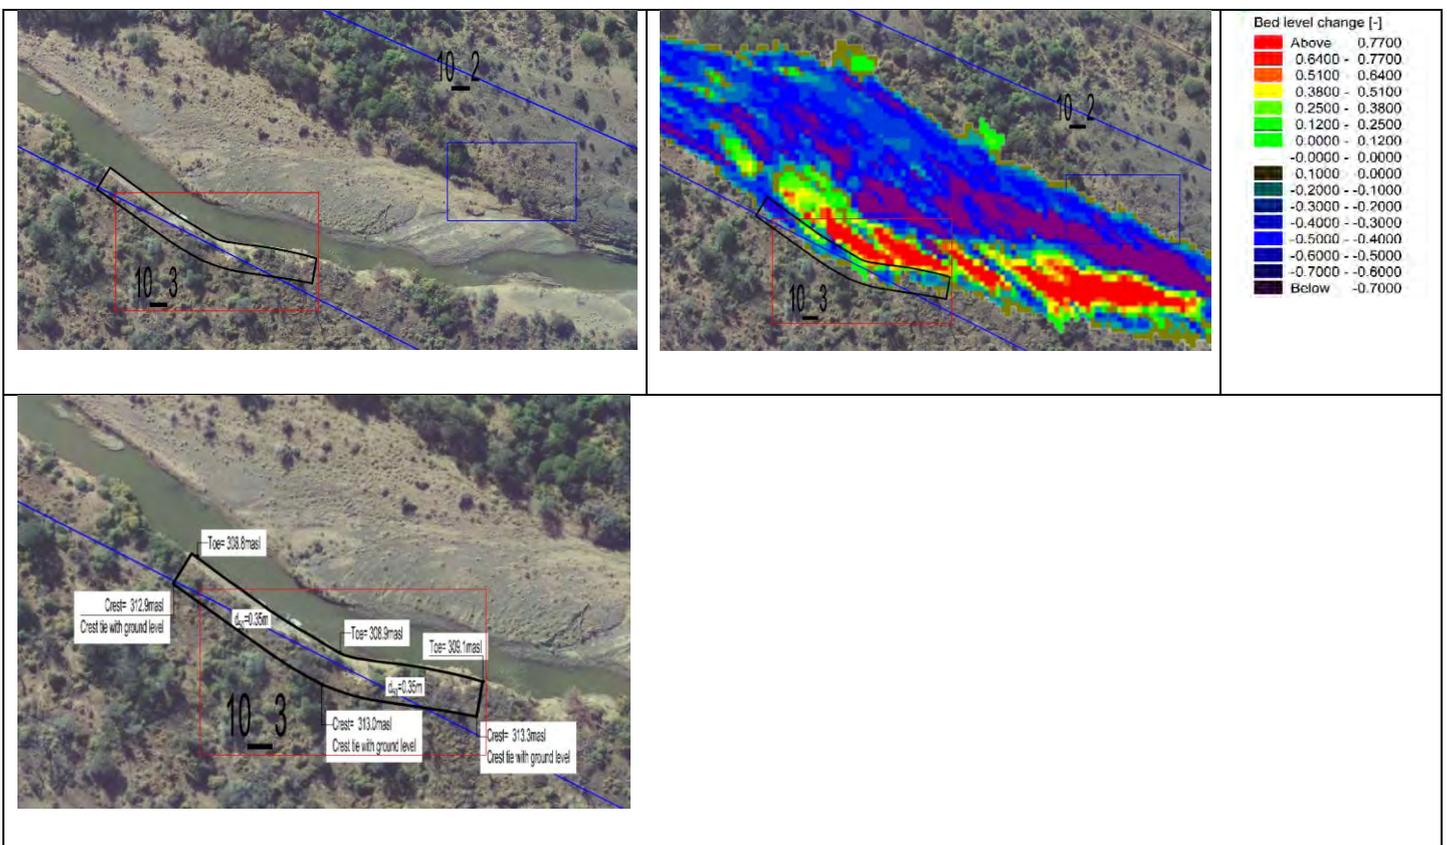

Path: J:\472748_Skoenmakers Rehab\9 GIS\PROJ\MI\XD\Maps for BAR and WULA\472748_20160208_River_Rehab_Section_Layout_A3.mxd

