

Memo

To:	William Seabi	Date:	29 June 2017
Company:	Exxaro Central Coal (Pty) Ltd	From:	Andrew Caddick
Copy to:	Malusi Buthelezi	Project #:	499507
Subject:	Note for the Record of Pre Application Meeting with the Department of Mineral Resources		

1 Introduction and Presentation

A presentation was presented to the Department of Water and Sanitation (DWS) on the proposed expansion of Pit 1 and the proposed water pipeline from Dorstfontein East to Dorstfontein West Mine.

The proposed listed activities in terms of the National Environmental Management Act (Act No. 17 of 1998) (NEMA) which will be applied for are the following:

- Governmental Notice Regulation 983 Activity 10, 12, 19, 24, 28, and 34;
- Governmental Notice Regulation 984 Activity 6, 17, and 21.

The Environmental Impact Assessment process will commence following the submission of the application. The scoping report will be submitted for a 30-day commenting period as required by the EIA regulations.

The initial public participation process has started and site notices and newspaper adverts have been placed in the public domain. This has been done prior to the submission of the application form to ensure sufficient time during the scoping phase to address concerns from interested and affected parties sufficiently.

The Department of Mineral Resources (DMR) accepted the proposed way forward and mentioned that they will provide comments on the reports as soon as they receive them. It was requested that two copies of the application are submitted to the DMR and addressed to the Chief Director.

Regards