Zone 10_1 The area's river servitude seems to be inaccurate

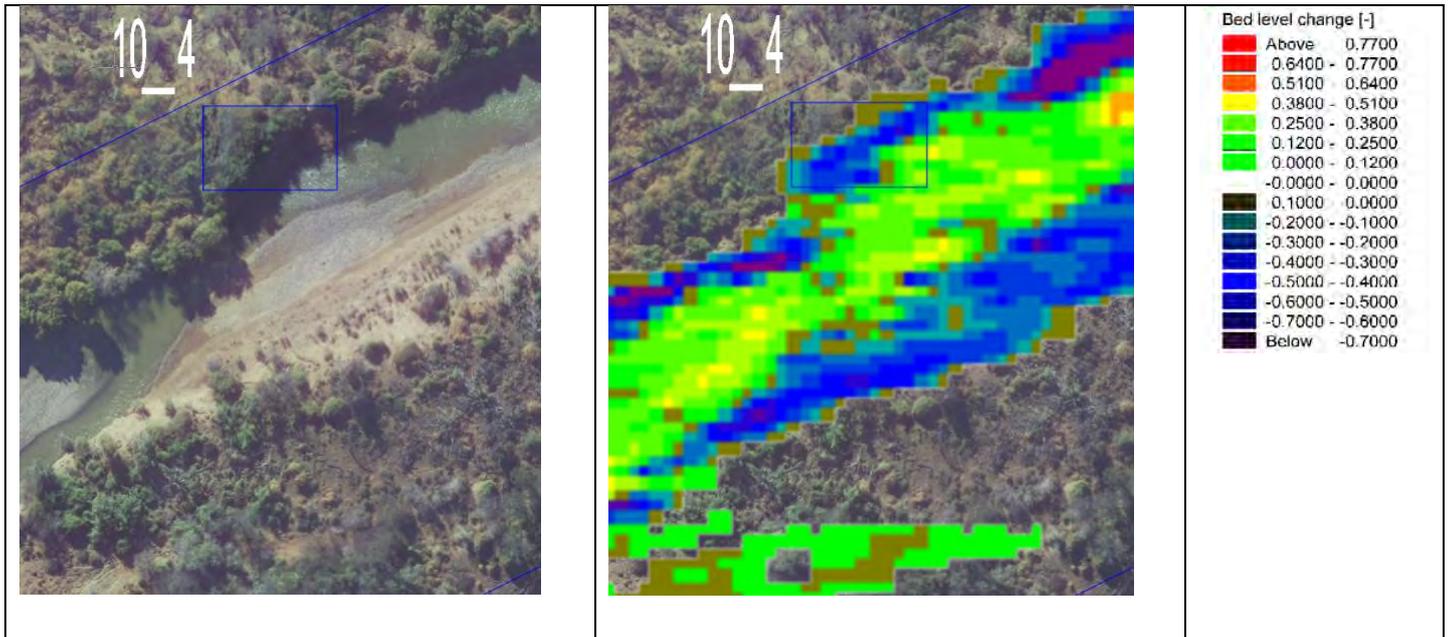

Zone 10_2 The zone has unstable banks within the servitude. Protection in this area is not necessary.

Zone 10_3 The zone has banks crossing the servitude.

Zone 10_4 The zone has banks within the servitude. Upstream tributary flow induces the erosion and protection will constrict the flow thus not necessary.

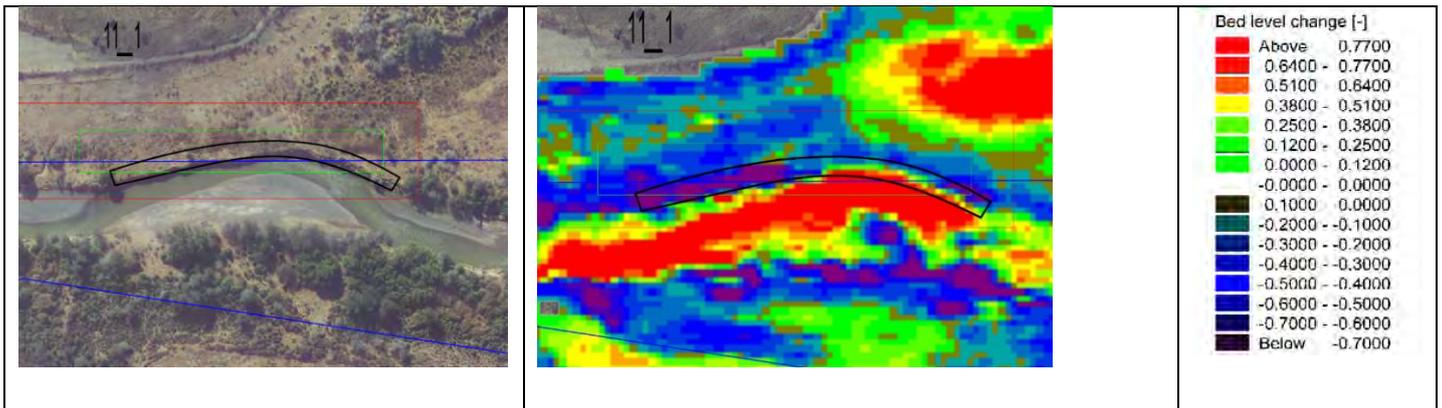

Zone 11

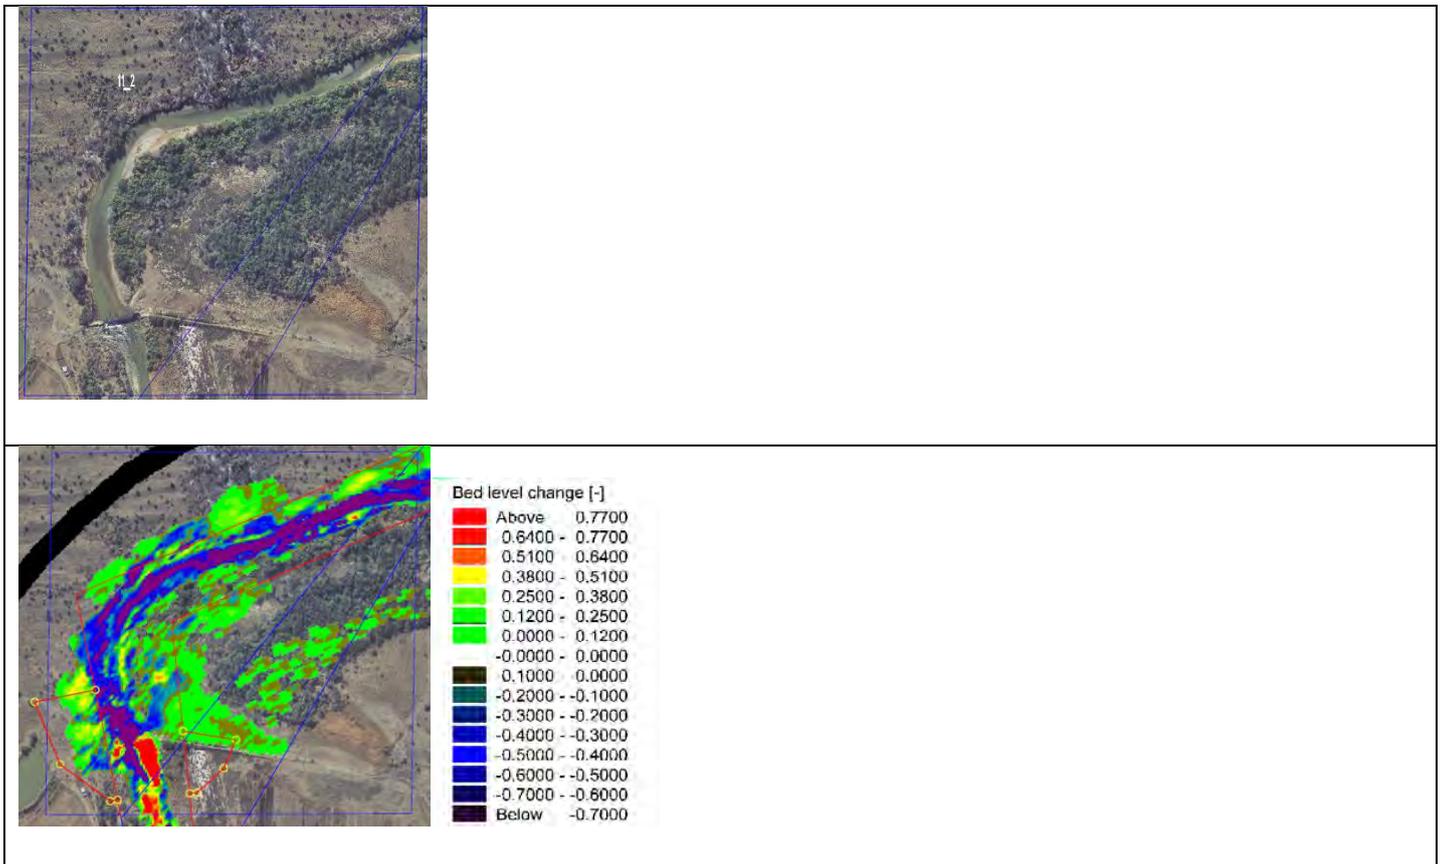

Path: J:\472748_Skoenmakers Rehab\GIS\GISPRO\JM\XDM\apps for BAR and WULAI\472748_20180208_River_Rehab_Section_Layout_A3.mxd

Zone 11_1 The zone has unstable banks crossing the servitude and flow is on a wide floodplain.

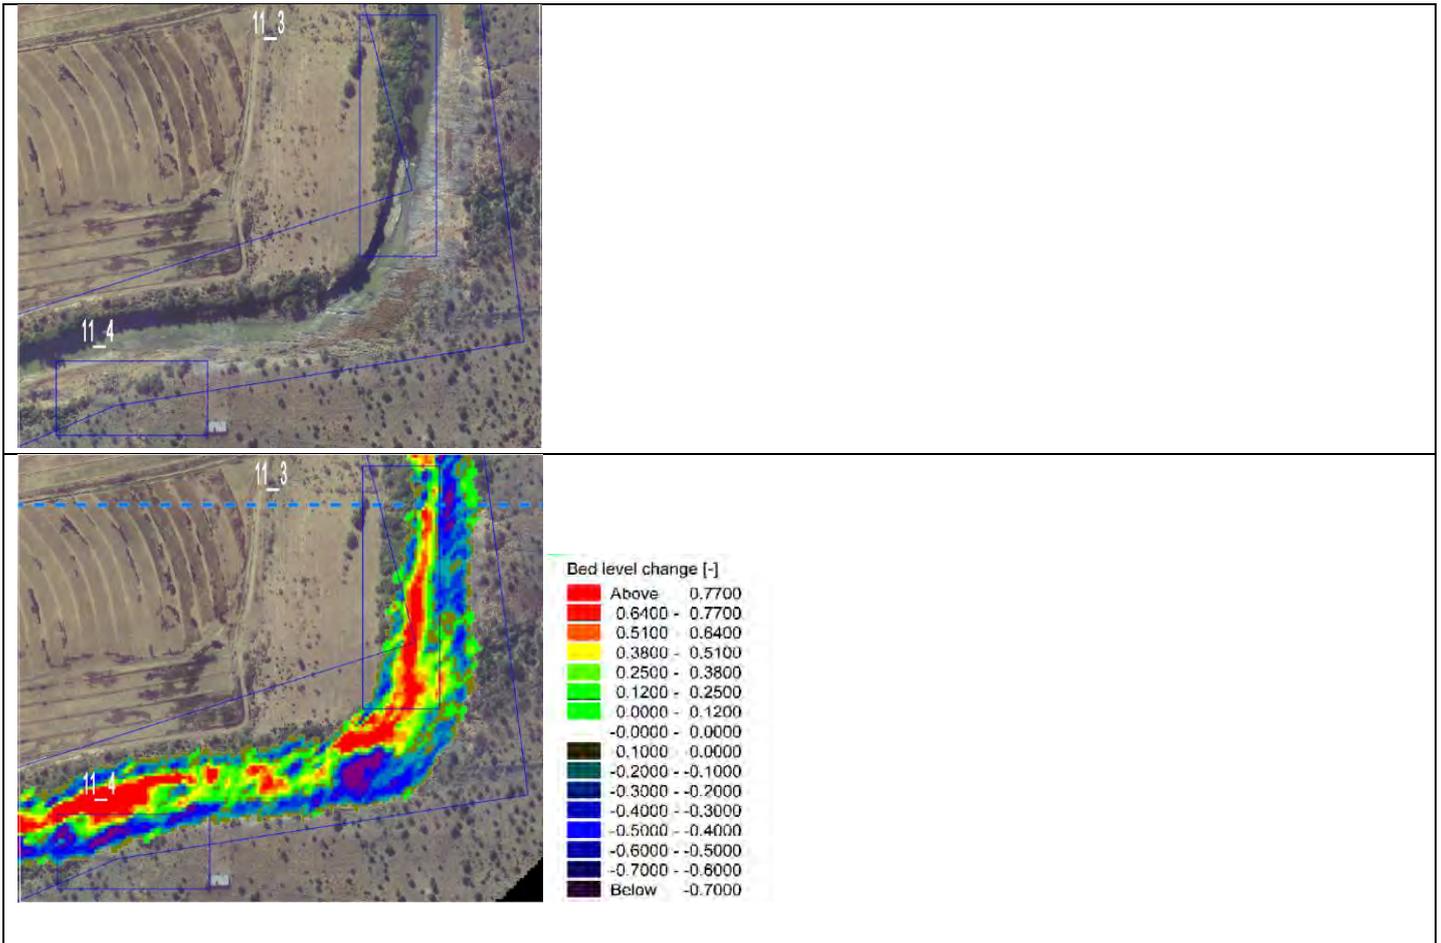

Zone 11_2 The area river servitude is inaccurate

Zone 11_3 The area's river servitude seems inaccurate.

Zone 11_4 The zone has unstable banks within the servitude. Protection in this area is not necessary.

Zone 12

Legend
